Rediscovered Masterpieces of Mesoamerica Emile Deletaille, Jean-Louis Sonnerly, 1985 Sculpture and Social Dynamics in Preclassic Mesoamerica Julia Guernsey, 2012-07-23 This book examines the functions of sculpture during the Preclassic period in Mesoamerica and its significance in statements of social identity Julia Guernsey situates the origins and evolution of monumental stone sculpture within a broader social and political context and demonstrates the role that such sculpture played in creating and institutionalizing social hierarchies This book focuses specifically on an enigmatic type of public monumental sculpture known as the potbelly that traces its antecedents to earlier small domestic ritual objects and ceramic figurines The cessation of domestic rituals involving ceramic figurines along the Pacific slope coincided not only with the creation of the first monumental potbelly sculptures but with the rise of the first state level societies in Mesoamerica by the advent of the Late Preclassic period The potbellies became central to the physical representation of new forms of social identity and expressions of political authority during this time of dramatic change **Images from the Underworld** Andrea J. Garrison, Stephen Houston, 2019-01-15 Presenting the results of six years of archaeological survey and excavation in and around the Maya kingdom of El Zotz An Inconstant Landscape paints a complex picture of a dynamic landscape over the course of almost 2 000 years of occupation El Zotz was a dynastic seat of the Classic period in Guatemala Located between the renowned sites of Tikal and El Per Waka it existed as a small kingdom with powerful neighbors and serves today as a test case of political debility and strength during the height of dynastic struggles among the

Classic Maya In this volume contributors address the challenges faced by smaller polities on the peripheries of powerful kingdoms and ask how subordination was experienced and independent policy asserted Leading experts provide cutting edge analysis in varied topics and detailed discussion of the development of this major site and the region more broadly The first half of the volume contains a historical narrative of the cultural sequence of El Zotz tracing the changes in occupation and landscape use across time the second half provides deep technical analyses of material evidence including soils ceramics stone tools and bone The ever changing inconstant landscapes of peripheral kingdoms like El Zotz reveal much about their more dominant and better known neighbors An Inconstant Landscape offers a comprehensive multidisciplinary view of this important but under studied site an essential context for the study of the Classic Maya in Guatemala and a premier reference on the subject of peripheral kingdoms at the height of Maya civilization Contributors Timothy Beach Nicholas Carter Ewa Czapiewska Halliday Alyce de Carteret William Delgado Colin Doyle James Doyle Laura Gomez Jose Luis Garrido Lopez Yeny Myshell Gutierrez Castillo Zachary Hruby Melanie Kingsley Sheryl Luzzadder Beach Cassandra Mesick Braun Sarah Newman Rony Piedrasanta Edwin Román and Andrew K Scherer The Myths of the Popol Vuh in Cosmology, Art, and Ritual Holley Moyes, Allen J. Taube, Dumbarton Oaks, 2004 Olmec Art at Dumbarton Oaks presents the Olmec portion of the Robert Woods Bliss Collection of Pre Columbian Art It illustrates all thirty nine Olmec art objects in color plates and includes many complementary and comparative black and white illustrations and drawings The body of Pre Columbian art that Robert Bliss carefully assembled over a half century between 1912 and 1963 amplified only slightly since his death is a remarkably significant collection In addition to their aesthetic quality and artistic significance the objects hold much information regarding the social worlds and religious and symbolic views of the people who made and used them before the arrival of Europeans in the New World This volume is the second in a series of catalogues that will treat objects in the Bliss Pre Columbian Collection The majority of the Olmec objects in the collection are made of jade the most precious material for the peoples of ancient Mesoamerica from early times through the sixteenth century Various items such as masks statuettes jewelry and replicas of weapons and tools were used for ceremonial purposes and served as offerings Karl Taube brings his expertise on the lifeways and beliefs of ancient Mesoamerican peoples to his study of the Olmec objects in the Bliss collection His understanding of jade covers a broad range of knowledge from chemical compositions to geological sources to craft technology to the symbolic power of the green stone Throughout the book the author emphasizes the role of jade as a powerful symbol of water fertility and particularly of the maize plant which was the fundamental source of life and sustenance for the Olmec The shiny green of the stone was analogous to the green growth of maize This fundamental concept was elaborated in specific religious beliefs many of which were continued and elaborated by later Mesoamerican peoples such as the Maya Karl Taube employs his substantial knowledge of Pre Columbian cultures to explore and explicate Olmec symbolism in this catalogue *Art, Ideology, and the City of Teotihuacan* Janet Catherine Berlo, 1992 **Res** Hung Wu, Jás Elsner, 2013-02-04 Res 61 62 includes Chinese coffins from the first millennium b c and early images of the afterworld by Alain Thote Art and personhood by Björn Ewald Western Han sarcophagi and the transformation of Chinese funerary art by Zheng Yan Reading identity on Roman strigillated sarcophagi by Janet Huskinson and other papers **The Face of Ancient**

Maya Narrative Arts Karen Bassie-Sweet, Nicholas A. Hopkins, 2019-01-15 In **Maya Narrative Arts** authors Karen Bassie Sweet and Nicholas A Hopkins present a comprehensive and innovative analysis of the principles of Classic Maya narrative arts and apply those principles to some of the major monuments of the site of Palenque They demonstrate a recent methodological shift in the examination of art and inscriptions away from minute technical issues and toward the poetics and narratives of texts and the relationship between texts and images Bassie Sweet and Hopkins show that both visual and verbal media present carefully planned narratives and that the two are intimately related in the composition of Classic Maya monuments Text and image interaction is discussed through examples of stelae wall panels lintels benches and miscellaneous artifacts including ceramic vessels and codices Bassie Sweet and Hopkins consider the principles of contrast and complementarity that underlie narrative structures and place this study in the context of earlier work proposing a new paradigm for Maya epigraphy They also address the narrative organization of texts and images as manifested in selected hieroglyphic inscriptions and the accompanying illustrations stressing the interplay between the two Arguing for a more holistic approach to Classic Maya art and literature **Maya Narrative Arts** reveals how close observation and reading can be equally if not more productive than theoretical discussions which too often stray from the very data that they attempt to elucidate The book will be significant for Mesoamerican art historians epigraphers linguists and archaeologists
