Reading Report Card 1971-88 The:

The Reading Report Card, 1971-88 Ina V. S. Mullis, Lynn Jenkins, National Assessment of Educational Progress (Project), 1990 Intended to serve as a resource for the many and varied groups concerned with improving students reading proficiencies this report from the Nation's Report Card provides a long term perspective on students reading skills and strategies based on a series of five national assessments conducted from 1971 to 1988 Each chapter of the report provides a different perspective on trends in students reading abilities The first chapter describes changes in the average reading performance of 9 13 and 17 year olds across the five reading trend assessments conducted by the National Assessment of Educational Progress NAEP between 1971 and 1988 The second chapter defines levels of reading proficiency and presents the percentages of students attaining these successive levels in each assessment The third chapter summarizes trends in students responses to questions on their reading instruction and experiences and investigates the relationships between these background factors and reading proficiency Overall the findings described in the report reveal generally positive but subtle changes in reading performance at the national level since 1971 1 nine year olds assessed in 1988 read significantly better than their counterparts assessed in 1971 but this progress was made in the 1970s 2 thirteen year olds reading achievement has fluctuated slightly over the years and 3 seventeen year old students assessed in 1988 read significantly better than their counterparts assessed in either 1971 or 1975 A procedural appendix and an appendix of data are attached

RS **Resources in Education**, 1991-05 *Assessing Reading 1: Theory and Practice* Colin Harrison, Terry Salinger, 2002-01-04 This book along with its companion volume *Assessing Reading 2: Changing Practice in Classrooms* was originally conceived as the major outcome from an international seminar on reading assessment held in England It focuses particularly on theoretical and methodological issues though with a clear series of links to practices in assessment especially state and national approaches to classroom based assessment in the USA the UK and in Australia at both primary and secondary levels Chapters offer new perspectives on the theories that underlie the development and interpretation of reading assessments national assessments and classroom based assessment challenging readers to think in different ways *Office of Educational Research and Improvement Bulletin*, 1990 **Recent Department of Education Publications in ERIC** United States. Department of Education, 1991 Learning to Read in Our Nation's Schools Judith A. Langer, 1990 To assess the reading achievement of American school children the National Assessment of Educational Progress NAEP surveyed nationally representative samples of approximately 13 000 students at grades 4 8 and 12 attending public and private schools across the nation Students read a variety of literary and informative

passages and then answered a series of multiple choice and open ended questions designed to measure their ability to read and comprehend these passages In addition students provided background information about their reading experiences both in and out of school To supplement this information the teachers of fourth graders participating in the assessment completed a questionnaire about the instruction their students received Findings indicated that 1 the average reading proficiency of students increased substantially from grades 4 to 8 and less dramatically from grades 8 to 12 2 at all three grade levels there were great differences in reading proficiency according to socioeconomic status 3 more proficient readers reported home and school environments that emphasized academic achievement 4 students reported doing very little reading in school and for homework 5 students interest in books seems to decrease as they progress through school 6 emphasis on beginning reading instruction in grades 1 2 and 3 is overwhelmingly phonics based 7 instruction for most fourth graders is based on a single basal reader and 8 reasoning activities are not emphasized in class Extensive tables of data are included a procedural appendix and an appendix of data are attached NKA Digest of Education Statistics ,1991 Contains information on a variety of subjects within the field of education statistics including the number of schools and colleges enrollments teachers graduates educational attainment finances Federal funds for education libraries international education and research and development The Urban Underclass Christopher Jencks,Paul E. Peterson,2001-08-09 Many believe that the urban underclass in America is a large rapidly increasing proportion of the population that crime teenage pregnancy and high school dropout rates are escalating and that welfare rolls are exploding Yet none of these perceptions is accurate Here noted authorities including William J Wilson attempt to separate the truth about poverty social dislocation and changes in American family life from the myths that have become part of contemporary folklore **Adolescent Literacy** Judith Davidson,David Koppenhaver,2017-11-22 Originally published in 1988 Much has changed since then in schools Mobile technologies interactive whiteboards digital texts class websites student authored blogs social networking and photo sharing sites found integrated into so many classrooms hadn t even been imagined by most educators What hasn t changed however are the developmental needs of adolescents A sense of competence opportunities for creative expression positive social interactions and opportunities for self definition remain centrally important Similarly print literacy i e reading and writing with traditional orthography continues to contribute strongly to academic success employment opportunity health and life satisfaction Consequently this book remains very relevant today Through case descriptions of literacy programs situated in formal and informal settings the book draws attention to the ways that developmental appropriateness and engaging literacy instruction can assist all youth in reaching their full potential as readers and writers **Literacy in the United States** Carl F. Kaestle,Helen Damon-Moore,1991-01-01 Aims to shed new light on the issue of literacy in America providing a social history that broadens the definition of literacy considering who was reading what under what circumstances and for what purposes The book assesses trends in Americans reading abilities and reading habits **The Condition of Education** ,2002 Includes

a section called Program and plans which describes the Center's activities for the current fiscal year and the projected activities for the succeeding fiscal year

Digest of Education Statistics Thomas D. Snyder, 1997-02 This edition is the 30th in a series of publications initiated in 1962 Its primary purpose is to provide a compilation of statistical information covering the broad field of American education from kindergarten through graduate school The Digest includes a selection of data from many sources and draws especially on the results of surveys and activities of the National Center for Education Statistics NCES The publication contains information on a variety of subjects including 1 numbers of schools and colleges 2 numbers of teachers 3 enrollments 4 graduates 5 educational attainment 6 finances 7 Federal funds for education 8 employment and income of graduates 9 libraries and 10 international comparisons of education Supplemental information is provided on population trends attitudes toward education educational characteristics of the labor force government finances and economic trends Some information is also given on preschool and adult education Data are presented in 411 tables with an additional 20 tables in an appendix SLD
