### INTRODUCTION TO READINGS IN PHILIPPINE HISTORY (INDIGENOUS PEOPLE EDUCATION)

This course critically analyzes Philippine history from multiple perspectives through the lens of selected primary sources. Priority will be given to primary sources that describe the important turning points in Philippine history from prehistoric times up to the contemporary period and articulate various perspective.

The approach, though historical, will deal with interdisciplinary subjects so as to broaden and deepen the student's understanding of Philippine political, economic, social and cultural history and equip the learner with the competencies necessary to analyze and evaluate different types of information: print, visual and audio-visual, and quantitative. The end goal is to develop the historical and critical consciousness of the students so that they will become versatile, broadminded, morally upright and responsible citizens.

#### UNDERSTANDING HISTORY

**History is the study of life in society in the past**, in all its aspect, in relation to present developments and future hopes. It is the story of man in time, an inquiry into the past based on evidence. Indeed, evidence is the raw material of history teaching and learning. It is an inquiry into the inevitable changes in human affairs in the past and the ways these changes affect, influence or determine the patterns of life in the society. History is, or should be an attempt to re-think the past.

History aims at helping students to understand the present existing social, political, religious and economic conditions of the people. Without the knowledge of history, we cannot have the background of our religion, customs institutions, administration and so on. The teaching of history helps the students to explain the present, to analyze it and to trace its source. Cause-and effect relationship between the past and the present is lively presented in the history. History thus helps us to understand the present day problems both at the national and international level accurately and objectively.

**History** – is a science and it studies the past of humanity.

- History **does not study the present or the future**, which nobody can study, because it has never existed, or stories invented by human beings.
- History **studies only real things that happened to humans in the past**.
- The word history originally means **the search for knowledge and truth**.
- The word history is derived from the Greek term "**historia**" which means "**inquiry or research**". Thus, the term history refers to accounts or inquiries of events that happened in the past and are narrated in a chronological order.

**Who is the father of history?** > **Herodotus (484 B.C. – 425 B.C.)**

He has sometimes been labeled "**The Father of Lies**" because of his tendency to report fanciful information. Much of the information that others subsequently reported about him is just as fanciful and some of its vindictive or blatantly absurd, yet it is interesting and therefor worth reporting. He himself reported dubious information if it was interesting, sometimes adding his own opinion about its reliability.

**Reasons to study the past**

- curiosity
- to understand what happened in the past in order to know where we are.
- to preserve our knowledge about the past for the future generations so that they also know who they are.
- to know what happened in the past, so that we don't make the same mistakes again in the future.

**Who make history?**
