Whitefish Can't Jump E. Donnall Thomas, Jr.,1994 In his Preface to Whitefish

Can't Jump Don Thomas writes A space alien arriving on the Big Hole during the middle of the salmon fly hatch might conclude that the same sport an earlier writer had trouble distinguishing from religion is really about entomology fashionable outdoor wear and power all of which is wrong Above all else fly fishing is about fish and the places they are found Here then are nineteen fly fishing stories refreshingly devoid of Latin pink shirts and angling glitterati stories where the fish and the places they are found unabashedly occupy center stage On the flats of Christmas Island the fusion of Fin Nor and bonefish becomes only the second lifetime experience to live up to its advance billing On a river in southwestern Alaska boating a huge rainbow where no huge rainbow should be becomes more important than avoiding a midstream collision with a nine foot grizzly A Montreal gas station attendant's tip leads to a far northern pond and a harrowing encounter with The Ultimate Northern Pike The quixotic quest for a permit on a fly in Belize is marred only slightly by a dissolving marriage and a Blue Crab Special impaled in a philosophical guide's ear In Siberia Dolly Varden vodka and the novelty of Catch and Release combine to thaw the cold war And in the Yellowstone River a new season begins with Rocky Mountain Whitefish and the reminder of just how arbitrary the distinction between gamefish and just plain fish can be And why it ultimately doesn't matter From each story we learn a little about fishing a lot about fish and a thing or two about life or at least the kind of life where time spent on the water with fly rod in hand is infinitely more important than time spent anywhere else

Senior's High Dave Goossen, 2017-10-10 A new start a new life So why is it just like high school all over again A novel about growing old growing up and trying to find your way no matter how old you are Having moved with his daughter and grandson from his farm in Montana to a senior's home in small town North Carolina Paul Carter finds himself mighty surprised when after a long and independent life he's suddenly being told by the officious owner of Shady Acres what he can and can't do Not to mention the gossiping Queen Bee's and the past their prime jocks complicating his life as the new kid Even worse his grandson Devon is dealing with the same issues across town at his new high school For Paul too many rules mean it's time for stealthy rebellion and youthful high jinks But when past tragedies come back to complicate the present in ways no one would have imagined lives are thrown into turmoil Shady Acres owner clamps down on everyone's freedoms forcing Paul to take a hard look at his life realize what it means to be alive and fight for all their rights before it's too late Full of heart and soul teenaged and octogenarian rebellion practical jokes and secret fishing trips Senior's High asks us Who Said Growing Old Meant Growing Up

became a starting point for restoring America's most damaged environments largely through the efforts of local communities. With curiosity, conviction, and a strong sense of place, the small town of Milltown helped restore an iconic western river valley and, in doing so, shaped the history of Superfund and modern environmentalism.
