Reality Fictions Romance History And Governmental Authority 1025 118:

Epic Lives and Monasticism in the Middle Ages, 800-1050 Anna Lisa Taylor, 2013-09-02 This is the first book to focus on Latin epic verse saints lives in their medieval historical contexts Anna Taylor examines how these works promoted bonds of friendship and expressed rivalries among writers monasteries saints earthly patrons teachers and students in Western Europe in the central Middle Ages Using philological codicological and microhistorical approaches Professor Taylor reveals new insights that will reshape our understanding of monasticism patronage and education These texts give historians an unprecedented glimpse inside the early medieval classroom provide a nuanced view of the complicated synthesis of the Christian and Classical heritages and show the cultural importance and varied functions of poetic composition in the ninth tenth and eleventh centuries

Reality Fictions Robert M. Stein, 2006 By focusing on literary production and its relation to the world Stein argues that the emergence of historiography and romance as literary genres in the twelfth century was linked to large scale transformations in the structure of power attendant on Capetian and Anglo Norman state making

The Songs and Travels of a Tudor Minstrel Andrew Taylor, 2012 A reconstruction of the life and works of a sixteenth century minstrel showing the tradition to be flourishing well into the Tudor period Richard Sheale a harper and balladeer from Tamworth is virtually the only English minstrel whose life story is known to us in any detail It had been thought that by the sixteenth century minstrels had generally been downgraded to the role of mere jesters However through a careful examination of the manuscript which Sheale almost certainly wrote Bodleian Ashmole 48 and other records the author argues that the oral tradition remained vibrant at this period contrary to the common idea that print had by this stage destroyed traditional minstrelsy The author shows that under the patronage of Edward Stanley earl of Derby and his son from one of the most important aristocratic families in England Sheale recited and collected ballads and travelled to and from London to market them Amongst his repertoire was the famous Chevy Chase which Sir Philip Sidney said moved his heart more than with a trumpet Sheale also composed his own verse including a lament on being robbed of 60 on his way to London the poem is reproduced in this volume ANDREW TAYLOR lectures in the Department of English University of Ottawa

Cultural Diversity in the British Middle Ages J. Cohen, 2008-08-04 Through close readings of both familiar and obscure medieval texts the contributors to this volume attempt to read England as a singularly powerful entity within a vast geopolitical network This capacious world can be glimpsed in the cultural flows connecting the Normans of Sicily with the rulers of England or Chaucer with legends arriving from Bohemia It can also be seen in surprising places in literature as when green children are discovered in twelfth century Yorkshire or when Welsh animals begin to speak of the long history of their land s colonization The contributors to this volume seek moments of cultural admixture and heterogeneity within texts that have often been assumed to belong to a single national canon discovering moments when familiar and bounded space erupt into unexpected diversity and infinite realms
