Reason And Realpolitik:

Air University Review ,1985 A Theory of Global Energy Governance Frédéric Sourgens,2025-09-04 Energy governance today is at a crossroads Faced with the pressing issues of energy security climate change and the cost of energy policymakers must grapple with how to achieve critical outcomes in an increasingly tumultuous world A Theory of Global Energy Governance offers the first unitary and interdisciplinary theory of global energy governance that explains the interlinkage between domestic and global energy decision making processes It lays out a new path to resolve global energy geopolitical tensions grounded in a shared sense of belonging within the global energy commons Part I explores the theoretical relationship between development and energy systems Part II presents an understanding of energy governance as founded on a bond of energy belonging contrasting with the prevailing realpolitik approach In Part III Sourgens reimagines the role of institutions in the global energy system to harness the benefits of deeper energy cooperation Finally Part IV furthers the discussion of the global energy commons by highlighting the unique position and potential of energy systems to steer the world towards a broader conception of the common good *Ideology and International Relations in the Modern*

World War II: The War Over Ideology Alan Cassels, 2002-11-01 Cassels offers a novel perspective on the part played by ideology in international relations over the past two centuries His treatment is not restricted to the familiar totalitarian ideologies of communism and nazism but also includes conservatism liberalism and nationalism The focus and emphasis given to ideology in an historical survey of such broad scope make this book unusual and even controversial **Air university review, 1984** ,1984 **The War Over**

Perpetual Peace E. Easley, 2004-12-02 This book examines the various competing interpretations of Kant's foundational Perpetual Peace since its initial publication in the late eighteenth century. According to Easley's analysis, there are two patterns of interpretations: 1) the text endorses peace proposals above the state level; 2) the text is in favour of peace proposals at the state level. The principal explanation for these two patterns resides in the rise and fall of hopes for peace through international organizations. It can also be attributed to the rise in the number of liberal states over time. Eric Easley provides a comprehensive historical background and analytical framework for understanding Perpetual Peace, allowing scholars of international relations to better understand and appreciate its complex meaning and see beyond the conventionally accepted interpretations of the day.

The Legacy of Pierre Bourdieu Simon Susen, Bryan S. Killing Trap Manus I. Midlarsky, 2005-10-20 The Killing Trap offers a comparative analysis of the genocides politicides and ethnic cleansings of the twentieth century which are estimated to have cost upwards of forty million lives The book seeks to understand both the occurrence and magnitude of genocide based on the conviction that such comparative analysis may contribute towards prevention of genocide in the future Manus Midlarsky compares socio economic circumstances and international contexts and includes in his analysis the Jews of Europe Armenians in the Ottoman Empire Tutsi in Rwanda black Africans in Darfur Cambodians Bosnians and the victims of conflict in Ireland The occurrence of genocide is explained by means of a framework that gives equal emphasis to the non occurrence of genocide a critical element not found in other comparisons and victims are given a prominence equal to that of perpetrators in understanding the magnitude of genocide
