

been. The Enlightenment ideal of transparent classification, the universal library, must be abandoned along with any messianic pursuit of an eschatological purity. It must be replaced by an ideal of hospitality ('hospitalière langagière') which combines love of one's own language with acceptance of otherness. Resistance is motivated by fear and hatred of the outsider, seen as a menace to our linguistic heritage and identity. The movement between languages may appear insurmountable (as in Chomsky, 'bien infranchissable'), but the empirical rejoinder is in this case a devastating one: since translation exists it must be possible. This in turn becomes the ethical ideal of conduct to others within one's own language, towards those who are not strangers: it is always possible to say the same thing otherwise ('autrement dit', perhaps better translated as to and for the other, otherly).

The interest of this recent position lies partly in its reformulation of Ricoeur's earlier hermeneutics founded on the dialectic of explanation and understanding of writing conceived in terms of singular artefacts. Instead of a move to generalized textuality (or linguisticity if one prefers Gadamer), it now posits endless transitions between specific writings. Rather than the deconstructive or Heideggerian unmasking of false

origins, acceptance of our condition within writing (as 'nomads errants') implies an opportunity for creative reconstruction and ethical openness to the other. Writing implies writings. This in turn entails a world of divergent but not therefore hostile or incompatible languages and traditions: comprehension of that multiplicity may then become a model for ethical openness to the other both within and outside our own heritages.

The Politics of Metaphor

Don Miller

Keywords boundary, common sense, politics

Metaphor, like any good metaphor, has more than one face: it is, after all, the very stuff of possible worlds promised or denied. It may free or imprison us; it may trumpet its presence or infiltrate unnoticed. We are understandably ambivalent. One moment it appears to be the embodiment of language; the next its betrayer. It indeed troubles us. Little wonder that metaphor can suddenly be seen as the foundation metaphor of politics itself.

There are two related vectors of the politics of metaphor. One is the ostensibly academic question of the place of metaphor, and hence its meaning. Common western thought still welcomes metaphor, after Aristotle, as an attractive accoutrement of things rhetorical but of having no place in other discourse. We are instantly in the politics

of boundaries. Conventional wisdom (and common academic practice) today still insists that metaphor stay in its proper place; elsewhere it is persona non grata.

The Greek tradition gives the modern world a second lean on the issue. Aristotle also saw metaphor as providing a change in perspective, of telling us something new. It is not just a manner of words, it is about thoughts, new thoughts. He was lavish in its praise: it is 'one thing that cannot be learned from others – it is a sign of genius – [it] implies an intuitive perception of the similarity in dissimilars'. Paul Ricoeur, like many others, echoes this sentiment today.

The face of the metaphoric new is one of strangeness, even of a disconcerting incongruity. It upsets the established order. New metaphors may well enthuse those ready to pursue difference; but they frighten others wanting to maintain some existing order of things. Two political moves regularly follow.

Reason Of Metaphor A Study In Politics:

Metaphor Studies: Theories, Methods, Approaches, and Future Perspectives Ilaria Rizzato, Valentina Cuccio, Aletta Gesina Dorst, 2024-12-12 Metaphor has been studied as a linguistic conceptual and communicative phenomenon in a wide range of disciplines including linguistics literary studies philosophy education political science media studies communication science psychology and neurosciences While the Cognitive Theory of Metaphor has dominated the field since the cognitive turn in the 1980s alternatives have been proposed including the Neural Theory of Metaphor the Relevance Theory Approach the Complex Systems Approach and the Dynamic Systems Approach Though studies are still often text based there is a growing body of research on visual metaphor multimodal metaphor and gestural metaphor as well as experimental research ranging from studies on metaphor processing and comprehension to studies in NLP and machine learning Metaphor Studies is thus a highly interdisciplinary field that encompasses a myriad of theories approaches and methods In current metaphor research each of these strands is facing new challenges and offering new venues of cutting edge research using state of the art technologies Researchers tend to focus on their own research areas and provide in depth views within the scope of their own disciplines Metaphor Studies do not seem to escape this phenomenon in spite of the large number of disciplines they draw on ranging from linguistics to psychology to the theory of science Hence there seem to be little cooperation and communication across different fields methods and approaches having metaphors and figurative language as their main object of investigation This Research Topic aims to promote cross fertilization among the many research areas involved in Metaphor Studies thus bringing together different methods and perspectives and offering a comprehensive overview of the possible research scenarios

Kant's Tribunal of Reason Sofie Møller, 2020-03-05 This is the first book length study in English of Kant's legal metaphors whose philosophical importance has so far been overlooked It will appeal to academic researchers and advanced students of Kant early modern philosophy legal philosophy and intellectual history

Political Metaphor Analysis Andreas Musolff, 2016-08-25 Political metaphors and related figurative discourse tools are characterised by their variability and contentiousness Using them discourse participants try to gain competitive advantage over others by offering their audiences new meaning nuances challenging each other and announcing political initiatives It is here that metaphor as a means to change meanings and thus to change social and political reality comes into its own Political Metaphor Analysis provides an innovative approach to the study of figurative language use in political discourse by presenting empirical analyses based on a large corpus of political metaphors and metonymies linking these analyses to theoretical positions and assessing their limitations and perspectives for further exploration The classic model of conceptual metaphor analysis pioneered by Lakoff and Johnson 1980 and expanded and amended over the past thirty five years is critically examined with regard to new findings about the variation historicity pragmatic exploitation comprehension and interpretation of metaphors As a central new analytical category the notion of metaphor scenario is proposed and tested

against various sub sets of data It allows to link hypothesised conceptual metaphors to narrative argumentative and evaluative patterns in actual discourse and understanding processes so that their cognitive significance can be more reliably gauged and theoretically modelled **Slowing Metaphor Down** Gerard J. Steen,2023-06-15 If thinking can be fast or slow metaphorical thinking can be fast and slow too But metaphorical thinking does not occur as often and in the ways that many metaphor scholars today think Slow metaphorical thinking does mean however that we can exert more control over metaphor than has previously been acknowledged We can even offer resistance to metaphor Deliberate Metaphor Theory DMT claims that there is an essential processing difference between non deliberate and deliberate metaphor use which can explain all this This book is the first full account of the DMT model for metaphor comprehension It presents explicit conceptualization and formal operationalization and is based on a well known cognitive psychological model for all utterance comprehension in discourse The original three dimensional model of DMT is here refined into a four dimensional model which reveals new research questions and discoveries about the use of metaphor The book brings together numerous cognitive scientific insights into metaphor It has a high degree of interdisciplinary accessibility to all students of metaphor whether master students PhDs post docs or established academics **Discourse Studies in Public Communication** Eliecer
