This groundbreaking book reveals what it takes for managers of any generation to succeed in this fast paced and exciting new environment Command and control may have once been an effective model in managing the large numbers of cookie cutter clones that business programs were producing faster than anyone could say MBA but the rapid change and increasing complexity of the twenty first century have rendered that model obsolete For the most part today s managers who were trained in the old ways are not adept to succeed in the current work environment that has evolved from take it or leave it hierarchies to collaborative networks of workers and managers feeding off each other s ideas to build the business together The new age of mass collaboration demands a new and extremely different model to manage by today wiki management Featuring enlightening examples from forward thinking companies including Google Whole Foods Linux and Wikipedia Wiki Management outlines the revolutionary necessary steps companies must take to Leverage their collective intelligence Effectively integrate diverse points of view Transition leaders from the role of boss to that of facilitator Make delighting customers more important than pleasing superiors Achieve a shared and actionable understanding of the key drivers of business success It s a different world today than the one you were educated in trained in and found great success in This wiki world has reshaped both the work we do and the way we do it making mass collaboration not only possible but usually the best solution **Natural Born Manager , It's Not Them, It's You** Laura Sukorokoff,2020-10-15
