Sidney Lens

Reaping The Whirlwind Al Qaida And The Holy War:

The Forging of the American Empire Sidney Lens, 2003-06-20 From Mexico to Vietnam from Nicaragua to Lebanon and more recently to Kosovo East Timor and now Iraq the United States has intervened in the affairs of other nations Yet American leaders continue to promote the myth that America is benevolent and peace loving and involves itself in conflicts only to defend the rights of others excesses and cruelties though sometimes admitted usually are regarded as momentary aberrations This classic book is the first truly comprehensive history of American imperialism Now fully updated and featuring a new introduction by Howard Zinn it is a must read for all students and scholars of American history Renowned author Sidney Lens shows how the United States from the time it gained its own independence has used every available means political economic and military to dominate other nations Lens presents a powerful argument meticulously pieced together from a huge array of sources to prove that imperialism is an inevitable consequence of the U S economic system Surveying the pressures external and internal on the United States today he concludes that like any other empire the reign of the U S will end and he examines how this time of reckoning may come about *The World Almanac of Islamism: 2014* American Foreign Policy Council, 2014

Dying for the Truth Paul L. Moorcraft, 2016-11-30 A history and analysis of journalists reporting from the frontlines of war from the mid nineteenth century to the early twenty first century War correspondents are crucial to democracy and the public s discovery of the truth Without the media the temptation to manipulate events with propaganda could be irresistible to politicians of all hues Dying for The Truth examines how journalists have plied their trade from the Crimean War to the present Paul Moorcraft a veteran journalist discusses how correspondents considerable influence has shaped the actions of politicians and military commanders as well as public opinion and reveals how authority figures now view the media as potentially valuable tools Technical developments and the twenty four hour news cycle have inevitably changed the nature of war reporting Today news bureaus are apt to learn of developments before the higher chains of command The author comments on key milestones that have contributed to this evolution Using his own and others experiences in recent conflicts including Korea the Falklands the Balkans Iraq and Afghanistan Moorcraft shares an aspect of warfare that is all too often overlooked but can be crucial to the outcome The public s attitude toward the day to day conduct of war is becoming ever more significant and this fascinating book examines why This is a brilliant history of war reporting from the mid nineteenth century s scribblers and snappers reporters and photographers to today s digital technology and instant communications Military Officer

The World Almanac of Islamism American Foreign Policy Council, 2011-10-27 From Western Europe to Asia from the Middle East to the Horn of Africa societies are finding themselves under growing assault from radical Islamist forces In some countries such as Spain and France the challenge posed by radical Islam is still limited in scope and embryonic in nature But in others including Somalia and Pakistan it poses a mortal danger to the future of the existing state The World Almanac of Islamism is the first

comprehensive reference work to detail the global reach of Islamism across six continents Each country study written by leading subject matter experts examines the full scope of the Islamist phenomenon from the activities of radical Islamist groups to the role of Islamist actors and ideas in society to the response or complicity of the local government An additional series of movement studies explores the global reach ideology and capabilities of the world s most powerful transnational Islamist movements Finally Almanac includes regional summaries and a global overview designed to provide context and strategic insights into current and emerging trends relating to Islamism the world over This collection makes a major contribution toward properly defining the Islamist threat and paving the way for the implementation of more effective strategies to counter the rise of radical Islamism by the United States and its allies It provides policymakers the news media scholars and students with a more comprehensive understanding of the threat we now confront from Islamic extremism Additionally the full Almanac is available electronically in database form It can be accessed online at almanac.afpc.org

Faith and Sword Alan G. Jamieson, 2016-11-15 With the recent surge in terrorist acts and military confrontations as well as ever strengthening fundamentalist ideologies the Christian Muslim divide is perhaps more visible than ever but it is not new Alan G Jamieson explores here the long and bloody history of the Christian Muslim conflict revealing in his concise yet comprehensive study how deeply this ancient divide is interwoven with crucial events in world history *Faith and Sword* opens with the tumultuous first centuries of the conflict examining the religious precepts that framed clashes between Christians and Muslims and that ultimately fueled the legendary Crusades Traversing the full breadth of the Arab lands and Christendom Jamieson chronicles the turbulent saga from the Arab conquests of the seventh century to the rise of the powerful Ottoman Empire and its fall at the end of World War I He then explores the complex dynamics that emerged later in the twentieth century as Christendom was transformed into the secular West and Islamic nations overthrew European colonialism to establish governments straddling modernity and religiosity From the 1979 Iranian revolution to the Lebanon hostage crisis to in this new expanded edition the recent wars in Syria Iraq and Afghanistan *Faith and Sword* reveals the essence of this enduring struggle and its consequences

