understanding of the invisible technologies in our everyday lives from objects with intelligence to systems in our homes that talk to us and each other The book is an inventory of spooky technologies compiled by Carnegie Mellon students reviewing work across art design HCI psychology human factors research and other fields that has been done in this field or adjacent to it both historically and more recently with commentary essays and interviews with creators and artists We often hear that the technologies in our everyday lives would appear to be magic and potentially terrifying to people in the past instantaneous communication with people all over the world access to a vast ever growing resource of human knowledge right there in the palm of our hand objects with intelligence that can sense and talk to us and each other But rarely are these otherworldly dimensions of technologies explored in more detail There is an often unspoken presumption that the march of progress will inevitably mean we all adopt new practices and incorporate new products and new ways of doing things into our lives all cities will become smart cities all homes will become smart homes But these systems have become omnipresent without our necessarily understanding them They are not just black boxes but invisible entities in our homes and everyday lives which work through hidden flows of data unknown agendas imaginary clouds mysterious sets of rules which we perhaps dismiss as algorithms or even AI without really understanding what that means On some level the superstitions and sense of wonder and ways of relating to the unknown and the supernatural deities spirits ghosts which humanity has felt in every culture throughout history have not gone away but started to become transferred and transmuted into new forms Sayings of the Buddha William Wray,2005-04-13 The Buddha taught a down to Earth wisdom that is still deeply relevant today This carefully chosen selection of the Buddha s thoughts and teachings compiled by William Wray presents one quotation for each day of the year Each and every quotation brings fresh insights helping to free us from the deep conditioning of our minds and pointing us towards making revolutionary changes in our lives on a personal social and spiritual level The book also contains a stimulating introduction to the Buddha as well as a short biography and accessible analysis of the discourses Many of the sayings included here are drawn from the very latest translations of the Buddhist sutras It is hoped that by reflecting on them on a regular basis individuals will take significant steps towards enlightenment **Deeper Beauty**

The Trauma of Everyday Life Mark Epstein, M.D.,2014-07-29 A revolutionary reexamination of trauma s role in the life journey opening the door to growth and healing Trauma does not just happen to a few unlucky people it is the bedrock of our psychology Death and illness touch us all but even the everyday sufferings of loneliness and fear are traumatic In The Trauma of Everyday Life renowned psychiatrist and author of Thoughts Without a Thinker Mark Epstein uncovers the transformational potential of trauma revealing how it can be used for the mind s own development Western psychology teaches that if we understand the cause of trauma we might move past it while many drawn to Eastern practices see meditation as a means of rising above or distancing themselves from their most difficult emotions Both Epstein argues fail to recognize that trauma is an indivisible part of life and can be used as a lever for growth and an ever deeper understanding of change When we regard trauma with this perspective understanding that suffering is universal and without logic our pain connects us to the world on a more fundamental level The way out of pain is through it Epstein s discovery begins in his analysis of the life of Buddha looking to how the death of his mother informed his path and teachings The Buddha s spiritual journey can be read as an expression of primitive agony grounded in childhood trauma Yet the Buddha s story is only one of many in The Trauma of Everyday Life Here Epstein looks to his own experience that of his patients and of the many fellow sojourners and teachers he encounters as a psychiatrist and Buddhist They are alike only in that they share in trauma large and small as all of us do Epstein finds throughout that trauma if it doesn t destroy us wakes us up to both our minds own capacity and to the suffering of others It makes us more human caring and wise It can be our greatest teacher our freedom itself and it is available to all of us Check out Epstein s latest book Advice Not Given A Guide to Getting Over Yourself
