Reimagining Time Tanya Bub, Jeffrey Bub, 2021-04-13 A quirky funny and accessible blend of science and art that delves into the heart of Einstein's theory of relativity. It was a link to his 1905 paper, an early attempt at explaining his revolutionary ideas on space, time, and matter that drew Tanya Bub into Albert Einstein's imaginative vision of the world. What particularly struck her was how Einstein interwove words and math to create clear visuals illustrating his theories. As an artist, she naturally started doodling as she worked her way through his concepts, creating drawings that intuitively demonstrated Einstein's core principles. In *Reimagining Time*, Tanya Bub teams up with her father, the distinguished physicist Jeffrey Bub, to create a quirky and accessible take on one of science's most revolutionary discoveries. Blending original art and text, they guide readers through Einstein's theory of special relativity to expose truths about our universe: time is relative, lengths get shorter with motion, energy and mass are interchangeable, and the Universe has a speed limit.

Leola's Mountain Jack Jones, 2006-08 The dying Leola watched the Air Force pilot whom Anna loved and could never have taken her hand and lead her into the living room. She had never seen a more beautiful scene. Anna's dress, sheen of white, molded to the curves of her body in a whispering shuffle as they danced to the soft music. Who could have known that the ten-year-old motherless, freckle-faced, skinny child she had taken as her own would grow to have such beauty and poise. What a bonus for her to have character leading her to love and nurse those old war veterans under her care. Whether she was the tomboy in overalls repairing a roof or visiting an old man at his whiskey still, there was always the woman, a woman unlike any other. Here was the prize of Leola's Mountain, always caring, educated, with funds furnished by a moonshiner and a carpet mill worker. Whether in a white gown or a nurse's uniform, it quietly proclaimed all the purity that was underneath. She was a mountain gal. She was Anna Beam. Brutal and evil men came to harm her, and Anna. Could the old moonshiner and his misfit friends save them?

Boojums All the Way Through N. David Mermin, 1990-03-15 *Boojums All the Way Through* is a collection of essays that deals in a variety of ways with the problem of communicating modern physics to both physicists and non physicists The author is Professor David Mermin a well known theoretical physicist who recently won the first Julius Edgar Lileinfeld prize of the American Physical Society for his remarkable clarity and wit as a lecturer to nonspecialists on difficult subjects David Mermin's wry humour is clearly apparent in most of these articles but even those that are more serious are characterized by a liveliness and commitment to finding startlingly simple ways of presenting ideas that are traditionally regarded as complex This book will appeal to physicists at all levels to mathematicians scientists and engineers and indeed to anyone who enjoys reading non technical accounts of new ways of looking at modern science
