texts a hundred short essays from 800 to 900 words on a hundred spiritual themes Believing that tradition is the action of the Holy Spirit making available the wisdom of the past in a new idiom and a time Valantasis moves from the premodern spiritual world of the Christian tradition to the postmodern realities of our current world and back again Sample entries Conversion Sanctification Incarnate Living Discernment Divine Indwelling Union with God Ennui Progress Holy Dying Habitual Prayer Thorns and Impediments Praying the Bodies Spiritual Direction Emotional Ecology Seeing Double The Body Transparent Temptation Consolations The Devil Visions of Deification Humility **The Sex Obsession** Janet R. Jakobsen,2023-04-11 The Sex Obsession connects perversity and possibility in American politics Reading the French Enlightenment Julie Candler Hayes,1999-07-15 In this 1999 book Julie Candler Hayes offers an ambitious reinterpretation of a crucial aspect of Enlightenment thought the rationalizing and classifying impulse Taking issue both with traditional liberal and contemporary critical accounts of the Enlightenment she analyses the writings of Denis Diderot Emilie Du Ch telet the Abb de Condillac Buffon d Alembert and numerous others to argue for a new understanding of systematic reason as complex paradoxical and ultimately liberating Hayes examines the tensions between freedom and constraint abstraction and materialism linear and synoptic order that pervade not only philosophic and scientific discourse but also epistolary writing fiction and criticism Drawing on the insights of a wide range of theorists from Adorno Habermas and Foucault to Deleuze and Derrida she offers a dialogue between the eighteenth century and our own an ongoing exploration of the question what is Enlightenment

Defining the Victorian Nation Catherine Hall,Keith McClelland,Jane Rendall,2000-05-25 Defining the Victorian Nation offers a fresh perspective on one of the most significant pieces of legislation in nineteenth century Britain Hall McClelland and Rendall demonstrate that the Second Reform Act was marked by controversy about the extension of the vote new concepts of masculinity and the masculine voter the beginnings of the women s suffrage movement and a parallel debate about the meanings and forms of national belonging Fascinating illustrations illuminate the argument and a detailed chronology biographical notes and a selected bibliography offer further support to the student reader **The Science of Reading** Adrian Johns,2023-04-05 For the first time the story of how and why we have plumbed the mysteries of reading and why it matters today Reading is perhaps the essential practice of modern civilization For centuries it has been seen as key to both personal fulfillment and social progress and millions today depend on it to participate fully in our society Yet at its heart reading is a surprisingly elusive practice This book tells for the first time the story of how American scientists and others have sought to understand reading and by understanding it to improve how people do it Starting around 1900 researchers convinced of the urgent need to comprehend a practice central to industrial democracy began to devise instruments and experiments to investigate what happened to people when they read They traced how a good reader s eyes moved across a page of printed characters and they asked how their mind apprehended meanings as they did so In schools across the country millions of Americans learned to read through the application of this science of reading At the same time workers

fanned out across the land to extend the science of reading into the social realm mapping the very geography of information for the first time Their pioneering efforts revealed that the nation's most pressing problems were rooted in drastic informational inequities between North and South city and country and white and Black and they suggested ways to tackle those problems Today much of how we experience our information society reflects the influence of these enterprises This book explains both how the science of reading shaped our age and why with so called reading wars still plaguing schools across the nation it remains bitterly contested

Fabricating Pleasure Karin A. Wurst, 2005 Traces how the German middle class created a unique form of domestic culture that fused consumption with high culture in fashionable forms of entertainment Entertainment defined as occasions for creating pleasure added an important dimension to the lifestyle and self definition of the German middle class around the turn of the nineteenth century Modern forms of culture and consumption appearing around this time not only enhanced pleasure in physical sensations but also enabled imaginary sensations in the absence of actual stimuli Desiring rather than having became an important mode of cultural consumption linking products and practices with self image serving to express social identity in an increasingly more anonymous society a society where the modern freedom of choice brought with it a loss of tradition and the stability attached to it Fabricating Pleasure traces the creation of this unique form of domestic culture showing how the bourgeoisie of late eighteenth and early nineteenth century Germany fused consumption with high culture Author Karin Wurst illuminates the sociohistorical context and the emergence of the modern middle class its differentiation and its conception of culture In her thoughtful analysis Wurst reconstructs the roles of *Empfindsamkeit* sensibility and the new love paradigm examining the change in mentality they fostered through the reconceptualization of pleasure and entertainment The book also discusses the relationship between print culture using Bertuch's *Journal des Luxus und der Moden* as its prime example and an increase in social mobility From art and music to fashion and travel Wurst places these popular forms of entertainment and pleasurable diversion in their social and historical contexts and also shows how they have remarkable bearing on present day debates on cultural literacy

Ethics and Politics in Modern American Poetry John Wrighton, 2012-06-25 From the Objectivists to the poetry this thoughtful and innovative book explores the dynamic relationship between the ethical imperative and poetic practice revitalizing the study of the most prominent post war American poets in a fresh provocative way Contributing to the turn to ethics in literary studies the book begins with Emmanuel Levinas philosophy proposing that his reorientation of ontology and ethics demands a social responsibility In poetic practice this responsibility for the other it is argued is both responsive to the traumatized semiotics of our shared language and directed towards an emancipatory social activism Individual chapters deal with Charles Olson's The

