Redeemed Creation Sacramentals Today:

Redeemed Creation Laurence Brett, 1984-09-01 *Redeemed Creation* Laurence F.X. Brett, 1984 **Blessing the World** Derek A. Rivard, 2009 Blessings were an integral and vital element of medieval Christian life and worship Benedictions for homes and workplaces the knight and the pilgrim the city under siege and the fetus in the womb are but a small sample of the multitudinous and fascinating extra sacramental blessings that fill the leaves of the liturgical books of the medieval Latin Church While commonly acknowledged as a crucial element in the life of medieval people the meaning and importance of these blessings for their authors and audiences have been frequently overlooked by liturgical and historical scholarship which has focused instead on the textual transmission and long term changes in the blessings and the rituals surrounding them This present work corrects this omission by examining these blessings with modern eyes and a new methodology In *Blessing the World* Derek A Rivard studies liturgical blessing and its role in the religious life of Christians during the central and later Middle Ages with a particular focus on the blessings of the Franco Roman liturgical tradition from the tenth to late thirteenth centuries Through a careful and extensive study of more than ninety such blessings many of them translated for the first time and accessible to a readership beyond specialists in medieval liturgy the author argues that medieval blessings were composed as a direct response to the needs anxieties beliefs and fears of the laity and therefore these texts represent a rich and largely untapped source for the study of lay piety and of ritual in medieval Europe Effectively drawing upon anthropology ritual studies the phenomenology of religion and traditional textual study Rivard explores the rich themes of medieval piety that flow throughout the blessings in order to produce a new understanding of the blessing as an attempt to tap the power of the sacred for use in daily life Benedictions for spaces places persons items and events are each studied in turn to produce this new understanding of these blessings and in the process these petitions and rituals reveal much about larger issues of medieval people s cosmology their perceived role in their cosmos their conceptions of God and their connections to the divine and to the spiritual powers of God s creation ABOUT THE AUTHOR Derek A Rivard is associate professor of history at Cottey College PRAISE FOR THE BOOK *Blessing the World* analyzes the texts of dozens of these blessings in order to explore how medieval Christians conceived of God and their own place within sacred history This textual focus is the book s strength and the author provides English translations of blessings from the tenth to the sixteenth centuries including the original Latin in footnotes thereby making available to readers a rich source of these materials Kathleen Kamerick *The Medieval Review* Rivard s study of medieval blessing rituals sheds helpful light on the ways that medieval churchmen and their flocks viewed their relationship to God to nature and to their society James A Brundage *Church History* *Special Signs of Grace* Joseph M. Champlin, 1986 **Catechesis for Liturgy** Gilbert Ost diek, 1986 The liturgy doesn t have to be a spectator event Learn how to bridge the gap between religious education **Healing Ministry** Leo Thomas, Jan Alkire, 1994 Dominican priest Leo Thomas applies the wisdom of pastoral care to the ministry of religious

healing He does so with practical concrete step by step explanations of how to offer healing to those who are hurting The book's goal is to show Christians lay and ordained Catholic and Protestant how to minister together in a powerful way so that hurting people can experience the healing love of God who meets them in their need The end of each chapter contains reflection questions to help readers bring healing into their own lives while deepening their spirituality Also included are chapter summaries and a list of recommended resources that expand upon the subjects covered

Sacramental Theology Bruce T. Morrill, 2019-11-18 Throughout the second half of the twentieth century sacramental theology has evolved as a discipline advancing comprehensive theories of sacraments and sacramentality as integral to the Christian faith while also studying the history and theology of the particular rites Now in the twenty first century the need for attention to the actual performance and specific social settings of sacramental worship has become well established This makes the work of sacramental theology necessarily engaged with multiple cross disciplinary theories attentive to particular contexts whether local national or global Still the divine human encounter at the heart of Christian symbol and ritual likewise beckons to philosophical theological reflection The essays in this volume begin with profound philosophical perspectives on the personal and communal sacramental experience expanding from traditional cosmology to evolutionary and chaos theories of our planetary existence continuing with shifts especially among youth to interreligious and non institutional perspectives consideration of change in popular notions of guilt and social ethical issues in relation to liturgical theology and practice so as finally to return to fundamental theological reflection on human sacramentality and divine revelation

Catholic Evangelization Today Kenneth Boyack, 1987

Sacramental Streams Richard Davenport, 2025-02-04 The church has long seen baptism as one of the means by which God delivers his grace to his people Many passages in the New Testament detail the value of baptism and indicate its status as one of the primary gifts God gives At the same time Jesus conversation with Nicodemus indicates the benefits of baptism should already be evident The early church understood this and saw that God had been preparing his people for the sacrament from the very beginning This book goes back through the Old Testament to draw on the various themes God has presented to inform and instruct his people about the sacrament he would later institute By examining these themes in detail it is shown that though baptism is a one time event in the life of the Christian the baptized continue to receive its benefits Baptism not only functions as an ongoing means of God's grace but as the means by which God shapes his people into the holy nation he has called them to be

