Reality and the Poet in Spanish Poetry Pedro Salinas Serrano,1940 **An Anthology of Spanish Poetry** John A. Crow,1980-12-01 John A Crow a leading Hispanist has culled the best translations available by such poets as Richard Franschawe Edward Fitzgerald Percy Bysshe Shelley Lord Byron Henry Wadsworth Longfellow William Cullen Bryant Robert Southey and many distinguished modern poets of poems ranging from the eleventh century to the present to make this the most complete collection of both Spanish and Spanish American poetry in English translation Represented here is work by such twentieth century poets as Gabriela Mistral Octavio Paz Federico Garc a Lorca C sar Vallejo Pablo Neruda Anotnio Machado and Juan Ram n Jim nez many of whom the editor has known personally The inclusion of many contemporary poets whose verse has never before appeared in English makes this anthology a particularly valuable collection *Reality and the Poet in Spanish Poetry* Pedro Salinas,1966 **Spanish Poetry of the Twentieth Century** Andrew Debicki,2021-12-14 Twentieth century Spanish poetry has received comparatively little attention from critics writing in English Andrew Debicki now presents the first English language history published in the United States to examine the sweep of modern Spanish verse More important he is the first to situate Spanish poetry in the context of European modernity to trace its trajectory from the symbolists to the postmodernists Avoiding the rigid generational schemes and catalogs of names found in traditional Hispanic literary histories Debicki offers detailed discussions of salient books and texts to construct an original and compelling view of his subject He demonstrates that contemporary Spanish verse is rooted in the modem tradition and poetics that see the text as a unique embodiment of complex experiences He then traces the evolution of that tradition in the early decades of the century and its gradual disintegration from the 1950s to the present as Spanish poetry came to reflect features of the postmodern especially the poetics of text as process rather than as product By centering his study on major periods and examining within each the work of poets of different ages Debicki develops novel perspectives The late 1960s and early 1970s for example were not merely the setting for a new aestheticist generation but an era of exceptional creativity in which both established and new writers engendered a profound intertextual and often self referential lyricism This book will be essential reading for specialists in modern Spanish letters for advanced students and for readers inter ested in comparative literature **Fantasy** ,1935
