Mystical Resistance Ellen Davina Haskell,2016 Mystical Resistance reveals the kabbalistic masterpiece Sefer ha Zohar commonly known as the Zohar as a rich source for understanding Jewish resistance to Christian authority Composed against a backdrop of rising religious intolerance the Zohar

Eternity Now Wojciech Tworek,2019-07-15 The Habad movement formed in eighteenth century Belarus has developed into one of the most influential streams of Hasidic Judaism Drawing on both mystical sermons and legal writings of its founder Rabbi Shneur Zalman of Liady 1745 1812 Eternity Now provides the first account of the

historiosophical dimensions of early Habad doctrine Challenging the commonly held view that Shneur Zalman was primarily concerned with supratemporal transcendence Wojciech Tworek reveals the importance of time and history in his teachings

Tworek argues that the worldly dimensions of Shneur Zalman s thought were largely responsible for the rapid growth of Habad at the turn of the nineteenth century and fostered its transformation from an elitist circle into a mass movement

Tworek s readings of Hebrew and Yiddish sources demonstrate the implications of these ideas not only for male scholars but also for non scholars Jewish women and even non Jews Philosophical and kabbalistic thought joined together to form a model

of religious experience attractive to a broad audience laying an ideological foundation for the missionary messianism that was to become a hallmark of Habad in the twentieth century

The Miriam Tradition Cia Sautter,2010-12-01 The Miriam Tradition works from the premise that religious values form in and through movement with ritual and dance developing patterns for enacting those values Cia Sautter considers the case of Sephardic Jewish women who following in the tradition of Miriam the prophet performed dance and music for Jewish celebrations and special occasions She uses rabbinic and

feminist understandings of the Torah to argue that these women called tanyaderas taught Jewish values by leading

appropriate behavior for major life events Sautter considers the religious values that are in music and dance performed by tanyaderas and examines them in conjunction with written and visual records and evidence from dance and music traditions Explaining the symbolic gestures and motions encoded in dances Sautter shows how rituals display deeply held values that are best expressed through the body The book argues that the activities of women in other religions might also be examined for their embodiment and display of important values bringing forgotten groups of women back into the historical record as important community leaders

The Feminine Messiah Ruth Kara-Ivanov Kaniel, 2021-08-30 In *The Feminine Messiah* King David in the Image of the Shekhina in Kabbalistic Literature Ruth Kara Ivanov Kaniel presents an in depth study focusing on the centrality of the figure of King David in Jewish culture and mystical literature King David is one of the most colorful complex and controversial personalities in Jewish lore While numerous studies have focused on David s centrality to biblical literature and late antiquity to date no comprehensive scholarly attempt has been made to investigate his image in Jewish kabbalistic literature This innovative study also contributes to the understanding of the connection between the mystical and psychoanalytic perception of the self as well as illuminating issues of gender fluidity identity and sexuality in medieval kabbalistic literature

Reflections on Knowledge and Language in Middle Eastern Societies Yonatan Mendel, Bruno De Nicola, Husain Qutbuddin, 2010-08-11 This book presents a collection of articles that put forward original research and significant insight regarding several key issues related to knowledge and language in Middle Eastern societies The aspects studied include the role of knowledge and language in affirming and negating political agendas and self identities within areas of conflict and tension ideas regarding the usefulness and interaction of religious and secular knowledge and the attributes that render knowledge and language especially that which is believed to be of divine origin outstanding and worthy of admiration The selection of studies has been purposefully diverse to include a variety of languages including Arabic Turkish Hebrew and Persian within multiple traditions including Hellenism Judaism Christianity and Islam while focussing on a range of periods from the classical to the mediaeval to the modern and

examining a range of issues such as methods of analysing and interpreting Persian Turkish and Arabic literature literary and other attributes of the Bible and the Qur'an diglossic languages the Turkish modernisation project Turkish Kurdish tensions Andalusian music Azerbaijani politics and the Israeli Palestinian conflict By underlining the substantial commonalities that exist between such seemingly different fields of research the book highlights the idea increasingly on the wane in departments of Middle Eastern Studies across many universities that a shared area of study viz the Middle East naturally and inherently entails a shared cultural historical and sociological milieu It suggests that academics who engage in different branches of research related to this area should rather than focussing singly on their own field avail substantially and meaningfully of one another's scholarship learn from each other's methodologies and collectively build upon a body of knowledge that should never be seen as dissociated

The Life of the Soul Andrea Gondos,Leore

Sachs-Shmueli,2024-12-01 The Life of the Soul surveys the wide ranging theories Jewish mystics have offered to the vexing question what precisely transpires after we die A common element in their theories is that human life is a part of a larger ecosystem of being which also includes plants animals and inanimate things like rocks They further maintained that the soul does not perish with the demise of the body but is rather renewed and recycled into new forms of embodied existence in the lower world Each essay highlights how reincarnation also known as metempsychosis or the transmigration of souls is not a marginalized concept but is instead central to understanding a variety of perplexing issues in Judaism including catastrophic events in Jewish history theodicy the rationale for biblical commandments the complex identity of biblical figures and the issues of sin punishment and redemption Just as the concept of reincarnation is inherently about boundary crossing its investigation similarly bridges diverse epistemic fields and disciplines religion philosophy psychology history ritual gender and cultural studies Weaving together kabbalistic speculations and Jewish philosophical ideas drawn from distinct geographical regions and historical periods this book is poised to serve as a point of departure for future comparative investigations on the life of the soul in Judaism and Eastern religious traditions
