Reevaluating the Third Reich Thomas Childers, Jane Caplan, 1993 Despite the passage of time and the accumulation of information about the Nazi era many crucial aspects still maintain their historical significance and moral urgency This volume also provides a critical yet controversial analyses of Nazi racism the place of ideology in decision making and the structure and function of the Nazi state **A History of Modern Germany Since 1815** Frank B. Tipton, 2003 Tipton's book will prove a godsend to teachers and students of Modern German History not only does it provide a fresh and compelling account of the whole period from 1815 right up to the present it achieves a rare synthesis of social political economic and cultural history You get the equivalent of about six good books for the price of one John Milfull University of New South Wales A comprehensive balanced up to date and fair synthesis that will be extremely valuable to undergraduate students The writing is superior and the approach is sound This study will challenge student readers to make the sorts of connections that are demanded of them in too few of the competing texts James Retallack University of Toronto **Fascism's Return** Richard Joseph Golsan, 1998-01-01 The past fifteen years have witnessed the renewed presence of fascism in European political and cultural life In addition there have been scandals surrounding the fascist pasts of numerous renowned intellectuals including Martin Heidegger Paul de Man and Maurice Blanchot In *Fascism's Return* eleven leading American and European scholars examine the resurgence of fascism from many angles providing an essential and timely view of this troubling moment in European political cultural and intellectual history Intellectual and public scandals surrounding the fascist past including the highly publicized Barbie and Touvier trials in France are addressed Other writers focus on controversial efforts to revise the historical representation of fascism in Germany and France The reemergence of the new fascist movements and ideologies in various European nations is also examined A final essay considers the controversial U S support during the 1980s of Central American dictatorships As editor Richard J Golsan notes the essays in this volume illustrate a multitude of ways in which fascism continues to make its presence felt in western democratic societies erupting with disturbing frequency as a return of the repressed in judicial and artistic scandals as well as in historical critical and political debates *Institutions in the Transport and Communications Industries* Lena Andersson-Skog, Olle Krantz, 1999 **Nazi Germany** Jane Caplan, 2008-04-24 An authoritative and up to date history of Nazi Germany with each chapter written by an internationally acknowledged expert in the field covering everything from the ideological origins of Nazism through the history of politics and society in the Third Reich to the aftermath of National Socialism in postwar German history and memory *The Impact of U.S. Foreign Policy on the Reconstruction of the West German Electrical Manufacturing and Ship Construction Industries, 1945-1955* Henry Burke Wend, 1995 **The Business of Genocide** Michael Thad Allen, 2005-02-01 Examines the Business Administration Main Office of the SS which built up the slave labor system in Nazi concentration camps **Papers of the 10th Biennial Conference of the Japanese Studies Association of Australia: Identity politics and critiques in**

contemporary Japan Japanese Studies Association of Australia. Conference, 2000 Reevaluating the Third Reich Thomas Childers, 1993-01-01 **Faith and Fatherland** Kyle Jantzen, 2008 An informative glimpse into the world of German Protestants in the difficult Hitler era Faith and Fatherland approaches the history of the Church Struggle from the bottom up using sources like pastors correspondence parish newsletters local newspaper accounts district superintendents reports and local church statistics While Jantzen confirms the general understanding that German Protestants failed to resist or even critique the Nazi regime he reveals a surprising diversity of opinion and variety of action including the successful efforts of some Lutheran pastors and parishioners to resist the nazification of their churches Historical Abstracts , 1995 **A Brief History of The Third Reich** Martyn Whittock, 2011-06-23 The abuse of power genocide the destruction of total war unimaginable cruelty and the suffering of millions were all central features of Hitler's Nazi regime Yet the Nazis were also highly successful in manipulating images and information they mobilized and engaged vast numbers of people caught the imagination of the young and appeared remarkably modern to many contemporary observers Was the Third Reich a throwback to a mythical past or a brutally modern and technologically advanced state Was Hitler a strong dictator who achieved his clear goals or was his chaotic style of government symptomatic of a weak dictator unable to control the complex and contradictory forces that he had unleashed Was the Third Reich ruled by terror or largely supported by a compliant German population Was the genocide against the Jews a peculiarly German phenomenon or a uniquely German expression of a terrible wider trend Whittock explores these and other key questions interrogating the views of different historians and drawing on a wealth of primary sources from state sponsored art to diaries letters and memoirs of both perpetrators and victims to provide an overview of the complex evidence History should aim to put us firmly in touch with the lives of people living in the past and the issues they faced Whittock never loses sight of the individuals whose lives were caught up in these extraordinary events while also giving a lucid overview of the bigger picture **A Low, Dishonest Decade** Paul N. Hehn, 2005-09-26 Focusing on the rivalries among the Great Powers in the search for markets during the world depression of the 1930s the author surveys the five Major Powers and all the Eastern European countries from the Baltic to Turkey But he primarily canvases the economic situations in locations like Czechoslovakia Hungary Poland Romania and Yugoslavia

