Teen Guide to Getting Started in the Arts Carol Ritzenthaler, 2001-11-30 Teens interested in preparing for a career in the arts will find this introductory resource invaluable as it is the first book to guide them long before they apply to college or seek a position in their field. Whether they would like to become actors or filmmakers, artists, architects, dancers, musicians, or singers, photographers, or writers, this book will show them how to do so. For each of the arts, an overview of the career training and a discussion of related careers is provided, along with lists of books, web sites, and organizations for further information. Sections directed to parents and teachers of the teens with advice on how to support and encourage teens in their careers are also included. Teens wanting to gain an edge in their craft by practicing and preparing early will find a wealth of information. Advice from experts in each field provides an inside look on what skills are necessary for the twenty-first century. Suggestions for building discipline are provided, such as keeping a writing or sketching journal and finding the proper trainers in music, dance, and acting. Contests and other opportunities that teens can submit work to or apply for auditions are provided, along with an extensive list of books, trade journals, web sites, and professional and non-professional organizations. Using the resources in this book will ensure teens are experienced and well-prepared in their art form when they apply to college or other professional training and seek positions in their field.

Perspectives in Performing Arts Medicine Practice Sang-Hie Lee, Merry Lynn Morris, Santo V. Nicosia, 2020-03-27 Performing Arts Medicine (PAM) is a growing area of specialization within the performing arts field which addresses the multifaceted health and wellness of performing artists. This sub-discipline within performing arts is interdisciplinary in nature, involving the expertise of performing arts educators and researchers, physicians, and other health professionals. This first of

its kind text appeals to a very wide audience that includes performing arts clinical practitioners and health science researchers as well as performing arts pedagogues and performing arts students The first part of the text gives the reader an overview of the field and discusses overarching themes and issues in PAM Part two presents an array of music and dance research involving primarily case studies that address significant issues of concern for performing artists and have implications for pedagogical practice Part three provides research based perspectives derived from professionals sharing their in practice experiences Finally part four describes useful PAM models of implementation supporting the needs of performing artists in different settings Written by experts in the field *Perspectives in Performing Arts Medicine Practice* is a valuable resource for performing arts physicians educators and researchers ["Destined to Fail"](#) Julia Eklund Koza,2021-08-31 A little known fact about the prominent US psychologist and educator Carl E Seashore 1866 1949 is that he was deeply involved in the American eugenics movement He was among the US academics to support eugenics long before German Nazis embraced it A titan in a host of disciplines and a proponent of radical education reform Seashore used his positional power to promote a constellation of education reforms consistent with central precepts of eugenics Many of these reforms including tracking gifted and talented programs and high stakes standardized testing were adopted and remain standard practice in the United States today He promulgated the idea that musical talent is biologically inheritable and he developed the first standardized tests of musical talent these tests were used by early twentieth century researchers in their attempts to determine whether there are race differences in musical talent Seashore's ideas and work profoundly shaped music education's research trajectory as well as enduring commonsense beliefs about musical ability An intersectional analysis *Destined to Fail* focuses on the relationship between eugenics and Seashore's views on ability race and gender Koza concludes that Seashore promoted eugenics and its companion eugenics because he was a true believer She also discusses the longstanding silences surrounding Seashore's participation in eugenics As a diagnosis and critique of the present *Destined to Fail* identifies resemblances and connections between past and present that illustrate the continuing influence of eugenics and the systems of reasoning that made early twentieth century eugenics imaginable and seem reasonable on education discourse and practice today It maps out discursive citational and funding connections between eugenicists of the early twentieth century and contemporary White supremacists this mapping leads to some of Donald Trump's supporters and appointees *Career Guide to Industries, 2008-09* Bernan,2008-02 Labor Statistics Bureau Bulletin 2601 Provides information on the nature of the industry employment working conditions occupations in the industry training and advancement earnings and benefits and outlook Organized by Standard Industrial Classification SIC major categories Intended as a companion to the Occupational Outlook Handbook Item 768 A 01 *A Concise Survey of Music Philosophy* Donald A. Hodges,2016-10-04 A Concise Survey of Music Philosophy helps music students choose a philosophy that will guide them throughout their careers The book is divided into three sections central issues that any music philosophy ought to