Maximus Poems including reproductions of previously unpublished archive material Gary Snyder's environmental poetry Allen Ginsberg's Beat poetics Jerome Rothenberg's ethnopoetics and Bruce Andrew's Language poetry Following the book's chronological and contextual approach their work is situated within a constellation of poetic schools and movements and in relation to the shifting socio-political conditions of post-war America In its redefinition and extension of the key notion of poethics and as guide to the development of experimental work in modern American poetry this book will interest and appeal to a wide audience

Scent and Scent-sibilities Kelvin E. Y. Low, 2008-12-18 Smells are distinct and ubiquitous They envelope us enter our bodies and emanate from us Yet they remain relegated to the background of everyday life experiences This book attempts to highlight the social salience of smell in social actors day to day encounters where issues involving morality and social othering presentation of self and personhood intertwine with analyses of smell as a social conduit These encounters include the experiences of anosmic individuals which capture non-olfactive social worlds that are rarely addressed hitherto Further deliberations on olfaction in relation to social memberships of race class and gender elucidate upon social boundaries of inclusion and exclusion constructed vis-à-vis smell as a social marker Olfactive adjudications of race and class are then expanded upon through the author's discussion of various smellscape in the context of Singapore Olfaction sanitary discipline and olfactive simulacra are also expounded upon thereby underscoring the control and manipulation of scents in the contexts of modernity and postmodernity Smells therefore offer insights into the workings of social relations and power structures in society By predicating analyses on empirical data procured from Singapore along with case studies from the region and beyond this study draws much needed attention on smell which has been a neglected sense in the wider literature In addition the concurrent employment of the other senses will also be explicated which therefore demonstrates the social character of smell and other sensory modalities through historical and contemporary milieux This book is a pioneering effort in offering sociocultural interpretations of scents based on primary and secondary data analysed using the trajectory of sociology of everyday life

Symbol and Sacrament Louis-Marie Chauvet, 1995 This work comes at an opportune hour a time in which many complain that contemporary theology lacks a general theory of sacraments Chauvet charts a reorientation in sacramental

theology from the scholastic treatments which appropriated the metaphysical categories of causality and substance to develop an essentially instrumentalist appreciation of grace in favor of an approach through the category of symbol In this approach the subject is as much grasped and transformed by the symbolic representation as is the object being interpreted Chauvet commands a wealth of scholarship which he deploys to powerful effect His work in developing a foundational theology of sacramentality will remain the standard for years to come *Dazzling Bodies* Richard Valantasis,2014-10-23 Spirituality is always developed and nurtured in community and communities have particular spiritualities *Dazzling Bodies* promotes practices and performances as the basis for individual and community spiritual formation by analyzing specific experiences and real life situations in personal and corporate life Three bodies are delineated as the basis for spiritual formation the physical body the social body and the corporate body Drawing on theories of communication semiotics social semiotics and narrative theory the book examines personal and corporate spiritual formation both by plotting the ways community systems create solidarity and by analyzing community systems for the modulation of power at work *Dazzling Bodies* explores the development of a specific language system for each community taking the sermon as the primary instrument of community formation Liturgy and worship receive special attention A theory of asceticism based on specific performances founded in renewed social relationships and forming an alternative symbolic universe provides parameters for individual and corporate spiritual formation **Advertising Myths** Anne Cronin,2012-11-12 Advertising is often portrayed negatively as corrupting a mythically pure relationship between people and things In *Advertising Myths* Anne Cronin argues that it is better understood as a matrix of transformation that performs divisions in the social order and arranges classificatory regimes Focusing on consumption controversies Cronin contends that advertising is constituted of circuits of belief that flow between practitioners clients regulators consumers and academics Controversies such as those over tobacco and alcohol advertising she argues distil these beliefs and articulate with programmes of social engineering aimed at altering consumption patterns This book will be essential reading for students and academics of advertising and consumption

Queer Democracy Daniel D. Miller,2021-08-25 *Queer Democracy* undertakes an interdisciplinary critical investigation of the centuries old metaphor of society as a body drawing on queer and transgender accounts of embodiment as a constructive resource for reimagining politics and society Daniel Miller argues that this metaphor has consistently expressed a desire for social and political order grounded in the social body's imagined normative shape or morphology The consistent result from the concord discourses of the pre Christian Stoics all the way through to contemporary nationalism and populism has been the suppression of any dissent that would unmake the social body's presumed normativity Miller argues that the conception of embodiment at the heart of the metaphor is a fantasy and that negative social and political reactions to dissent represent visceral dysphoric responses to its reshaping of the social body He argues that social body's essential queerness defined by fluidity and lack of a fixed morphology spawns queer democracy expressed through ongoing social and political

practices that aim to extend liberty and equality to new social domains Queer Democracy articulates a new departure for the ongoing development of theoretical articulations linking queer and trans theory with political theory It will appeal to both academic and non academic readers engaged in research on political theory populism US religion gender studies and queer studies
