Reassessing Fatherhood New Observations On Fathers And The Modern Family:

Reassessing Fatherhood Charlie Lewis, Margaret O'Brien, 1990 *Reshaping Fatherhood* Anna Dienhart, 1998-05-27
Current research on fatherhood often focuses on minimal changes men have made in their participation in family life Anna Dienhart argues that men have indeed made significant changes to their family roles but those changes are often masked in existing discourses on fatherhood In *Reshaping Fatherhood* Dienhart's qualitative study of 18 shared parenting couples explores both men's and women's resourcefulness and shows how these couples have deliberately co-created alternatives to traditional parenting roles Using these narrative accounts Dienhart offers several options for creating a family structure that allows both mothers and fathers to participate actively in parenting Dienhart emphasizes that tag team parenting a common technique that couples use to juggle the responsibilities of a hectic family life relies on both the interchangeability of parental tasks as well as the specialization by preference Dienhart compares shared parenting to a dance that demands continuous revision of the perceptions and activities of fatherhood and motherhood She challenges family researchers to move beyond deficit and comparative model perspectives about the complexities of gendered family life as she offers alternative ideas about division of labor patterns men's relational capabilities in child care the preeminence of men's provider role and traditional notions about gender and politics in families This timely book is ideal for professionals and students in family studies sociology of the family family psychology and gender studies *Law and Families* Helen Rhoades, 2017-11-30 This volume highlights important classic and contemporary works by law and society scholars who analyze the complex and often highly political relationship between law and families Featuring authors from Australia Canada England and the United States the volume looks at how socio-legal scholars think about families and the law how law shapes family practices the capacity of family law to deliver social justice and how family disputes are resolved Topics such as law's role in recognizing spousal and parental relationships or promoting responsible behaviour or equality norms are covered and the relationship between law's assumptions and the lived realities of families is problematized **Responsibility, Law and the Family** Jo Bridgeman, Craig Lind, 2016-04-08 Focusing on moral social and legal responsibilities as opposed to rights or obligations this volume explores the concept of responsibility in family life law and practice Divided into four parts the study considers the nature of family responsibility constructions of children's responsibilities shifting conceptions of family responsibilities and family responsibility and the law The collection brings together leading experts from the disciplines of sociology socio-legal studies and law to discuss responsibilities prior to birth responsibilities for children as well as responsibilities of children and of the state towards family members The volume informs and challenges the developing conceptualization of responsibilities which arise in interdependent intimate and caring relationships and their legal regulation It will be of great interest to researchers and practitioners working in this complex field *Masculinity, Law and Family* Richard Collier, 2002-11-01 *Masculinity Law and Family* examines the construction of masculinity in a variety of areas of law pertaining to the family

Throughout Richard Collier integrates recent theoretical developments in legal studies with a social theory of gender the family and the social construction of masculinity After an overview of theoretical positions and a critique of traditional legal theory Richard Collier focusses on the legal regulation of homosexuality and transsexualism to show how confined the view of masculine sexuality is in legal discourses These arguments are further elaborated in a discussion of non consummation adultery and divorce as well as fatherhood and paternity Masculinity Law and Family is of central importance to our understanding of the social and political dimension of masculinity

Spaces of Masculinities Kathrin Hörschelmann, Bettina van Hoven, 2013-03-07 Changing circumstances in Western and global societies have introduced new constraints and opportunities for men and the formation of male identities Meanwhile the emerging diversity of atypical identities atypical when compared with traditional conceptions of middle class white heterosexual men poses new challenges for the production and use of spaces Spaces of Masculinities provides a comprehensive introduction to the innovative and diverse research on spaces of masculinity Drawing on a variety of geographical research projects the central concern of the book is to highlight the significance of research on masculinity in sociological and geographical work dealing with constructions of gender
