Readings in Social Development Ross D. Parke, 1969 *Readings in Social Evolution and Development* Shmuel Noah Eisenstadt, 1970 Early Childhood and Primary Education: Readings and Reflections Jane Johnston, John Halocha, 2010-09-16 This book explores the historical and philosophical ideas underpinning practice in early childhood and primary education It pulls together key extracts from influential sources and provides helpful editorial commentary explaining the importance of each article to provide an essential reader in early childhood and primary education It enables easy access to key theoretical ideas and seminal texts to provide a firm understanding of such ideas as well as placing current issues within an historical and theoretical context Reflective tasks provide opportunities for the reader to stand back from current practice and beliefs to review their own philosophy of education These tasks together with the editorial commentary help develop the necessary understandings and insights to engage in critical debate on current issues in professional practice Although early years and primary education are often seen as separate stages of development children are expected to progress from one stage to another in a seamless way and the historical and philosophical ideas influencing practice at the different stages are often the same or similar The book supports education professionals to understand and reflect on children's experiences across a range of stages This is an ideal book for students on Early Childhood Studies Early Years and Primary Education courses as well as professionals working with children from birth to 11 years of age

worth living *Reading Our Lives The Poetics of Growing Old* investigates the often overlooked inside dimensions of aging
Despite popular portrayals of mid and later life as entailing inevitable decline this book looks at aging as potentially a process
of poesis a creative endeavor of fashioning meaning from the ever accumulating texts memories and reflections that
constitute our inner worlds At its center is the conviction that although we are constantly reading our lives to some degree
anyway doing so in a mindful matter is critical to our development in the second half of life Drawing on research in numerous

authors Randall and McKim articulate a vision of aging that promises to accommodate such time honored concepts as
wisdom and spirituality one that understands aging as a matter not merely of getting old but of consciously growing old
