Readings On The Multinational Corporation In Kenya:

Readings on the Multinational Corporation in Kenya Raphael Kaplinsky, 1978 An attempt to illuminate the activities of multinational corporations operating in Kenya and to asses their economic and political impact Readings on the The Emergence of Multinational Corporations in Kenya. A Discussion of the multinational corporation in Kenya ,1978 Internalization Theory Mbogo Wa Wambui, 2016-05-13 Essay from the year 2011 in the subject Economics International Economic Relations grade 18 30 University of Nairobi course Political Economy language English abstract The paper is an evaluation of the influence of multinational corporations in Kenya and evaluates whether or not they have benefited Kenyan citizens Many theories have been advanced in explaining the origin development and motivation of multinational corporations investments globally Multinational corporations MNCs are motivated by factors either internal to the investment or external to the location The determinant of expansion of these firms may mean there is need to produce and sell goods and or services in a number of countries This is either through exports or through direct investment in these countries But first of all what is a multinational corporation A multinational company or business has offices shops or factories in several countries Multinational corporations are business corporations based in one particular country as the mother country with subsidiaries in other countries. They may also be defined in the context of the expertise and the origin of staff They qualify as so if the extent of their staff establishment reflects a global representation both locally and internationally in their subsidiaries This paper seeks to discuss the Internalization Theory in explaining the emergence of multinational corporations in a developing country in our case Kenya Based on her experience we shall discuss the import of the Internalization Theory in understanding the emergence of at least 2 multinational corporations The Development of Corporate Capitalism in Kenya, 1918-77 Nicola Swainson, 1980-01-01 Readings on the Multinational Corporations in Kenya Kaplinsky Raphael, 1978 Kenya Charles Hornsby, 2013-03-01 Since independence from Great Britain in 1963 Kenya has survived five decades as a functioning nation state holding regular elections its borders and political system intact and avoiding open war with its neighbours and military rule internally It has been a favoured site for Western aid trade investment and tourism and has remained a close security partner for Western governments However Kenya s successive governments have failed to achieve adequate living conditions for most of its citizens violence corruption and tribalism have been ever present and its politics have failed to transcend its history. The decisions of the early years of independence and the acts of its leaders in the decades since have changed the country's path in unpredictable ways but key themes of conflicts remain over land money power economic policy national autonomy and the distribution of resources between classes and communities While the country's political institutions have remained stable the nation has changed its population increasing nearly five fold in five decades But the economic and political elite's struggle for state resources and the exploitation of ethnicity for political purposes still threaten the country's existence Today Kenyans are arguing over many of the issues that

divided them 50 years ago The new constitution promulgated in 2010 provides an opportunity for national renewal but it must confront a heavy legacy of history This book reveals that history **Regulating Transnational Corporations in Domestic and International Regimes** Evaristus Oshionebo,2009-01-01 This study explores the range of strategies for regulating the social and environmental practices of TNCs in Africa's extractive industries **Kenya and Britain after Independence** Poppy Cullen,2017-06-30 This book explores British post colonial foreign policy towards Kenya from 1963 to 1980 It reveals the extent and nature of continued British government influence in Kenya after independence It argues that this was not simply about neo colonialism and Kenya's elite had substantial agency to shape the relationship The first section addresses how policy was made and the role of High Commissions and diplomacy It emphasises contingency with policy produced through shared interests and interaction with leading Kenyans It argues that British policy makers helped to create and then reinforced Kenya's neo patrimonialism The second part examines the economic military personal and diplomatic networks which successive British governments sustained with independent Kenya A combination of interlinked interests encouraged British officials to place a high value on this relationship even as their world commitments diminished This book appeals to those interested in Kenyan history post colonial Africa British foreign policy and forms of diplomacy and policy making

Globalization and Survival in the Black Diaspora Charles St. Clair Green,1997-01-01 Links the plight of contemporary urban dwellers of African descent across North America Europe the Caribbean Latin America and sub Saharan Africa examines their coping strategies and advocates social policies sensitive to their cultural and societal differences

Give and Take Nitsan Chorev, 2019-12-10 Give and Take looks at local drug manufacturing in Kenya Tanzania and Uganda from the early 1980s to the present to understand the impact of foreign aid on industrial development While foreign aid has been attacked by critics as wasteful counterproductive or exploitative Nitsan Chorev makes a clear case for the effectiveness of what she terms developmental foreign aid Against the backdrop of Africa's pursuit of economic self sufficiency the battle against AIDS and malaria and bitter negotiations over affordable drugs Chorev offers an important corrective to popular views on foreign aid and development She shows that when foreign aid has provided markets monitoring and mentoring it has supported the emergence and upgrading of local production In instances where donors were willing to procure local drugs they created new markets that gave local entrepreneurs an incentive to produce new types of drugs In turn when donors enforced exacting standards as a condition to access those markets they gave these producers an incentive to improve quality standards And where technical know how was not readily available and donors provided mentoring local producers received the guidance necessary for improving production processes Without losing sight of domestic political economic conditions historical legacies and foreign aid s own internal contradictions Give and Take presents groundbreaking insights into the conditions under which foreign aid can be effective Tanzania Andrew Coulson, 2013-07-25 Tanzania in the 1970s was at the forefront of policy innovation Near universal primary education access

