## **Rebirth Of Monopoly:**

The Great Leveler Brett Christophers, 2016-01-04 Brett Christophers shows how laws help capitalism maintain a crucial balance between competition and monopoly When monopolistic forces dominate antitrust law discourages the growth of corporations and restores competitiveness When competition becomes dominant intellectual property law protects corporate assets and encourages investment *The Consumers' Rail Transportation Antimonopoly Act* United States. Congress. Senate. Committee on the Judiciary, 1985 Professionalism Reborn Eliot Freidson, 1994-08 In industrialized societies professionals have long been valued and set apart from other workers because of their specialized knowledge and skill But has their role in these societies declined Of what significance are they today In this concise synthesis of the major debates about the professions since World War II Eliot Freidson explores several broad questions about professionalism today what it is what its future is likely to be and its value to public policy Freidson argues that because professionalism is based on specialized knowledge it is distinct from either bureaucratic or market based forms of work He predicts a rebirth of the professions during which practitioners lose some of their independence and become more accountable to standards of a professional elite And defending professionalism as a desirable method of providing complex discretionary services to the public Freidson argues that market based or bureaucratic methods would impoverish the quality of service to consumers and suggests ways the virtues of professionalism can be reinforced The most accessible survey available of almost fifty years of theory and research by the scholar whose own work helped define the field this book will appeal to the growing international body of scholars concerned with studying and theorizing about the professions *In Restraint of Trade* Butler D. Shaffer, 1997 What emerges from this book is an awareness that the relationship between government and business has been far more symbiotic than adversarial in the years following World War I and that government regulatory practices have served the needs of the business community far more than the interests of the public *Oil and Ideology* Roger M. Olien, Diana Davids Hinton, Diana Davids Olien, 2000 A synthesis of cultural business gender and intellectual history exploring how the negative image of America's petrol industry was created It shows how this image helped shape policy toward the industry in ways that were sometimes at odds with the goals of reformers and the public interest **Marshall Plan Modernism** Jaleh Mansoor, 2016-09-02 Focusing on artwork by Lucio Fontana Alberto Burri and Piero Manzoni Jaleh Mansoor demonstrates and reveals how abstract painting especially the monochrome broke with fascist associated futurism and functioned as an index of social transition in postwar Italy Mansoor refuses to read the singularly striking formal and procedural violence of Fontana's slit canvasses Burri's burnt and exploded plastics and Manzoni's achromes as metaphors of traumatic memories of World War II Rather she locates the motivation for this violence in the history of the medium of painting and in the economic history of postwar Italy Reconfiguring the relationship between politics and aesthetics Mansoor illuminates how the monochrome's reemergence reflected Fontana Burri and Manzoni's aesthetic and political critique of the Marshall Plan's

economic warfare and growing American hegemony It also anticipated the struggles in Italy's factories classrooms and streets that gave rise to Autonomia in the 1960s Marshall Plan Modernism refigures our understanding of modernist painting as a project about labor and the geopolitics of postwar reconstruction during the Italian Miracle      **The Asian Games: Modern Metaphor for 'The Middle Kingdom' Reborn** J.A. Mangan, 2017-07-05 The premise of The Asian Games Modern Metaphor for The Middle Kingdom Reborn Political Statement Cultural Assertion Social Symbol is emphatic The Guangzhou 2010 Asian Games was a metaphor for hegemony and renaissance China crushed the other Asian nations with the massive weight of its Gold Medal haul and demonstrated regional self confidence regained The huge accumulation of gold medals emphasized that once again China stood apart and above other nations of Asia China's reaction and the reactions of the other Asian nations are explored in The Asian Games There is another premise in the publication that the Chinese Asian Games were a harbinger of a wider dominance to come geopolitically politically militarily economically and culturally And there is a further issue raised by the Guangzhou Asian Games the continuing determination of the Asian nations to mount a distinctive Games that is Asian and resistant to the cumbersome gigantism of the Modern Olympic Games Asia now has the wealth to promote present and project a global sports mega event with an Asian identity and in an Asian idiom This Collection is unique in focus argument and evidence This book was published as a special issue of the International Journal of the History of Sport

**Transformations of Policing** Alistair Henry, 2017-05-15 Police and People in London is still the largest and most detailed study of a police force and its relations with the public that has yet been undertaken in Britain The twenty three years since its publication has seen a constantly accelerating rate of change in the legal framework of policing in the arrangements for democratic accountability of the police in the technologies involved in crime and policing in management structures and methods in the police service in financial control systems imposed by central government and in methods of assessing police performance Over the same period crime control has moved from the bottom to the top of the political agenda leading to increasing pressure on the police to be seen to be effective Transformations of Policing returns to the central issues discussed in 1983 and considers whether the main conclusions need to be revised in the light of what has happened since It also reviews areas of debate and research that have emerged more recently and highlights areas of turbulence that are creating fundamentally different patterns from before and raising genuinely new questions      **Energy antimonopoly act of 1979, S. 1246** United States.
