The Revival of Pragmatism Morris Dickstein,1998-11-23 An assessment by a distinguished panel of experts on the impact of pragmatism on contemporary thought **Process Mysticism** Daniel A. Dombrowski,2023-01-01 Process Mysticism uses the process philosophies of Charles Hartshorne Alfred North Whitehead and Henri Bergson to explore mystical religious experiences The aim is not so much to demonstrate that such experiences are true or veridical as it is to understand in a William Jamesian fashion how they could be possible and not contradict the concept of God held by philosophers and theologians Divine world inclusiveness ideal power and tragedy the ontological argument asceticism and the via negativa divine visions and voices and the aesthetics and ethics of mysticism are all treated in detail The book is ecumenical in that it is meant to illuminate mystical experiences as they occur around the world in different religious traditions but the author is especially familiar with those in the Abrahamic religions Mysticism can refer to either direct experience of God or the claim that such experience is ineffable and both senses of the term are carefully analyzed in the book Encounters with God in Augustine's Confessions Carl G. Vaught,2012-02-01 This book continues Carl G Vaught s thoroughgoing reinterpretation of Augustine s Confessions one that rejects the view that Augustine is simply a Neoplatonist and argues that he is also a definitively Christian thinker As a companion volume to the earlier Journey toward God in Augustine s Confessions Books I VI it can be read in sequence with or independently of it This work covers the middle portion of the Confessions Books VII IX Opening in Augustine s youthful maturity Books VII IX focus on the three pivotal experiences that transform his life the Neoplatonic vision that causes him to abandon materialism his conversion to Christianity that leads him beyond Neoplatonism to a Christian attitude toward the world and his place in it and the mystical experience he shares with his mother a few days before her death which points to the importance of the Christian community Vaught argues that time space and eternity intersect to provide a framework in which these three experiences occur and which give Augustine a three fold access to God *Pragmatism* Alan R. Malachowski,2004 *Jewish Encounters with Buddhism in German Culture* Sebastian Musch,2019-10-10 In Germany at the turn of the century Buddhism transformed from an obscure topic of interest to only a few misfit scholars into a cultural phenomenon Many of the foremost authors of the period were profoundly influenced by this rapid rise of Buddhism among them some of the best known names in the German Jewish canon Sebastian Musch excavates this neglected dimension of German Jewish identity drawing on philosophical treatises novels essays diaries and letters to trace the history of Jewish Buddhist encounters up to the start of the Second World War Franz Rosenzweig Martin Buber Leo Baeck Theodor Lessing Jakob Wassermann Walter Hasenclever and Lion Feuchtwanger are featured alongside other lesser known figures like Paul Cohen Portheim and Walter Tausk As Musch shows when these thinkers wrote about Buddhism they were also negotiating their own Jewishness **Whitaker's Books in Print** ,1998 **The Christian Century** ,1962 Al-Andalus, Sepharad and Medieval Iberia Ivy Corfis,2010-01-11 The 12 articles of this volume show the

many facets of contact in al Andalus and Medieval Iberia reminding us of how contact influenced art and learning in a wide range of fields politics science philosophy music and religion offering views of how contact between societies affects both language stereotype and assimilation examining how war and conflict re define the representation of ideas places and people and demonstrating how representations changed over time through contact and conflict Lessons of the past apply today as al Andalus captures the modern imagination and cultures continue to come into contact across borders which either allow fluid diffusion of ideas or block passage *Paperbound Books in Print* ,1970 **Union Catalog of the Graduate Theological Union** Graduate Theological Union. web constant strain rates ranging from 10^{-5} s to 10^{-1} s these strain rate dependent stress strain relations are used in the input file and were simulated using fe modelling using abaqus same size of the specimen i e 12.7 mm diameter and 25.4 mm height is modelled in the fe analysis figure 1 shows the fe mesh developed both
