Reading Power 4:

Advanced Reading Power 4 Linda Jeffries, Beatrice S. Mikulecky, 2014 The new Advanced Reading Power 4 offers a strategic student based approach to the teaching of reading that encourages users to view reading in English as a problem solving activity rather than a translation exercise *Developing Reading Power* Michael N. Milone, Skillcorp Publishers, 1983 *Reading Power, Revised & Expanded Edition* Adrienne Gear, 2015-10-06 Ten years ago Reading Power was launched in an elementary school in Vancouver It has since evolved into a recognized approach to comprehension instruction being implemented across Canada in the United States United Kingdom Sweden and China This ground breaking approach showed teachers how to help students think while they read connect question visualize infer and transform Since the publication of the first edition of Reading Power Adrienne Gear has continued to reflect on and refine her ideas about metacognition comprehension instruction and the Reading Power strategies This revised and expanded edition shares these new understandings and offers teachers new ideas new lessons and of course new anchor books to support the Reading Power principles An ideal resource for teachers familiar to this strategic approach to teaching reading or for those looking for new ways to connect thinking with reading *Reading Power* Adrienne Gear, 2013 *Developing Reading Power 4*, 2024-12-31 Book 4 stories were selected for their appeal to young readers and represent a wide variety of literary styles including fiction humor folktales biography mythology history science and nature study This resource is for grade 4 and aligns to the International Reading Association IRA and National Council of Teachers of English NCTE Standards 1 and 3 Developing Reading Power is a unique supplemental series in which high interest stories are brought together with activities that promote reading skills Emphasis is on literal and inferential comprehension Since students learn to read by reading one of our first goals was to select stories that children would want to read Our second goal was to make sure that children could read the stories That is why we measured the readability level and determined that many of the stories are within the students independent reading range for each grade This resource contains a readability range from 39 to 52 Degrees of Reading Power DRP units However we also included content that is at the instructional level for each grade making it possible for students to gain understanding of important new concepts refine skills and improve reading vocabulary