consider e.g. beauty, emotion and aesthetics secondly significant philosophical positions exploring what major thinkers have had to say on the subject and finally opportunities for students to consider the ramifications of these ideas for themselves. Throughout the book students are encouraged to make choices that will inform a philosophy of music and music education with which they are most comfortable to align. Frequently music philosophy courses are taught in such a way that the teacher as well as the textbook used promotes a particular viewpoint. A Concise Survey of Music Philosophy presents the most current prevalent philosophies for consideration. Students think through different issues and consider practical applications. There are numerous musical examples each with links from the author's home website to online video performances. Examples are largely from the Western classical canon but also jazz, popular and world music styles. In the last two chapters students apply their views to practical situations and learn the differences between philosophy and advocacy. Hodges has written an excellent resource for those wanting a short but meaningful introduction to the major concepts in music philosophy. Applicable to a number of courses in the music curriculum, this much needed book is both accessible and flexible, containing musical examples, tables and diagrams and additional readings that make it particularly useful for a student's general introduction to the topic. I especially like the emphasis on the personal development of a philosophical position which makes the material especially meaningful for the student of music. Peter R. Webster, Scholar in Residence, Thornton School of Music, University of Southern California, USA. Preparing Musicians for Precarious Work, Nicole Canham, 2021-09-28. Preparing Musicians for Precarious Work: Transformational Approaches to Music Careers. Education promotes career counselling informed techniques that encourage and guide musicians to drive their careers in necessary new directions. In exposing the dark side of precarious work in the arts sector, these approaches acknowledge the high levels of risk many musicians face and focus on the fundamental and urgent skills they need to navigate uncertainty and hardship. The author calls for a greater recognition of the psychological magnitude of managing such work, drawing upon training as a career counsellor and the lived experience of a career musician to advance transformative learning principles as pathways for artists, students and educators alike. Representing a radical shift from the content knowledge approach to career development, a counselling informed method is fortified by a broad range of ideas from vocational psychology and narrative therapy, emphasising the importance of change readiness and flexible identities while identifying the need for a post portfolio paradigm. Preparing Musicians for Precarious Work proposes a new model for musicians' career learning, the CHOICE model, in a timely and practical guide for 21st century musicians looking to future proof their careers. **Century Path**, 1902.

The Music Parents' Survival Guide, Amy Nathan, 2014. This book of parent to parent advice aims to encourage support and bolster the morale of one of music's most important back up sections: music parents. Within these pages more than 150 veteran music parents contribute their experiences, reflections, warnings and helpful suggestions for how to walk the music parenting tightrope: how to be supportive but not overbearing and how to encourage excellence without becoming bogged.

down in frustration Among those offering advice are the parents of several top musicians including the mother of violinist Joshua Bell the father of trumpeter Wynton Marsalis the parents of cellist Alisa Weilerstein and those of violinist Anne Akiko Meyers The book also features advice from music educators and more than forty professional musicians including Paula Robison Sarah Chang Anthony McGill Jennifer Koh Jonathan Biss Toyin Spellman Diaz Marin Alsop Christian McBride Miguel Zenon Stephanie Blythe Lawrence Brownlee and Kelli O'Hara The topics they discuss span a wide range of issues faced by the parents of both instrumentalists and singers from how to get started to encouraging effective practice habits to how to weather the rough spots cope with the cost of music training deal with college and career concerns and help young musicians discover the role that music can play in their lives The parents who speak here reach a unanimous and overwhelming conclusion that music parenting is well worth the effort and the experiences that come with it everything from flying to New York on the weekends to searching a flute convention for the perfect instrument enrich family life with a unique joy in music

Assessment in Music Education: from Policy to Practice Don Lebler, Gemma Carey, Scott D. Harrison, 2014-11-03 The contributions to this volume aim to stimulate discussion about the role of assessment in the learning experiences of students in music and other creative and performing arts settings The articles offer insights on how assessment can be employed in the learning setting to enhance outcomes for students both during their studies at higher education institutions and after graduation An international group of leading researchers offers an exciting array of papers that focus on the practice of assessment in music particularly in higher education settings Contributions reflect on self peer and alternative assessment practices in this environment There is a particular emphasis on the alignment between assessment curriculum structure and pedagogy