Hometown Hamburg Frank Domurad, 2019-03-22 Through the study of Hamburg handicraft in the late Weimar Republic Hometown Hamburg addresses three intertwined problems in modern German history the role of institutionalized social political and cultural continuity versus contingency in the course of modern German development the impact of conflicting notions of social order on the survival of liberal democracy and the role of corporate politics in the rise of National Socialism It provides a theoretical and analytical framework for reintroducing the notion of historical continuity in the study of modern German history The book also supports the recent challenges to the notion of Hamburg as a liberal economic and political bastion a London on the Elbe in a nation of conservative and authoritarian governmental regimes Hometown Hamburg

demonstrates why liberal and socialist Hamburg also remained a hotbed of corporate radicalism and underscores the fact that National Socialism was the only political party that presented a coherent vision of a corporate good society thereby making it attractive to hometown voters across the entire social spectrum in Hamburg and in Germany *Encyclopedia of Historians and Historical Writing* Kelly Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like J rgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies *The Holocaust and History* United States Holocaust Memorial Museum,2002-07-02 The Holocaust and History examines the various disputes surrounding the Holocaust examining why it should have come about how different sets of people reacted to it and what lessons should be learned for the future **The American West and the Nazi East** C. Kakel,2011-07-12 By employing new optics and a comparative approach this book helps us recognize the unexpected and unsettling connections between America s western empire and Nazi Germany s eastern empire linking histories previously thought of as totally unrelated and leading readers towards a deep revisioning of the American West and the Nazi East *France and the Nazi Menace* Peter Jackson,2000-10-26 France and the Nazi Menace examines the French response to the challenge posed by National Socialist Germany in the years 1933 1939 It focuses on the relationship between the intelligence on German intentions and capabilities and the evolution of French national policy from the rise of Hitler in 1933 to the outbreak of the Second World War in 1939 Based on extensive archival research it considers the nature of the intelligence process and the place of intelligence within the French policy making establishment during the inter war period The central argument in the book is that the German threat was far from the only challenge facing French national leaders in an era of economic depression and profound ideological discord Only after the national humiliation at the Munich Conference did the threat from Nazi Germany take precedence over France s internal problems in the making of policy *Vanguardism* Phillip W. Gray,2019-12-06 Providing an innovative conceptualization to extremist political movements founded upon world historic populations and vanguard party organizations Vanguardism sets out a new path in investigating the intellectual and historical influences that created extremist politics the totalitarian movements and regimes of the twentieth century and a framework for interpreting extremism in the present Expanding its view across the turbulent intellectual currents of the nineteenth century Philip W Gray illustrates how these ideas shaped the shared ideational and organizational structures that would develop into Leninism Fascism and Nazism in the early twentieth

century Moving beyond the Second World War the book explicates how vanguardism did not vanish with the war's conclusion but was modified throughout the period of national liberation movements and Western extremist groups over the ensuing decades Concluding in the present with an eye to the future Gray presents a framework for comprehending the extremist movement of today and how organizational shifts can give us clues to the forms of totalitarian politics of tomorrow Original and provocative Vanguardism will become essential reading for everyone looking to understand totalitarianism and extremist politics of our time

Nazi Germany Tim Kirk, 2006-10-04 Hitler's thousand year Reich lasted barely longer than twelve brief and inglorious years and yet had an impact on millions of ordinary lives scarcely comparable with any other episode in modern European history *Nazi Germany* examines the origins and development of Nazism the establishment of the dictatorship and the impact on Germany's economy society and culture of the regime's single minded drive towards war and genocide The view from above reflected in the movement's ideology policy and legislation is complemented by the many often conflicting views from below as described in the reports smuggled out of Germany by Socialist dissidents or overheard by the regime's spies and policemen Tim Kirk depicts a society divided where most were initially wary of Hitler and sceptical about his party and its promises and where even enthusiastic admirers quickly became disgruntled but where the majority complied and few were inclined to oppose or resist the regime or its brutalities until disillusionment set in and the prospect of defeat was imminent Approachable and authoritative this is an essential introduction to one of the most significant periods in German and modern European history
