church is neither a sectarian nor an accommodating community it should maintain constant social contact with outsiders so as to bring the gospel of Christ to them In addition insiders should practice radical values that could challenge the existing shared social values prevalent in the urban city of Corinth These new values are based mainly on Scripture ancient Jewish literature and the new social identity of the church defined by Jesus Christ This fresh interpretation renders the logical flow unitary design and coherence of 1 Cor 5 11 1 more apparent

The Limits of Marriage Gary R. Lee, 2015-04-08 This book documents and explains the remarkable decline in the American marriage rate that began about 1970 This decline has occurred in spite of the fact that married people are better off than unmarried people in many ways Many other attempts to explain the retreat from marriage blame it on culture change involving a devaluation of marriage and or on ignorance of the benefits of marriage among the unmarried population In turn because unmarried adults and single parent families are poorer than others poverty and its associated problems are attributed to the failure to marry The argument presented here is that the declining marriage rate is due to the deteriorating position of workers particularly men in the American economy Not only have jobs disappeared and wages decreased especially for the less educated but existing jobs have become more precarious Less educated workers can t count on having jobs in the future and can t count on earning enough to support families if they have jobs because their wages have stagnated In this economic environment the flexibility to change partners becomes a survival strategy for the economically marginalized population which has been increasing in size for the past four decades Arrangements such as cohabitation allow for this flexibility marriage does not This argument implies that marriage is not a realistic choice for many Americans In fact it is a choice that many people don t actually have Marriages between economically marginal men and women would not eventuate in the benefits that middle class people experience when they marry and would eliminate an option they may need to survive in the face of unrelenting poverty We won t convince these people that marriage would improve their lives because in most cases it wouldn t be true To

return the marriage rate to its pre 1970 level we need to address the economic factors that have caused the decline
