Rebuilding Buddhism The Theravada Movement In 20th Century Nepal:

Rebuilding Buddhism Sarah LeVine, David N. Gellner, 2007-09-30 Rebuilding Buddhism describes in evocative detail the experiences and achievements of Nepalis who have adopted Theravada Buddhism. This form of Buddhism was introduced into Nepal from Burma and Sri Lanka in the 1930s and its adherents have struggled for recognition and acceptance ever since. With its focus on the austere figure of the monk and the biography of the historical Buddha and more recently with its emphasis on individualizing meditation and on gender equality, Theravada Buddhism contrasts sharply with the highly ritualized Tantric Buddhism traditionally practiced in the Kathmandu Valley. Based on extensive fieldwork interviews and historical reconstruction, the book provides a rich portrait of the different ways of being a Nepali Buddhist over the past seventy years. At the same time, it explores the impact of the Theravada movement and what its gradual success has meant for Buddhism for society and for men and women in Nepal.

The Oxford Handbook of Contemporary Buddhism Michael K. Jerryson, 2017 The Oxford Handbook of Contemporary Buddhism offers a comprehensive collection of work by leading scholars in the field. Buddhism in Indonesia Roberto Rizzo, 2024-04-16 Based on extensive original research, this book explores the history and current revival of Buddhism on the Indonesian island of Java. Beginning by tracing how Buddhism came to Java from India via Southeast Asia, it considers how Buddhism has survived and adapted as Islam and Christianity became dominant. It goes on to report on detailed anthropological research both in a remote highland community, Temanggung, and in Java's main cities, including Jakarta, showing how youth activism and close community cohesion have brought about revival. It includes an examination of the production of Buddhist wayside shrines. Throughout, it shows how Buddhism in Java has fused with local traditional practices, local circumstances, and transnational processes to form a unique Javanese Buddhism.

Meditation in Modern Buddhism Joanna Cook, 2010-08-05 In contemporary Thai Buddhism, the burgeoning popularity of vipassana meditation is dramatically impacting the lives of those most closely involved with its practice: monks and mae chee lay nuns living in monastic communities. For them, meditation becomes a central focus of life and a way to transform the self. This ethnographic account of a thriving Northern Thai monastery examines meditation in

detail and explores the subjective signification of monastic duties and ascetic practices Drawing on fieldwork done both as an analytical observer and as a full participant in the life of the monastery Joanna Cook analyzes the motivation and experience of renouncers and shows what effect meditative practices have on individuals and community organization The particular focus on the status of mae chee part lay part monastic provides a fresh insight into social relationships and gender hierarchy within the context of the monastery

If You Meet the Buddha on the Road Michael Jerryson, 2018-03-27 Drawing on Buddhist treatments of violence this book explores Buddhist invocation support or justification of war conflict state violence and gender discrimination In addition it examines the ways in which Buddhists address violence as military chaplains cope with violence in a conflict zone and serve as witnesses of blasphemy to Buddhism

Buddhism after Mao Ji Zhe, Gareth Fisher, André Laliberté, 2020-02-29 With well over 100 million adherents Buddhism emerged from near annihilation during the Cultural Revolution to become the largest religion in China today Despite this Buddhism's rise has received relatively little scholarly

attention The present volume with contributions by leading scholars in sociology anthropology political science and religious studies explores the evolution of Chinese Buddhism in the post Mao period with a depth not seen before in a single study Chapters critically analyze the effects of state policies on the evolution of Buddhist institutions the challenge of rebuilding temples under the watchful eye of the state efforts to rebuild monastic lineages and schools left broken in the aftermath of Mao's rule and the development of new lay Buddhist spaces both at temple sites and online Through its multidisciplinary perspectives the book provides both an extensive overview of the social and political conditions under which Buddhism has grown as well as discussions of the individual projects of both monastic and lay entrepreneurs who dynamically and creatively carve out spaces for Buddhist growth in contemporary Chinese society As a wide ranging study that illuminates many facets of China's Buddhist revival Buddhism after Mao will be required reading for scholars of Chinese Buddhism and of Buddhism and modernity more broadly Its detailed case studies examining the intersections among religion state and contemporary Chinese society will be welcomed by sociologists and anthropologists of China political scientists focusing on the role of religion in state formation in Asian societies and all those interested in the relationship between religion and social change

The Barua Buddhists Aparna Chatterjee, 2022-11-28 Where do the Baruas stand in Buddhist religious universe Could they be categorized as Bengali Buddhists Such intriguing questions are addressed headlong here and answers are ferreted out of the troves of history A large swathe of these frankly devout people is now found settled in and around Siliguri town a gateway to the North Eastern hinterland But their antecedents are immensely spectacular yet problematic As settlers how far their religious moorings carry them through the alienated environs of a majoritarian Hindu society How proficient they are in border maintenance and syncretism This ethnographic study of Bengali Barua Buddhists gives the reader a critical insight into everyday sociological practices of these struggling survivors of an ancient religion
