Redrawing Local Government Boundaries An International Study Of Politics Procedures And Decisions:

Redrawing Local Government Boundaries John Meligrana, 2004 Local governments today are under extreme pressure to undertake boundary reform. The global trend toward urbanization has brought with it economic, environmental, social, and regional demands that have severe implications for local governments and their territories. As a result, changing the areal jurisdiction of this most basic level of government has become a persistent and pressing challenge around the globe. This collection examines the legal and regulatory procedures involved in such municipal restructuring. Case studies from eight nations: the United States, Canada, Spain, Germany, Israel, Korea, China, and South Africa, investigate how and why local governments have been enlarged in scope and reduced in number within each country. Four key aspects are examined: the geography of the local government boundary problem, the procedures associated with boundary reform, the roles of institutions and actors in boundary reform, and the implications for urban and regional governance. **Redrawing Local Government Boundaries** offers a broad theoretical understanding of local government boundary reform and informs the wider scholarly discussion about institutional change, state structures, and the areal jurisdiction of local governments. The first international comparative study of local boundary reform, it will be a valuable reference for scholars and students of political science, public administration, geography, urban studies, and urban planning. Local Government Reform Brian

Dollery, Joseph Garcea, Edward C. LeSage, 2008-01-01 Written by an impressive array of experts, this book surveys local government reforms in six advanced democracies: federal and unitary, which share a municipal legacy: Australia, Canada, Ireland, New Zealand, the UK, and the US. The book has an excellent bibliography and will help open up a field heretofore noted for its insularity. Recommended. A J Ward Choice **Constitutional Law, Democracy and Development** Douglas

Karekona Singiza, 2019-02-21 Uganda, like many African countries in the 1990s, adopted decentralisation as a state reform measure after many years of civil strife and political conflicts by transferring powers and functions to district councils. The decision to transfer powers and functions to district councils was in the main linked to the quest for democracy and development within the broader context of the nation state. This book's broader aim is to examine whether the legal and policy framework of decentralisation produces a system of governance that better serves the greater objectives of local democracy, local development, and accommodation of ethnicity. Specifically, the book pursues one main aim: to examine whether indeed the existing legal framework ensures the smooth devolution process that is needed for decentralised governance to succeed. In so doing, the book seeks overall to offer lessons that are critically important not only for Uganda but any other developing nation that has adopted decentralisation as a state restructuring strategy. The book uses a desk-top research method by reviewing Uganda's decentralisation legal and policy frameworks. **Comparative Studies and Regionally-Focused Cases Examining Local Governments** Sadioglu, Ugur, Dede, Kadir, 2016-06-20 In the era of globalization, comparative government and politics have come to the forefront due to the transformations of the social welfare
