Refiguring The Post Classical City Dura Europos Jerash Jerusalem And Ravenna:

Refiguring the Post Classical City Annabel Jane Wharton, 1995 A study of the Christianisation of the city between the third and the sixth centuries *Dura-Europos* Jennifer Baird, 2018-06-14 Dura Europos is one of Syria's most important archaeological sites. Situated on the edge of the Euphrates river, it was the subject of extensive excavations in the 1920s and 30s by teams from Yale University and the Académie des Inscriptions et Belles Lettres. Controlled variously by Seleucid, Parthian and Roman powers, the site was one of impressive religious and linguistic diversity; it was home to at least nineteen sanctuaries, amongst them a Synagogue and a Christian building, and many languages including Greek, Latin, Persian, Palmyrene and Hebrew, which were excavated on inscriptions, parchments and graffiti. Based on the author's work excavating at the site with the Mission Franco-Syrienne de Dura-Europos and extensive archival research, this book provides an overview of the site and its history and traces the story of its investigation from archaeological discovery to contemporary destruction.

Byzantine Art Robin Cormack, 2018-02-27 The opulence of Byzantine art, with its extravagant use of gold and silver, is well known. Highly skilled artists created powerful representations reflecting and promoting this society and its values in icons, illuminated manuscripts and mosaics and wallpaintings placed in domed churches and public buildings. This complete introduction to the whole period and range of Byzantine art combines immense breadth with interesting historical detail. Robin Cormack overturns the myth that Byzantine art remained constant from the inauguration of Constantinople, its artistic centre, in the year 330 until the fall of the city to the Ottomans in 1453. He shows how the many political and religious upheavals of this period produced a wide range of styles and developments in art. This updated colour edition includes new discoveries, a revised bibliography and, in a new epilogue, a rethinking of Byzantine Art for the present day. **The Grove**

Studies Susan Ashbrook Harvey, David G. Hunter, 2008-09-04 Provides an introduction to the academic study of early Christianity c. 100-600 AD and examines the vast geographical area impacted by the early church in Western and Eastern late antiquity. From publisher description *The City in Roman and Byzantine Egypt* Richard Alston, 2002-09-11 For those wishing to study the Roman city in Egypt, the archaeological record is poorer than that of many other provinces. Yet the large number of surviving texts allows us to reconstruct the social lives of Egyptians to an extent undreamt of elsewhere. We are not therefore limited to a history of the public faces of cities, their inscriptions and the writings of their elites, but can begin to understand what the transformations of the city meant for ordinary people and to uncover the forces that shaped the

everyday lives of city dwellers After Egypt became part of the Roman Empire in 30 BC Classical and then Christian influences both made their mark on the urban environment This book examines the impact of these new cultures at every level of Egyptian society The result is a new and fascinating insight into the creation of a specific urban society in the Roman Empire as well as a case study for the model of urban development in antiquity **Ancient Cities** Charles Gates,2011-03-21

