Green also presents at many professional conferences including NAEYC's Professional Development Institute. **Neoliberal Selfhood** Stephen Vassallo, 2020-12-17. Psychological constructs such as emotion regulation, creativity, grit, growth mindset, lifelong learning, and whole child are appealing as pedagogical aspirations and outcomes. Researchers, policy makers, and educators are likely to endorse and accept these constructs as ways to make sense of students and inform pedagogical decision making. Few critically interrogate these constructs as they are associated with students' academic achievement, psychological well-being, civic virtue, and career readiness. However, this book shows how these constructs become entangled in a neoliberal vision of selfhood which is tied to market prescriptions and is thus associated with problematic ethical, psychological, moral, and economic consequences. The chapters draw attention to the ideological underpinnings in order to facilitate conversations about selfhood in schooling policy and practices. *Planning for Play, Observation, and Learning in Preschool and Kindergarten* Gaye Gronlund, 2012-11-16. Play is an important vehicle for learning in the early years. With intentional planning frameworks, this resource provides teachers with tools and strategies to organize and develop curriculum around high level, purposeful play. Practical application techniques help teachers create a cycle of planning and observation as they use a play based curriculum to help young children thrive in the classroom. Gaye Gronlund is an early childhood education consultant who trains early childhood educators across the country. She is the author of six books. *The Art of Awareness, Second Edition* Deb Curtis, Margie Carter, 2012-11-21. Learning to closely observe children requires commitment to systematic study and ongoing practice. With activities, experiences, and stories, this book provides that opportunity. Nine observation study sessions help educators of young children discover the many ways that being observant can enhance their teaching. Updates to this second edition reflect current issues in early childhood education including learning standards, assessment, and technology. Deb Curtis and Margie Carter are popular presenters at early childhood conferences, professional development speakers, and on site consultants. They have written several books together including *Learning Together with Young Children* and *Designs for Living and Learning*. **Designs for Living and Learning** Deb Curtis, Margie Carter, 2003. Give children wondrous places to learn and grow. Drawing inspiration from a variety of approaches from Waldorf to Montessori to Reggio to Greenman, Prescott and Olds, the authors outline hundreds of ways to create healthy and inviting physical, social, and emotional environments for children in child care. Full color photographs of actual early childhood programs demonstrate that the spaces children learn and grow in can be comfortable for children, teachers, and parents alike. Margie Carter serves on the adjunct faculty at Pacific Oaks College, Northwest Seattle, Washington. Deb Curtis works as a child care teacher at the Burlington Little School in Seattle. Their other books include *The Art of Awareness*, *The Visionary Director*, *Training Teachers*.
