archaic authoritarian order and the rise of pluralism and democracy or are the tumultuous events of the post Mao era and the period of perestroika more usefully viewed in light of broader patterns of power and politics in Chinese and Russian history Considering these questions with a new interpretation of power relations and political processes in China and Russia Mark Lupher explores the imperial era the communist period and the current situation in both countries Rather than speaking of reform which too often is understood as liberalization along Western lines his discussion is focused on power restructuring the ebb and flow of state power the centralization and decentralization of political and economic power and the three way struggles between central rulers various elites and nonprivileged groups that drive these processes Lupher's power restructuring analysis is noteworthy in combining broad comparative historical analysis and conceptualization with a closely focused discussion and reinterpretation of the Chinese Cultural Revolution the core of his book By comparing and bringing new light to bear on a series of pivotal episodes in Chinese and Russian history he furthers our understanding and assessment of processes that will continue to unfold in China Russia and the former Soviet republics
