Conradian Contracts Tamas Juhasz, 2011-04-28 This book treats Joseph Conrad's simultaneous interests in exchange contracts and the condition of displacement The central hypothesis is that the novelist's characters face the option of signing or rejecting what might with some generalization be called a social covenant These individuals conduct a lonely or marginal existence and to ease their isolation they would like to re-enter a community For this reason they are ready to contribute to larger collective causes and comply with those restrictions that social life in its contractual aspect requires As Julia Kristeva puts it The foreigner is the one who works yet engagement in transactions in order to earn a social position is fraught with difficulties In return for their contribution these hard working characters do not always receive the compensation that they had in mind especially when their definition of companionship violates the boundaries of legality and social propriety Their private illicit interests are bound to clash with communal ones and the ensuing negotiating readjustment or compromise seeking either crush the individual party or result in a redefinition of the notion of contract This link between exchange and displacement is explored in nine narratives Just as the concept of exile is used in a broad often metaphorical sense ranging from characters who are actual migrants through individuals who occupy a marginal position within their native community to individuals who are caught between conflicting cultural economic models the trade or contractual alliance that can create or at least promise a sense of communal belonging and personal recognition is also manifold in its definition Although it always includes if to varying degrees the transference of economic goods or entering a specific agreement exchange is never limited to legal material procedures

Deleuze and the Genesis of Representation Joe Hughes, 2011-10-20 Deleuze and the Genesis of Representation is a systematic study of three of Deleuze's central works Difference and Repetition The Logic of Sense and with Guattari Anti Oedipus Hughes shows how each of these three works develops the Husserlian problem of genetic constitution After an innovative reading of Husserl's late work Hughes turns to a detailed study of the conceptual structures of Deleuze's three books He demonstrates that each book is surprisingly similar in its structure and that all three function as nearly identical accounts of the genesis of representation In a highly original and crucial contribution to Deleuze Studies this book offers a provocative perspective on many of the questions Deleuze's work has raised What is the status of representation Of subjectivity What is a body without organs How is the virtual produced and what exactly is its function within Deleuze's thought as a whole By contextualizing Deleuze's thought within the radicalization of phenomenology Hughes is able to suggest solutions to these questions that will be as compelling as they are controversial

Capital, Class & Technology in Contemporary American Culture Nick Heffernan, 2000-12-20 In the tradition of Mike Davis and Fredric Jameson Nick Heffernan engages in a series of meditations on capital class and technology in contemporary America He turns to the stories we generate and tell

ourselves via fiction film journalism theory to see how change is registered By investigating a variety of texts he observes how structural change affects the way people organise their lives economically socially and culturally Case studies include Ridley Scott s Blade Runner William Gibson s cyberspace trilogy Thomas Pynchon s The Crying of Lot 49 and Wim Wenders s Until the End of the World Using the links between narrative cultural forms and the process of historical understanding he brings together debates that have so far been conducted largely within the separate domains of political economy social theory and cultural criticism to provide a compelling analysis of contemporary cultural change By relocating postmodernism in the context of changing modes of capitalism Heffernan puts the question of class and class agency back at the centre of the critical agenda

The Fiction of Gore Vidal and E.L. Doctorow Stephen Harris,2002 This book offers a close study of the relationship between the individual and history between a particularly American idea of self and how this is experienced in relation to the broader flow of events and time that shape human experience While the discussion concentrates on Gore Vidal s historical novels Burr and 1876 and E L Doctorow s The Book of Daniel and Ragtime these readings provide a full consideration of each author s views on history and historical fiction the importance of individualism and corresponding conceptions of history within American culture and the role of the historical novel in American literature

Gore Vidal's Historical Novels and the Shaping of American Political Consciousness Stephen Harris,2005 As a writer of sophisticated historical fiction satirical fantasies and incisive essays on the political and cultural condition of America Gore Vidal s reputation is well established This study explores Gore Vidal s use of classical scepticism in his historical novels and in his politics While a great deal has been written about Vidal there has not yet been published a serious analysis of his philosophical approach to the reading and interpretation of history and how this in turn informs the writing of his historical fiction What this study offers is a full understanding of how Vidal s sceptical and dissenting views reflect the mind of a politically committed and serious thinker and in turn how these views directly inform the creation of a body of writing that is as intellectually challenging as it is engagingly varied in form and character

Capitalism and Schizophrenia in the Later Novels of Louis-Ferdinand

Céline Greg Hainge, 2001 Re-examining the works of France's most controversial of literary figures this book contends that Louis Ferdinand Céline's pronouncements on the importance of style must be taken seriously if an understanding of those works is to be reached *Capitalism and Schizophrenia in the Later Novels of Louis Ferdinand Céline* provides a major reconsideration of the greater part of the oeuvre of this too often neglected author Leaving behind the symbolic capital that the name Céline accrued during the Second World War this study looks at the works written around and after this period in order to understand the importance of their revolutionary aesthetic not only for their genesis but also for their very content The approach taken is unashamedly theoretical which allows this study to provide insights not only into the works of Céline but also into those of the French thinkers Deleuze and Guattari whose thought it is argued here can only be apprehended through application **Forthcoming Books** Rose Arny, 1995 *American Book Publishing Record*, 1995 *The British National Bibliography* Arthur James Wells, 1994