The Month, 1992

A General Doctrine of the Sacraments and the Mystery of the Eucharist Johann Auer, 1995 In A General Doctrine of the Sacraments Johann Auer aims to achieve a deeper understanding of the inner structure of the sacraments and of how they determine the structure of our Christian

existence In The Mystery of the Eucharist Auer takes account of the biblical historical and theological aspects of the Church's teaching on the Eucharist **The Oxford Handbook of Sacramental Theology** Hans Boersma, Matthew

Levering, 2015-08-06 As a multi-faceted introduction to sacramental theology the purposes of this Handbook are threefold: historical, ecumenical, and missional. The forty-four chapters are organized into the following parts: five parts: Sacramental Roots in Scripture, Patristic Sacramental Theology, Medieval Sacramental Theology, From the Reformation through Today, and Philosophical and Theological Issues in Sacramental Doctrine. Contributors to this Handbook explain the diverse ways that believers have construed the sacraments both in inspired Scripture and in the history of the Church's practice. In Scripture and the early Church, Orthodox, Protestants, and Catholics all find evidence that the first Christian communities celebrated and taught about the sacraments in a manner that Orthodox, Protestants, and Catholics today affirm as the foundation of their own faith and practice. Thus, for those who want to understand what has been taught about the sacraments in Scripture and across the generations by the major thinkers of the various Christian traditions, this Handbook provides an introduction. As the divisions in Christian sacramental understanding and practice are certainly evident in this Handbook, it is not thereby without ecumenical and missional value. This book evidences that the story of the Christian sacraments is, despite divisions in interpretation and practice, one of tremendous hope. *Sacramental Identity* T. Ryan Dillon, 2024-04-01

Who am I? A theology of personal identity and an answer to that question should be integral to any theological anthropology. For some, the answer is found in what many have called expressive individualism: an inward turn toward the self and who and what I feel is most authentic to that self. Christians respond that we are no longer that person; we are in Christ. But do either of these answers truly respond to the realities of both storied and embodied persons living out a life over time and change, or the demand for an answer of stability throughout that endless change? Sacramental Identity seeks to answer these questions by grounding personal identity in Scripture, history, and a rich theology of the sacraments of the church. In a time where many are skeptical of the church's care for the embodied and storied realities of human life, the sacraments invite us into the story of Christ and the church to discover who we are. Blessed and Broken Ralph A. Keifer, 1990 The Cosmos as the Primary Sacrament

Dorothy C. McDougall, 2003 The magnitude of the current ecological crisis demands a fundamental redefinition of human identity. It is no longer viable to regard human beings as the apex of creation; rather, humans must be recognized as existing within an intricate web of cosmic relations. For Christian sacramental theology, this redefinition requires that the horizon of theological reflection be shifted from a redemption-centered focus to a cosmocentric one. In this book, Dorothy C. McDougall elaborates the construction of an ecological sacramental theology based on the metaphor of the cosmos as the primary sacrament. McDougall draws on the work of Thomas Berry with its foundation in a new and emergent scientific perspective, as well as the social critique of ecofeminism, as two significant resources. **The Greenie's Guide to the End of the World**

Theodore McCall, 2011 There is an old fundamentalist argument that the world will eventually be destroyed in the Apocalypse.

so there is no point in caring for it When one reads about the delicate balance of the first moments of the cosmos one can only marvel at the process which brought about the existence of the earth and the creatures that inhabit it One of Theo McCall s joys in life is cycling He lives in the city of Adelaide South Australia a perfect city for cycling When he first began this project once or twice a week he would cycle in the early morning The last part of the return trip would involve riding eastwards into the rising sun Whenever he felt the warmth of the sun on his face and was aware of its sheer power and energy he was convinced that the universe is an overwhelmingly beautiful place which God would never abandon or destroy It is with this complete faith in God s love for creation that he set out to write an account of how this creation with all its beauty and fragility as well as its flaws and scars might be transformed into God s new creation Given the ecological crisis that we face how can we meaningfully talk about the consummation of all things without removing the impetus for ecological action In other words is it possible to develop an ecological eschatology

Mission on the Road to Emmaus Cathy Ross, Stephen B. Bevans, 2015-01-31 Aimed at scholars and students of missiology this book considers missions through the lens of prophetic dialogue The authors try to bring a fresh approach to the subject of mission introducing some newer themes identity creation migration and offering a different perspective on some older themes by grouping them in this way

The Living Church ,1960 Faith, Reason, and Compassion James Earl Gilman, 2007 What is the relationship between faith and reason How should faith and reason situate themselves in relation to each other These are the chief questions that James Gilman seeks to address in *Faith Reason and Compassion A Philosophy of the Christian Faith*
