DYADIC HEALTH SCIENCE IN GERONTOLOGY: RECENT ADVANCES AND INTERDISCIPLINARY PERSPECTIVES

Chair: Lynn Martire Co-Chair: Karen Lyons Discussant:
Christine Proulx

Close others impact health in profound ways, and many of the critical pathways can only be understood by examining the dynamics that emerge between two people. This symposium will present new theoretical and methodological advances in dyadic health science, and invite discussion of differing perspectives on the scope of dyadic research. Dr. Wilson will overview the essential components of rigorous dyadic health research and explain the range of approaches used to define dyadic research, setting the stage for the cutting-edge work described in the subsequent presentations. Drs. Novak and Yorgason will discuss the importance of matching research questions with dyadic data and how to best model congruence/similarity, difference scores, accuracy or bias, and idealization between partners. Dr. Pauly will describe a recently proposed developmental-contextual model of couple synchrony, and present findings from research

Recent Advances in Geriatric Medicine Mason Button, 2019-06-11. Geriatric medicine refers to the medical practices and interventions aimed at ensuring quality of life for elderly people, along with the prevention and treatment of diseases and conditions that people are prone to as they age. One of the most significant issues in geriatrics is the prevention and treatment of delirium. Promoting interventions that are designed to maintain the physical and cognitive functioning of aged adults, maximizing patients' independence, etc. are some of the ways to manage delirium. Aging may cause changes in the effectiveness of drugs and their side effects. Pharmacological constitution and regimen is another important consideration in geriatric medicine. The elderly are particularly prone to polypharmacy. This happens when a patient suffers from multiple disorders and takes over the counter drugs and herbal medications. An important area of study is the efficacy of inappropriate medications and dangerous drug interactions. This book explores all the important aspects of geriatric medicine in the present-day scenario. Different approaches, evaluations, methodologies, and advanced studies on geriatric medicine have been included herein. The extensive content of this book provides the readers with a thorough understanding of the recent advances in geriatric medicine.
