Bubble in the Sun Christopher Knowlton, 2021-01-12 Christopher Knowlton author of *Cattle Kingdom* and former *Fortune* writer takes an in depth look at the spectacular Florida land boom of the 1920s and shows how it led directly to the Great Depression The 1920s in Florida was a time of incredible excess immense wealth and precipitous collapse The decade there produced the largest human migration in American history far exceeding the settlement of the West as millions flocked to the grand hotels and the new cities that rose rapidly from the teeming wetlands The boom spawned a new subdivision civilization and the most egregious large scale assault on the environment in the name of progress Nowhere was the glitz and froth of the Roaring Twenties more excessive than in Florida Here was Vegas before there was a Vegas gambling was condoned and so was drinking since prohibition was not enforced Tycoons crooks and celebrities arrived en masse to promote or exploit this new and dazzling American frontier in the sunshine Yet the import and deep impact of these historical events have never been explored

thoroughly until now In *Bubble in the Sun* Christopher Knowlton examines the grand artistic and entrepreneurial visions behind Coral Gables Boca Raton Miami Beach and other storied sites as well as the darker side of the frenzy For while giant fortunes were being made and lost and the nightlife raged more raucously than anywhere else the pure beauty of the Everglades suffered wanton ruination and the workers mostly black who built and maintained the boom endured grievous abuses Knowlton breathes dynamic life into the forces that made and wrecked Florida during the decade the real estate moguls Carl Fisher George Merrick and Addison Mizner and the once in a century hurricane whose aftermath triggered the stock market crash This essential account is a revelatory and riveting history of an era that still affects our country today

The Spanish Craze Richard L. Kagan, 2019-03-01 The Spanish Craze is the compelling story of the centuries long U S fascination with the history literature art culture and architecture of Spain Richard L Kagan offers a stunningly revisionist understanding of the origins of hispanidad in America tracing its origins from the early republic to the New Deal As Spanish power and influence waned in the Atlantic World by the eighteenth century her rivals created the Black Legend which promoted an image of Spain as a dead and lost civilization rife with innate cruelty and cultural and religious backwardness The Black Legend and its ambivalences influenced Americans throughout the nineteenth century reaching a high pitch in the Spanish American War of 1898 However the Black Legend retreated soon thereafter and Spanish culture and heritage became attractive to Americans for its perceived authenticity and antimodernism Although the Spanish craze infected regions where the Spanish New World presence was most felt California the American Southwest Texas and Florida there were also early quite serious flare ups of the craze in Chicago New York and New England Kagan

revisits early interest in Hispanism among elites such as the Boston book dealer Obadiah Rich a specialist in the early history of the Americas and the writers Washington Irving and Henry Wadsworth Longfellow He also considers later enthusiasts such as Angelino Charles Lummis and the many writers artists and architects of the modern Spanish Colonial Revival in the United States in the late nineteenth and early twentieth centuries Spain s political and cultural elites understood that the promotion of Spanish culture in the United States and the Western Hemisphere in general would help overcome imperial defeats while uniting Spaniards and those of Spanish descent into a singular raza whose shared characteristics and interests transcended national boundaries With elegant prose and verve *The Spanish Craze* spans centuries and provides a captivating glimpse into distinct facets of Hispanism in monuments buildings and private homes the visual performing and cinematic arts and the literature travel journals and letters of its enthusiasts in the United States **American Bungalow** ,2006

Handbook to Life in America Rodney P. Carlisle,2009 Changing International affairs and the forces of technological innovation shaped the lives of Americans in the last decades of the 20th century While the end of the Cold War and the collapse of the Soviet Union gave rise to hopes of peaceful international relations the Gulf War and the attacks of September 11 2001 on the World Trade Center in New York shattered these aspirations In the social sphere cell phones CDs and the Internet completely transformed the ways by which people communicated and conveyed information The election of an African American man to the presidency marked the successful continuation of the struggle for equal civil rights bolstering America s reputation as a radically changing place in this contemporary period American Bungalow Style Robert Winter,1996-05 In the tradition of *The Wright Style* this lush volume captures the charm of that Arts and Crafts era building type called the bungalow and provides a wealth of ideas for restoring and decorating these historic American homes 300 full color photos 14 black white photos Line drawings *Architecture for the Screen* Juan Antonio Ramírez,2012-04-11 Most of us have never found ourselves trapped inside a burning skyscraper or entombed within an Egyptian pyramid but we probably have some idea of what it would be like because of their portrayal on screen The movies have overcome the constraints of time and place by bringing us images of diverse and otherwise unfamiliar settings This work covers the many applications of art and architecture appearing in the movies produced in Hollywood from the very beginning until the fifties The first chapters deal with the process of design construction physical characteristics and immediate functions of a wide variety of architectural sets The remaining chapters examine the great number of styles shown in those movies and take the reader up to the final triumph of modernist architecture in the aftermath of the Second World War *California Mediterranean* Marc Appleton,2007 In the early 20th century architects designing houses for the balmy climate of Southern California were influenced by the style of the villas and palaces that dominated the architecture of Italy France Spain Greece and Morocco and a few other North African locales The resulting style noted for its pleasing combination of simplicity and dignity for its often asymmetrical undecorated facades reflected romantic European forms and yet distinguished itself by adding American

ingenuity Prime examples of this include Villa Narcissa widely celebrated for its unimposing grandeur and Casa Leon with its stunning hillside location and ocean views Included here are residences by noted architects such as Julia Morgan Bertram Goodhue Addison Mizner George Washington Smith Wallace Neff and others While some of the houses are lavishly decorated villas with lush landscaping others are more spare creations what all these interpretations of the California Mediterranean style have in common is an indoor outdoor approach to living