spatial design and decorative programs In most instances the synthesis of documentary and material evidence is enriching and complementary However even when physical and textual data diverge their discontinuity demonstrates the variability of ritual performance and the perennial distinction between ideal and actual practice Christ the Miracle Worker in Early Christian Art Lee M. Jefferson, 2014 Images and artistic representations were of significant value to the early Christian communities In Christ the Miracle Worker in Early Christian Art Lee Jefferson argues in fact that images provided visual representations of vital religious and theological truths crucial to the faithful by which art possessed the power to project concepts and claims beyond the limitations of the written and spoken word Images of Christ performing miracles or healings as demonstrated in this volume functioned as advertisements for Christianity and illustrated explications of the nature of Christ These images of Christ as worker of miracles and healing form the nucleus of an extensive examination of this power of art its role in fostering devotion and the deep connection between art and its underwriting and elucidation of pivotal theological claims and developments back cover **Ostia in Late Antiquity** Douglas Boin, 2013-07-22 Ostia in Late Antiquity narrates the life of Ostia Antica Rome's ancient harbor during the later empire A Companion to the Hellenistic and Roman Near East Ted Kaizer, 2021-12-17 Discover a comprehensive and cross disciplinary handbook exploring several sub regions and key themes perfect for a new generation of students A Companion to the Hellenistic and Roman Near East delivers the first complete handbook in the area of Hellenistic and Roman Near Eastern history The book is divided into sections dealing with interdisciplinary source material each with a great deal of regional variety and engaging with several key themes It integrates discussions of the classical Near East with the typical undergraduate teaching syllabus in the Anglo Saxon world All contributors in this edited volume are leading scholars in their field with a combination of established researchers and academics and emerging voices Contributors hail from countries across several continents and work in various disciplines including Ancient History Archaeology Art History Epigraphy Numismatics and Oriental Studies In addition to furthering the integration of the Levantine lands in the classical periods into the teaching canon the book offers readers The first comprehensively structured Companion and edited handbook on the Hellenistic and Roman Near East Extensive regional and sub regional variety in the cross disciplinary source material A way to compensate for the recent destruction of monuments in the region and the new generation of researchers inability to examine these historical stages in person An integration of the study of the Hellenistic and Roman Near East with traditional undergraduate teaching syllabi in the Anglo Saxon world Perfect for undergraduate history and classics students studying the Near East A Companion to the Hellenistic and Roman Near East will also earn a place in the libraries of graduate students and scholars working within Near Eastern studies as well as interested members of the public with a passion for history **Imperialism and Jewish Society** Seth Schwartz, 2009-02-09 This provocative new history of Palestinian Jewish society in antiquity marks the first comprehensive effort to gauge the effects of imperial domination on this people Probing more than eight centuries of Persian

Greek and Roman rule Seth Schwartz reaches some startling conclusions foremost among them that the Christianization of the Roman Empire generated the most fundamental features of medieval and modern Jewish life Schwartz begins by arguing that the distinctiveness of Judaism in the Persian Hellenistic and early Roman periods was the product of generally prevailing imperial tolerance From around 70 C E to the mid fourth century with failed revolts and the alluring cultural norms of the High Roman Empire Judaism all but disintegrated However late in the Roman Empire the Christianized state played a decisive role in re Judaizing the Jews The state gradually excluded them from society while supporting their leaders and recognizing their local communities It was thus in Late Antiquity that the synagogue centered community became prevalent among the Jews that there re emerged a distinctively Jewish art and literature laying the foundations for Judaism as we know it today Through masterful scholarship set in rich detail this book challenges traditional views rooted in romantic notions about Jewish fortitude Integrating material relics and literature while setting the Jews in their eastern Mediterranean context it addresses the complex and varied consequences of imperialism on this vast period of Jewish history more ambitiously than ever before Imperialism in Jewish Society will be widely read and much debated

Conversion in Late Antiquity: Christianity, Islam, and Beyond Arietta Papaconstantinou, Daniel L. Schwartz, 2016-03-03 The papers in this volume were presented at a Mellon Sawyer Seminar held at the University of Oxford in 2009 2010 which sought to investigate side by side the two important movements of conversion that frame late antiquity to Christianity at its start and to Islam at the other end Challenging the opposition between the two stereotypes of Islamic conversion as an intrinsically violent process and Christian conversion as a fundamentally spiritual one the papers seek to isolate the behaviours and circumstances that made conversion both such a common and such a contested phenomenon The spread of Buddhism in Asia in broadly the same period serves as an external comparator that was not caught in the net of the Abrahamic religions The volume is organised around several themes reflecting the concerns of the initial project with the articulation between norm and practice the role of authorities and institutions and the social and individual fluidity on the ground Debates discussions and the expression of norms and principles about conversion conversion are not rare in societies experiencing religious change and the first section of the book examines some of the main issues brought up by surviving sources This is followed by three sections examining different aspects of how those principles were or were not put into practice how conversion was handled by the state how it was continuously redefined by individual ambivalence and cultural fluidity and how it was enshrined through different forms of institutionalization Finally a topographical coda examines the effects of religious change on the iconic holy city of Jerusalem

God and Gold in Late Antiquity Dominic Janes, 1998-02-19 From the conversion of the emperor Constantine in the early fourth century vast sums of money were spent on the building and sumptuous decoration of churches The resulting works of art contain many of the greatest monuments of late antique and early medieval society But how did such expenditure fit with Christ s message of poverty and simplicity In attempting to answer that question this 1998

study employs theories on the use of metaphor to show how physical beauty could stand for spiritual excellence As well as explaining the evolving attitudes to sanctity decorum and display in Roman and medieval society detailed analysis is made of case studies of Latin biblical exegesis and gold ground mosaics so as to counterpoint the contemporary use of gold as a Christian image in art and text **The Oxford encyclopedia of ancient Greece and Rome. - Vol. 1 - 7** Michael

