documentaries like *Blackfish* are art for civic imagination and social critique Today's documentaries interrogate topics like sexual assault in the U.S. military, *The Invisible War*, racial injustice, 13th government surveillance, *Citizenfour* and more. Artistic nonfiction films are changing public conversations, influencing media agendas, mobilizing communities and capturing the attention of policymakers, accessed by expanding audiences in a transforming media marketplace. In *Story Movements: How Documentaries Empower People and Inspire Social Change*, producer and scholar Caty Borum Chattoo explores how documentaries disrupt dominant cultural narratives through complex, creative, often investigative storytelling. Featuring original interviews with award-winning documentary filmmakers and field leaders, the book reveals the influence and motivations behind the vibrant, eye-opening stories of the contemporary documentary age.

Intelligence Work Jonathan Kahana, 2008-07-07 *Intelligence Work* establishes a new genealogy of American social documentary, proposing a fresh critical approach to the aesthetic and political issues of nonfiction cinema and media. Jonathan Kahana argues that the use of documentary film by intellectuals, activists, government agencies and community groups constitutes a national public form of culture, one that challenges traditional oppositions between official and vernacular speech, between high art and popular culture, and between academic knowledge and common sense. Placing iconic images and the work of celebrated filmmakers next to overlooked and rediscovered productions, Kahana demonstrates how documentary collects and delivers the evidence of the American experience to the public sphere, where it lends force to political movements and gives substance to the social imaginary.

That's the Way It Is Charles L. Ponce de Leon, 2015-05-04 This engaging and important study examines the evolution of TV news and its long history of blending journalism and entertainment. *American Historical Review* Today's media critics often decry the state of television news, saying that it's too dumbed down, becoming more entertainment than information. But this familiar narrative fails to acknowledge real changes in media and Americans' news-consuming habits. It also harkens back to a golden age that, on closer examination, is revealed to be not so golden. As Charles L. Ponce de Leon explains in *That's the Way It Is*, TV news has always walked a fine line between hard news and fluff. Ponce de Leon traces the entire history of televised news, from the household names of the late 1940s and early 50s like Eric Sevareid, Edward R. Murrow and Walter Cronkite, through the rise of cable, the political power of Fox News and the satirical punch of Colbert and Stewart. He describes an industry forever in transition, where newsmagazines and celebrity profiles vie with political news and serious investigations. The need for ratings, success and the lighter human-interest stories that can help bring it, Ponce de Leon makes clear, has always sat uneasily alongside a real desire to report hard news. Highlighting the paradoxes at the heart of TV news and telling a story rich in familiar figures and fascinating anecdotes, *That's the Way It Is* offers an insightful and engaging account of how television has presented our history as it happens.

The Archivability of Television Lauren Bratslavsky, Elizabeth Peterson, 2025-06 This anthology critically evaluates archives and archival processes that collect, order and preserve elements of television as historically, culturally, socially, politically and economically significant material. What do

we know about how television moved from ephemeral broadcasts and mounds of paperwork documenting bureaucratic and creative processes to become historical material housed in archives This book s guiding principles are to interrogate where television as historical material lives and to collect the stories of some ways television preservation has been and continues to be deeply circumstantial and idiosyncratic Bringing together work by academics archivists and practitioners the book offers insights into the archival processes that confer television programs with historical value With a focus on television s archival spaces the book contributes more broadly to theories histories and practices of archiving Likewise the theories and questions about archives provide insights into the specificities of the medium the relations between technologies and culture the political economy of the culture industries and the minutiae of television s place in American society *The Oxford Handbook of American Documentary* Joshua Glick, Visiting Associate Professor of Film & Electronic Arts Joshua Glick, Patricia Aufderheide, University Professor in the School of Communication Patricia Aufderheide, 2025 Joshua Glick and Patricia Aufderheide Over the past twenty years documentaries have taken on an increasingly central place in American public life One measure of their importance is their commercial value Major media companies have moved aggressively to monetize documentary exploiting the form s relatively low budgets compared to fiction **Viewers Like You** Laurie Oullette, 2012-07-24 How public is public television if only a small percentage of the American people tune in on a regular basis When public television addresses viewers like you just who are you Despite the current of frustration with commercial television that runs through American life most TV viewers bypass the redemptive oasis of the wasteland represented by PBS and turn to the sitcoms soap operas music videos game shows weekly dramas and popular news programs produced by the culture industries *Viewers Like You* traces the history of public broadcasting in the United States questions its priorities and argues that public TV s tendency to reject popular culture has undermined its capacity to serve the people it claims to represent Drawing from archival research and cultural theory the book shows that public television s perception of what the public needs is constrained by unquestioned cultural assumptions rooted in the politics of class gender and race *The Forsaken Garden* Nancy Ryley, 1998 When documentary filmmaker Nancy Ryley first became ill few people had heard of environmental illness Her symptoms fatigue depression hypersensitivity to foods and chemicals puzzled doctors and resisted treatment Unable to work Nancy with her husband moved from Toronto to rural west Canada where a lifestyle free of urban pollutants helped her slowly to rebuild her health Nancy s struggle is also the spiritual struggle of the planet To explore the connections between the state of our bodies and souls and the condition of the earth she interviewed four leading thinkers each with a unique perspective on spiritual health Laurens van der Post African explorer and journalist Marion Woodman psychologist and best selling author Ross Woodman expert on Blake and the Romantic poets Thomas Berry theologian and cultural historian These thought provoking conversations woven with Nancy s own search for answers shine beacons of hope for personal and planetary healing *The Revolution Wasn't Televised* Lynn Spigel, Michael Curtin, 2013-08-21 Caricatures

