Critical Reflections on Poetry and Painting (2 vols.) Jean-Baptiste Du Bos,2021-07-15 Jean Baptiste Du Bos Critical Reflections on Poetry and Painting first published in French in 1719 is one of the seminal works of modern aesthetics Du Bos rejected the seventeenth century view that works of art are assessed by reason Instead he believed audience members have sentiments in response to artworks Their sentiments are fainter versions of those they would feel in response to actually seeing what the work of art imitates Du Bos was influenced by John Locke s empiricism and in turn had a major impact on virtually every major eighteenth century contributor to philosophy of art including Voltaire Montesquieu Diderot Rousseau Herder Lessing Mendelssohn Kames Gerard and Hume This is the first modern annotated and scholarly edition of the Critical Reflections in any language

Reflections on Spanish American Poetry Jorge

Carrera Andrade,1973-01-01 In these five essays the Ecuadorian poet Jorge Carrera Andrade traces the evolution of Spanish American poetry from the sixteenth century to the present The author shows how Spanish American literature grew out of the special conditions produced when the New World environment totally transformed Old World culture and society Initially the brilliance of the land and its extraordinary peoples inspired European interest in exotic travel and utopianism later Old World literary currents came to have distinctive expression in Spanish American writing Poetry and Society in Spanish America follows the historic commitment of the New World poets to social issues particularly such unique ones as the endeavor to bring the Indians into national life while Trends in Spanish American Poetry dwells on the more purely aesthetic concerns that have stimulated the poets of the twentieth century Throughout Carrera Andrade ties his analysis to specific poems and poets In the last two essays the author presents a clear perspective of his poetic development from 1930 to 1960 A Decade of My Poetry and Poetry of Reality and Utopia will especially interest readers of Carrera Andrade s poetry for not only do they elucidate the personal history and philosophy informing his poems they also reveal how truly his inspiration springs from that unique Spanish American world he has so clearly delineated Poetry Reflections JB Frost,2020-09-27

155 Poems A reflection is a distorted rendition of that which casts the reflection A reflection is a mirrored image that defies the physics of its counterpart A reflection is a chance to appreciate something in a different light I have previously released books 1 2 for my From the Mind Imagination of J B Frost series but something wasn t right As I looked back on the content and the timing I realized I had to assemble a better assortment of my poetry that would better appeal to the poetry market This E Book edition of Poetry Reflections contains many of my poems from my first two books and several new ones that were originally slated to be in book 3 of my earlier mentioned series In my study of poets through the ages I ve learned that most had written things that never made it to print or put out for public inspection and or approval I had taken a more daring road in my first two poetry ventures and included just about everything I ve written over the last few years I wanted a collection that best mirrors the more positive messages I ve written I wanted a better representative of who I am as a writer and as a person I believe poetry is therapy and I believe we all can benefit from its sessions I hope you enjoy my work **Reflections**

Reflections Poetry Quotes John R. Connelly,2024-10-09 This text contains three sections first section and book one contains various situations in life that will be experienced by most people in the past present and in the future if we cannot evolve What is our most precious gift time is our most precious gift and without time there is nothing We look at change and the issues of today and how they are recycled from issues of the past can human nature ever change The fight between good over evil hope over desire and life over death The world we live in the vast universe that surrounds us and the tiny little section of this unfathomable world we reside in The second section book two contains various poems over the years that I have written The three main topics are love stories and dark situations for your enjoyment Some of the poems are from my experience and some are from the imagination The next section book three contains an array of quotes consisting of all different topics For example there are quotes about character struggle good and evil and the present past and the future The majority of quotes are from life in general and how hopefully we can move in the right direction and be aware of our surroundings and the people we come in contact with One take away from our time together is do not depend on anyone or anything the path to the future is hard work dedication and loyalty if you rely on circumstance you will have to tolerate your environment Reflections in Poetry R. Ray Sette,2021-01-06 Incidents in the mind and intent of the poet this book is based on the past present and future reflections Hoping these poems will give solace and thought to those who read them

**Coleridge and Shelley** Sally West,2016-05-23 Sally West's timely study is the first book length exploration of Coleridge's influence on Shelley's poetic development Beginning with a discussion of Shelley's views on Coleridge as a man and as a poet West argues that there is a direct correlation between Shelley's desire for political and social transformation and the way in which he appropriates the language imagery and forms of Coleridge often transforming their original meaning through subtle readjustments of context and emphasis While she situates her work in relation to recent concepts of literary influence West is focused less on the psychology of the poets than on the poetry itself She explores how elements such as the development of imagery and the choice of poetic form often learnt from earlier poets are intimately related to poetic purpose Thus on one level her book explores how the second generation Romantic poets reacted to the beliefs and ideals of the first while on another it addresses the larger question of how poets become poets by returning the work of one writer to the literary context from which it developed Her book is essential reading for specialists in the Romantic period and for scholars interested in theories of poetic influence *Lost in a Poet Storm* Alan Hines,2021-02-15 Urban Fiction As a king of one of Chicago's largest street gang daughter emerges to become a young lady she gets lost in a poet's storm becoming a poet that depicts the harsh reality of this cold world we live filled with sin she conveys it through her poetry amongst other poets with their own stories to tell which eventually leads to death and destruction