Gagarin,2010 *Esther in Ancient Jewish Thought* Aaron Koller,2014-01-09 The book of Esther was a conscious reaction to much of the conventional wisdom of its day challenging beliefs regarding the Jerusalem Temple the land of Israel Jewish law and even God Aaron Koller identifies Esther as primarily a political work and shows that early reactions ranged from ignoring the book to rewriting Esther in order to correct its perceived flaws But few biblical books have been read in such different ways and the vast quantity of Esther interpretation in rabbinic literature indicates a conscious effort by the Rabbis to present Esther as a story of faith and traditionalism and bring it into the fold of the grand biblical narrative Koller situates Esther and its many interpretations within the intellectual and political contexts of Ancient Judaism and discusses its controversial themes His innovative line of enquiry will be of great interest to students and scholars of Bible and Jewish studies

Understanding Early Christian Art Robin M. Jensen,2023-08-29 Surveying the content and character of early Christian iconography from the third to the sixth century CE this substantially revised and updated new edition of Understanding Early Christian Art makes the critical tools of art historians accessible to students It opens by discussing a series of questions pertaining to the evidence itself and how scholars through the centuries have regarded this material as expressing and transmitting aspects of the developing faith and practice of early adherents of Christianity It considers possible sources for the various motifs and the complex relationship between words and images as well as the importance of studying visual and material culture alongside theological and liturgical texts Rather than organising surviving examples by medium or chronology the chapters categorise the evidence according to their general iconographic type such as generic symbols biblical narratives and portraits Each chapter takes up important questions of visual culture formal style and the ways in which the iconography is distinct from or shows parallels with contemporary documentary sources like sermons exegetical works catechetical lectures or dogmatic treatises Concluding with a discussion of the late emerging depictions of Jesus s crucifixion resurrection and ascension it remains a valuable guide to comprehending the complex theology history and context of Christian art Augmented by over 140 full colour images accompanied by parallel text the interdisciplinary and boundary breaking approach taken in this extensively revised edition of Understanding Early Christian Art enables students and scholars in fields such as religion and art history to further their understanding and knowledge of the art of the early Christian era *Place and Space in the Medieval World* Meg Boulton,Jane Hawkes,Heidi Stoner,2017-12-06 This book addresses the critical terminologies of place and space and their role within medieval studies in a considered and critical manner presenting a scholarly introduction written by the editors alongside thematic case studies that address a wide range

of visual and textual material The chapters consider the extant visual and textual sources from the medieval period alongside contemporary scholarly discussions to examine place and space in their wider critical context and are written by specialists in a range of disciplines including art history archaeology history and literature *Urban Centers and Rural Contexts in Late Antiquity* Thomas S. Burns, John W. Eadie, 2012-01-01 Recent publications on urbanism and the rural environment in Late Antiquity most of which explore a single region or narrow chronological niche have emphasized either textual or archeological evidence None has attempted the more ambitious task of bringing together the full range of such evidence within a multiregional perspective and around common themes *Urban Centers and Rural Contexts* seeks to redress this omission While ancient literature and the physical remains of cities attest to the power that urban values held over the lives of their inhabitants the rural areas in which the majority of imperial citizens lived have not been well served by the historical record Only recently have archeological excavations and integrated field surveys sufficiently enhanced our knowledge of the rural contexts to demonstrate the continuing interdependence of urban centers and rural communities in Late Antiquity These new data call into question the conventional view that this interdependence progressively declined as a result of governmental crises invasions economic dislocation and the success of Christianization The essays in this volume require us to abandon the search for a single model of urban and rural change to reevaluate the cities and towns of the Empire as centers of habitation rather than archeological museums and to reconsider the evidence of continuous and pervasive cultural change across the countryside Deploying a wide range of material as well as literary evidence the authors provide access not only into the world of elites but also to the scarcely known lives of those without a voice in the literature those men and women who worked in the shops labored in the fields and humbled themselves before their gods They bring us closer to the complexity of life in late ancient communities and in consequence closer to both urban and rural citizens
