Realist Vision Peter Brooks, 2005 A lively and distinctive look at realism in great modern books and art

The Realist Tradition in International Relations Barry Scott Zellen, 2011-08-19 This comprehensive foundation for the study of realism will introduce students in disciplines as varied as philosophy international relations and strategic studies to the majestic breadth of the realist tradition that unifies them all The Realist Tradition in International Relations The Foundations of Western Order introduces the principal theorists who have shaped and defined the realist tradition This once dominant theory of international politics has reemerged to provide a shared foundation for understanding political theory international relations theory and strategic studies The work is comprised of four volumes each focusing upon a distinct period and the pivotal contributors writing in that era Volume 1 State of Hope looks at the classical era when chaos reigned supreme Volume 2 State of Fear goes through the early modern period and the emergence of the modern state Volume 3 State of Awe explores the age of total war with its unprecedented dangers Volume 4 State of Siege examines the present era of insurgency and asymmetrical conflict A truly monumental work this sweeping study will surely foster a new appreciation of the rich tapestry of realist thought and its continuing relevance to the study of world politics

Labour in a Single Shot Roy Grundmann, Peter Schwartz, Gregory Williams, 2025-10-01 This collection of essays offers a critical assessment of Labour in a Single Shot a groundbreaking documentary video workshop From 2011 to 2014 curator Antje Ehmann and film and video maker Harun Farocki produced an art project of truly global proportions They travelled to fifteen cities around the world to conduct workshops inspired by cinema history's first film *Workers Leaving the Lumi re Factory* shot in 1895 by the Lumi re brothers in France While the workshop videos are in colour and the camera was not required to remain static Ehmann and Farocki's students were tasked with honouring the original Lumi re film's basic parameters of theme and style The fascinating result is a collection of more than 550 short videos that have appeared in international exhibitions and on an open access website offering the widest possible audience the opportunity to ponder contemporary labour in multiple contexts around the world

The American Play Marc Robinson, 2009-01-01 In this brilliant study Marc Robinson explores more than two hundred years of plays styles and stagings of American theater Mapping the changing cultural landscape from the late eighteenth century to the start of the twenty first he explores how

theater has and has not changed and offers close readings of plays by O'Neill, Stein, Wilder, Miller, and Albee as well as by important but perhaps lesser known dramatists such as Wallace Stevens, Jean Toomer, Djuna Barnes, and many others. Robinson reads each work in an ambitiously interdisciplinary context linking advances in theater to developments in American literature, dance, and visual art. The author is particularly attentive to the continuities in American drama and expertly teases out recurring themes such as the significance of visuality. He avoids neatly categorizing nineteenth and twentieth century plays and depicts a theater more restive and mercurial than has been recognized before. Robinson proves both a fascinating and thought provoking critic and a spirited guide to the history of American drama. **The Atlantic**

Realists Matthew Specter, 2022-02-08 In *The Atlantic Realists*, intellectual historian Matthew Specter offers a boldly revisionist interpretation of realism, a prevalent stance in post-WWII US foreign policy and public discourse and the dominant international relations theory during the Cold War. Challenging the common view of realism as a set of universally binding truths about international affairs, Specter argues that its major features emerged from a century-long dialogue between American and German intellectuals beginning in the late nineteenth century. Specter uncovers an Atlantic realist tradition of reflection on the prerogatives of empire and the nature of power politics conditioned by fin de siècle imperial competition, two world wars, the Holocaust, and the Cold War. Focusing on key figures in the evolution of realist thought including Carl Schmitt, Hans Morgenthau, and Wilhelm Grewe, this book traces the development of the realist worldview over a century, dismantling myths about the national interest, Realpolitik, and the art of statesmanship. *Representing Realists in Victorian Literature and Criticism* Daniel Brown, 2016-12-15 This book is about the historical moment when writers and critics first used the term realism to describe representation in literature and painting. While scholarship on realism tends to proceed from an assumption that the term has a long established meaning and history, this book reveals that mid-nineteenth century critics and writers first used the term reluctantly with much confusion over what it might actually mean. It did not acquire the ready meaning we now take for granted until the end of the nineteenth century. In fact, its first definitions came primarily by way of example and analogy through descriptions of current practitioners or through fictionalized representations of artists. By investigating original debates over the term realism, this book shows how writers simultaneously engaged with broader concerns about the changing meanings of what was real and who had the authority to decide this. *Darwinian*

Conservatism Kenneth C. Blanchard Jr., 2015-11-30 A reprint of Larry Arnhart's essay *Darwinian Conservatism* with comment and criticism from a variety of contributors. [Russian Realisms](#) Molly Brunson, 2016-09-10 One fall evening in 1880 Russian painter Ilya Repin welcomed an unexpected visitor to his home, Lev Tolstoy. The renowned realists talked for hours, and Tolstoy turned his critical eye to the sketches in Repin's studio. Tolstoy's criticisms would later prompt Repin to reflect on the question of creative expression and conclude that the path to artistic truth is relative, dependent on the mode and medium of representation. In this original study, Molly Brunson traces many such paths that converged to form the tradition of

nineteenth century Russian realism a tradition that spanned almost half a century from the youthful projects of the Natural School and the critical realism of the age of reform to the mature masterpieces of Tolstoy Fyodor Dostoevsky and the paintings of the Wanderers Repin chief among them By examining the classics of the tradition Brunson explores the emergence of multiple realisms from the gaps disruptions and doubts that accompany the self conscious project of representing reality These manifestations of realism are united not by how they look or what they describe but by their shared awareness of the fraught yet critical task of representation By tracing the engagement of literature and painting with aesthetic debates on the sister arts Brunson argues for a conceptualization of realism that transcends artistic media Russian Realisms integrates the lesser known tradition of Russian painting with the familiar masterpieces of Russia s great novelists highlighting both the common ground in their struggles for artistic realism and their cultural autonomy and legitimacy This erudite study will appeal to scholars interested in Russian literature and art comparative literature art history and nineteenth century realist movements

Realism as Resistance Denise DuPont, 2006 This book explores the fluid boundaries between realism and romanticism while considering this oscillation between discourses as the legacy of the Quijote to the nineteenth century Spanish novel Furthermore there are studies of characters who act as authors in Benito Perez Galdos s first series of Episodios Nacionales Pio Baroja s La lucha por la vida and Leopoldo Alas Clarin s La Regenta For many realists romanticism has negative associations quixotism exaggeration impracticality and femininity or effeminacy