to health services and supplies of clean water subsequently became mainstream ambitions in Africa and elsewhere But its policies towards agricultural and industrial production failed and left the country in a particularly weak position when it faced the demands of structural adjustment in the 1980s This book originally published in 1982 has been reissued with a new introduction which brings its themes up to the present when income from gold mining and natural gas is making Tanzania one of the most dynamic economies in Africa today The author first an economic civil servant in Tanzania later an academic at the University of Dar es Salaam was in a unique position to write it drawing on his own experiences as well as the plethora of ideas and debates in Dar es Salaam in the 1970s The book has stood the test of time not only because of the range of material it covers but more profoundly because of the approach it takes to the work of Tanzania's founding president Julius Nyerere sympathetic to his ideas deeply critical of failures in implementation 25 short easily read chapters take the story of Tanzania from pre colonial times to the present and show how Nyerere was hemmed in by what he inherited from the German and British colonialists who ran the country up to Independence in 1961 It provides an invaluable introduction to anyone coming to the country for the first time and offers a profound assessment of the theoretical debates that have made Tanzania of such interest to students of development Kenyan Capitalists, the State, and Development David <u>Industrialization in Kenya</u> Peter E. Coughlin, Gerrishon K. Ikiara, 1988 Himbara, 1994 Toward a Political Economy of Development Robert H. Bates, 2023-11-15 The Rise and Fall of Philanthropy in East Africa Robert G. Gregory, 2017-07-05 Robert G Gregory challenges the apparent assumption that non Western peoples lack a significant indigenous philanthropic culture Focusing on the large South Asian community in East Africa he relates how over a century they built a philanthropic culture of great magnitude and how it finally collapsed under the ascendency of increasing state regulation and policies directed against non African communities Compelled by poverty to seek better oppurtunities overseas most Asians arrived in East Africa as peasant farmers Denied access to productive land and sensing economic opportunity they turned to business Despite severe forms of racial discrimination in the colonial society they suffered few restrictions on their business enterprises and some became very wealthy Gregory's historical analysis shows philanthropy as an important contribution one that stemmed from deep roots in Hindu Muslim and Buddhist culture The sense of nonracial social responsibility cultivated social medical and educational facilities designed for all This age of philanthropy terminated with the Asian exodus The socialist and racial policies adopted by East African governments over the past few decades have virtually destroyed the foundation necessary for philanthropy as well as the distinct Asian cultural identity Gregory's account of the East Asian's role in philanthropy deserves great attention and sober reflection Economic Development of Africa, 1880-1939 vol 1 David Sunderland, 2024-10-28 One of the main motives for British imperialism in Africa was economic gain This collection examines the ways in which Britain developed Africa and in so doing benefited her own economy

Post-Colonial Kenya Rok Ajulu, 2021-07-28 This engaging reassessment of postcolonial Kenya argues that the country s

political turmoil over the last fifteen years is a continuation of repeating patterns of political contestation and conflict across Kenya's history When Kibaki stole the 2007 presidential election leading to a spiral of violence that left over 1 000 people dead in the space of a month many analysts wondered how this could happen in a country that had previously been considered an oasis of peace in an otherwise conflict prone region Combining political economy with political sociology in this book Rok Ajulu demonstrates that in fact authoritarianism and the predatory deployment of the state has been the predominant feature of Kenya's post colonial period Focusing on how power has been mediated in the country politically and the characters of the elites in charge the analysis shows the dominance of extra economic political coercion in economic activity In a context in which economic activity remains predominantly political continued control of state power is so crucial for the new ruling class that it must be retained at all costs Rok Ajulu's masterful final book is a powerful and wide ranging contribution to studies on post colonial Kenya and will be an important resource for researchers from across political science economics history sociology and African Studies *The Comforts of Home* Luise White, 2009-02-15 This history is the first fully fleshed story of African Nairobi in all of its complexity which foregrounds African experiences Given the overwhelming white dominance in the written sources it is a remarkable achievement Claire Robertson International Journal of African Historical Studies White s book takes a unique approach to a largely unexplored aspect of African History It enhances our understanding of African social history political economy and gender studies It is a book that deserves to be widely read Elizabeth Schmidt American Historical Review **Historical Dictionary of Kenya** Robert M. Maxon, Thomas P. Ofcansky, 2014-09-09 Kenya has a long and complex history that began thousands of years ago Indeed some archaeologists contend that the country was the cradle of mankind or at the very least one of the places that was home to the earliest hominids In later centuries Kenya s strategic location astride the Indian Ocean and the East African littoral attracted numerous foreign peoples some of the most significant of which have been the Americans Arabs British Chinese French Germans and Portuguese Additionally Africans from throughout the subcontinent have settled in Kenya to escape conflict or political persecution while others wanted an opportunity to begin a new life As a result of being a gateway to the world the country traditionally has been one of the most important business cultural diplomatic and political centers in Africa Although it has maintained this reputation during the post independence period Kenya like most African countries has been plagued by an increasing array of complex economic political and social problems This third edition of Historical Dictionary of Kenya provides a starting point for those interested in any of the phases of Kenya's historical evolution This is done through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has 500 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Kenya **Industrial Structure and Policy in Less Developed Countries** Colin Kirkpatrick, N. Lee, Fred Nixson, 2012-08-06 First published in 1984 this textbook analyses at

both aggregate and micro economic levels the contemporary industrial conditions in Third World countries and relates this to the process of economic growth and structural transformation Drawing upon both industrial and development economics the authors offer a comprehensive and integrated treatment of the different levels of industrial analysis in less developed countries alongside a wealth of comparative data on industrial structure business concentration and behaviour and industrial policies in a cross section of countries in Africa Asia the Far East and Latin America