Confronting Global Terrorism and American Neo-Conservatism Tom Farer, 2008-02-07 Liberal intellectuals and political leaders have been slow to articulate a grand strategy informed by liberal values for confronting global terrorism This book outlines the framework of a liberal strategy and exposes the costs of the neo conservative alternative that has driven US foreign policy since 9 11

Shooting the Messenger Paul Moorcraft, 2011-10-31 Wars have dominated politics since history began In the modern era most of what the media reports on foreign conflicts comes from a small band of war correspondents As the furore over the Iraq Afghan and now the Libyan wars demonstrates Western governments and militaries often collude to keep their voters in the dark about the causes and the conduct of wars waged in their name In this entertaining and unspun account of modern war reporting the authors ask whether the media itself drives democracies to war Or does it serve to constrain evil ignorant and messianic leaders Are the

heirs of William Howard Russell the first modern war reporter watchdogs or lapdogs In the age of Wikileaks and corrupt media empires what is the political impact of war correspondents Are they the heroes or harlots of their profession

Pakistan Since Independence Stanley B. Sprague, 2020-11-12 This concise and balanced account details Pakistan's turbulent 73 year history of civil war military coups political assassinations wars with India cooperation with the U S during the Afghan Soviet war and events following 9 11 An unpredictable nuclear nation Pakistan has been variously described as the center of international terrorism the world's biggest nuclear weapons proliferator the most dangerous place in the world and some experts predict the most likely site of the world's first nuclear war

Afghanistan's Political Stability Ahmad Shaye Qassem, 2016-03-16 Political stability has been a central theme of policy for all governments and political systems in the history of modern Afghanistan Since its inception in the mid nineteenth century the country experimented with a diverse succession of political systems and state ideologies matched by few other countries political histories In the span of less than nine decades since independence in 1919 the Afghan state was substantially restructured at least a dozen times This volume looks at Afghanistan's historic relations with Central and South Asia ethno nationalism and development Soviet occupation and transformation of relations with Pakistan stability of the Islamic State and regional cooperation It examines how Afghanistan's different political systems reformed and readjusted policies to make them more conducive to political stability Yet political stability at best has remained a dream unrealized in Afghanistan

War, Human Dignity and Nation Building Gary D. Badcock, 2010-08-11 Canada's involvement in Afghanistan is the longest martial conflict in its history precipitated literally overnight by a world changing event in the 2001 9 11 attack in New York City In 2010 the Afghan Mission remains front page news for Canadians even threatening to undermine the Federal Government due to the so called Detainee Scandal The human cost Canadian and Afghan financial burdens and impact on the self perception of Canadians as a peace keeping Middle Power are immense and likely will form a watershed in Canadian history And yet the Mission remains little scrutinized by faith communities and further left as a non conversation for many and the domain of a nebulous foreign policy and largely toothless Manley Report This volume is the first such major attempt by the Centre for Public Theology to bring together theologians philosophers faith leaders NGOs politicians and other academics from sociology politics and peace keeping in order to dialogue about the impact of the Afghan Mission These papers form much of the conversation of a conference held in May 2009 at the Centre for Public Theology The papers offer reflections on the Manley Report investigations on the theological and philosophical issues at play in Canada's response interaction with Canada's shift from peace keeping to war fighting and the new NATO mandate thoughts on the role of Islamic nations and analysis of the role of the Abrahamic faith communities in this wider Canadian conversation The Centre for Public Theology is a federally funded research centre housed at Huron University College whose mandate is to bring into conversation academics NGOs media Government and the public on issues of public policy and life with a particular attention to the role of religion in Canadian

life Its founding motto is intelligence not advocacy It is not an advocacy or lobbying centre instead seeking only to facilitate dialogue across boundaries Its webpage can be found at [www publictheology org](http://www.publictheology.org)
