Readings In Ethnic Psychology:

Readings in Ethnic Psychology Pamela Balls Organista, Kevin M. Chun, Gerardo Marín, 1998 This volume traces the modern critical and performance history of this play one of Shakespeare's most loved and most performed comedies The essay focus on such modern concerns as feminism deconstruction textual theory and queer theory Suicide Among Racial and Ethnic Minority Groups Frederick T.L. Leong, Mark M. Leach, 2010-04-15 Suicide is increasingly understood and predicted as an intersection of biological psychological cognitive and sociocultural factors We have some basic knowledge of these factors and how they interact but presently we know very little about how culture can play a role as a variable that influences suicide Suicide Among Racial and Ethnic Minority Groups will go a long way towards filling that gap by pulling together cutting edge empirical research from general cultural diversity literature and applying it to suicide assessment treatment and prevention theory and practice By looking outside of the limited cross cultural studies done within suicidal populations the contributors all established experts in both multicultural counseling and suicidology expand the available empirical literature base in order to provide a deeper look into how culture can act as an important catalyst in suicidal intentions Following theoretical overviews the text focuses on six broad ethnic groups classified in the literature African American American Indian Asian American European American Hawaiian Pacific Islander and Hispanic with a main chapter devoted to each relating each culture to suicide research highlighting specific variables within the culture that can influence suicide and presenting appropriate treatment considerations A final section of the book consists of practical applications within specific settings therapy outreach schools psychiatric services and prevention and training issues *Cultures Under Siege* Antonius C. Wright, Nicholas A. Cummings, 2013-01-22 This book takes as its inspiration the assumption that the atmosphere of intellectual openness scientific inquiry aspiration towards diversity and freedom from political pressure that once flourished in the American Psychological Association has been eclipsed by an ultra liberal agenda in which voices of dissent controversial points of view and minority groups are intimidated ridiculed and censored Chapters written by established and revered practitioners explore these important issues within the contexts of social change the ways in which mental health services providers view themselves and their products and various economic factors that have affected healthcare cost structure and delivery In short this book is intended to help consumers