of sixties television called a vast wasteland by the FCC president in the early sixties continue to dominate our perceptions of the era and cloud popular understanding of the relationship between pop culture and larger social forces Opposed to these conceptions *The Revolution Wasn't Televised* explores the ways in which prime time television was centrally involved in the social conflicts of the 1960s It was then that television became a ubiquitous element in American homes The contributors in this volume argue that due to TV's constant presence in everyday life it became the object of intense debates over childraising education racism gender technology politics violence and Vietnam These essays explore the minutia of TV in relation to the macro structure of sixties politics and society attempting to understand the struggles that took place over representation the nation's most popular communications media during the 1960s

Brown,2002-09-25 The first scholarly treatment of the strategies employed by the New Christian Right in litigating cases regarding religion Trumping Religion provides a detailed analysis of the five major public interest law firms that have litigated religion cases in the federal courts between 1980 and 2000 Allied with several highly vocal evangelical ministries such as those of Jerry Falwell and Pat Robinson these legal organizations argue that religious expression is a form of protected speech and thereby gain a greater latitude of interpretation in the courts The long term agenda of the New Christian Right as illuminated by this study is to shape church state jurisprudence in a way that permits free course for the Christian gospel Steven P Brown presents his research and conclusions from a balanced viewpoint In filling a distinct void in the literature this book will be of considerable interest to political scientists legal scholars law schools and seminaries and anyone concerned with the intersection of religion and judicial politics

Heartland TV Victoria E. Johnson,2008-01-01 Winner of the 2009 Society for Cinema and Media Studies Katherine Singer

Kovacs Book Award The Midwest of popular imagination is a Heartland characterized by traditional cultural values and mass market dispositions Whether cast positively as authentic pastoral populist hardworking and all American or negatively as backward narrow minded unsophisticated conservative and out of touch the myth of the Heartland endures Heartland TV examines the centrality of this myth to television s promotion and development programming and marketing appeals and public debates over the medium s and its audience s cultural worth Victoria E Johnson investigates how the square image of the heartland has been ritually recuperated on prime time television from The Lawrence Welk Show in the 1950s to documentary specials in the 1960s to The Mary Tyler Moore Show in the 1970s to Ellen in the 1990s She also examines news specials on the Oklahoma City bombing to reveal how that city has been inscribed as the epitome of a timeless pastoral heartland and concludes with an analysis of network branding practices and appeals to an imagined red state audience Johnson argues that non white queer and urban culture is consistently erased from depictions of the Midwest in order to reinforce its reassuring image as white and straight Through analyses of policy industry discourse and case studies of specific shows Heartland TV exposes the cultural function of the Midwest as a site of national transference and disavowal with regard to race sexuality and citizenship ideals

Blockbuster TV Janet Staiger, 2000-10-01 Archie Bunker Jed Laverne and Shirley Cliff Huxtable Throughout the entire history of American prime time television only four sitcoms have been true blockbusters with Nielsen ratings far above the second and third rated programs Weekly millions of Americans of every age were making a special effort to turn on the set to see what Archie Jed Laverne and Cliff were doing that week The wild popularity of these shows All in the Family The Beverly Hillbillies Laverne Shirley and its partner Happy Days and The Cosby Show left commentators bewildered by the tastes and preferences of the American public How do we account for the huge appeal of these sitcoms and how does it figure into the history of network prime time television Janet Staiger answers these questions by detailing the myriad factors that go into the construction of mass audiences Treating the four shows as case studies she deftly balances factual explanations for instance the impact of VCRs and cable on network domination of TV with more interpretative ones for example the transformation of The Beverly Hillbillies from a popular show detested by the critics to a blockbuster after its elevation as the critics darling and juxtaposes industry based reasons for example the ways in which TV shows derive success from placement in the weekly programming schedule with stylistic explanations how for instance certain shows create pleasure from a repetition and variation of a formula Staiger concludes that because of changes in the industry these shows were a phenomenon that may never be repeated And while the western or the night time soap has at times captured public attention Blockbuster TV maintains that the sitcom has been THE genre to attract people to the tube and that without understanding the sitcom we can t properly understand the role of television in our culture
