Reason In Human Affairs:

Reason in Human Affairs Herbert Simon,1990-07-01 What can reason or more broadly thinking do for us and what can it do This is the question examined by Herbert A Simon who received the 1978 Nobel Prize in Economic Sciences for his pioneering work on decision making processes in economic organizations The ability to apply reason to the choice of actions is supposed to be one of the defining characteristics of our species In the first two chapters the author explores the nature and limits of human reason comparing and evaluating the major theoretical frameworks that have been erected to explain reasoning processes He also discusses the interaction of thinking and emotion in the choice of our actions In the third and final chapter the author applies the theory of bounded rationality to social institutions and human behavior and points out the problems created by limited attention span human inability to deal with more than one difficult problem at a time He concludes that we must recognize the limitations on our capabilities for rational choice and pursue goals that in their tentativeness and flexibility are compatible with those limits

Reason in Human Affairs Herbert Alexander Simon,1990

Reason, Revelation, and Human Affairs James V. Schall,2001-01-01 This book is intended to serve as an introduction to the thought of James V Schall arguably one of the best perhaps even the only authentically Thomistic political scientist writing today In contrast to main currents in contemporary Thomism Schall remains conversant with the great tradition of political philosophy and therefore appreciates the complex and relatively imprecise nature of political reflection In this book the distinguished theorist addresses a wide range of subjects including the question of overpopulation the thought of Charles McCoy and Leo Strauss the role of Christianity in political philosophy and the challenges that the democratic project pose to human beings perception of the truth As a meditation on practical and theoretical political questions self consciously proceeding from the perspectives of both nature and grace the book provides a unique picture of what a genuine Thomistic political science might look like

Final Causality in Nature and Human Affairs Richard F. Hasting,2018-03-02 Teleology the inquiry into the goals or goods at which nature history God and human beings aim is among the most fundamental yet controversial themes in the history of philosophy Are there ends in nonhuman nature Does human history have a goal Do humanly unintended events of great significance express some sort of purpose Do human beings have ends prior to choice The essays in this volume address the abiding questions of final causality The chapters are arranged in historical order from Aristotle through Hegel to contemporary anthropic principle cosmology

The Sociological Imagination C. Wright Mills,2000-04-13 C Wright Mills is best remembered for his highly acclaimed work The Sociological Imagination in which he set forth his views on how social science should be pursued Leading sociologist Todd Gitlin brings this fortieth anniversary edition up to date with a lucid introduction in which he considers the ways social analysis has progressed since Mills first published his study in 1959 A classic in the field this book still provides rich food for our imagination

Moral Philosophy and the Modern World Donald Phillip Verene,2013-08-27 This work raises for the contemporary reader the ancient and

abiding question of the nature and meaning of human virtue In Part 1 it draws upon Plato Aristotle and Cicero and the works of Renaissance Christian humanists who were influenced by them such as Pico Vives and Erasmus The moral act guided by the cardinal virtues and the good is seen as the key to human happiness and the formation of character Character is the basis for the pursuit of self knowledge decorum and dignity which properly guide human affairs Part 2 takes up Hegel s principle of the labor of the negative as applied to three phenomena of modern life the presence of terrorism the personality of the psycho sociopath and the problems of the technologically dominated life of the modern person These are the most powerful impediments to the good life in the modern world and pose problems to which the ethical doctrines of utilitarianism and the categorical imperative provide an insufficient response To confront these phenomena we are led back to the classical conception of the role of prudence or practical wisdom as the foundation of ethical life

Speaking with Aquinas David Farina Turnbloom,2017 According to Thomas Aquinas the Eucharist is meant to build up the unity of the church This desired ecclesial unity is however not often given adequate treatment In *Speaking with Aquinas* David Farina Turnbloom seeks to describe the relationship between the celebration of the Eucharist and the unity of the church By examining Aquinas s treatment of grace and virtues this book allows the reader to understand Aquinas s eucharistic theology within the context of the spiritual life of the church In the end Turnbloom retrieves a Thomistic theology of the Eucharist that arises from Aquinas s concern for the virtuous life of the church rather than a eucharistic theology that too narrowly focuses on theories of transubstantiation
