Study of Prehistoric Aesthetic Consciousness of the Chinese Nation Wangheng Chen, 2025-07-29 This book explores how prehistoric aesthetic consciousness of the Chinese nation evolved from animality and barbarism, how it was epitomized in prehistoric artifacts and most importantly how this aesthetic consciousness has exerted an ever-lasting influence upon the Chinese mind and culture by examining prehistoric archaeological discoveries, particularly pottery objects, jade ware and rock paintings from prehistoric cultures and by studying ancient Chinese historical and literary documents. This is the first academic effort to trace the very beginning of the aesthetic consciousness of the Chinese nation back to prehistoric times. Its strength lies in the comprehensive and detailed examination of all the major prehistoric cultures and artifacts as well as in its insights into the relationship between prehistoric consciousness and the Chinese mind and culture. This book benefits graduate students and researchers who are interested in Chinese prehistoric culture and Chinese history of aesthetics.

Imagining Chinese Medicine, 2018-05-01 A unique collection of 36 chapters on the history of Chinese medical illustrations, this volume will take the reader on a remarkable journey from the imaging of a classical medicine to instructional manuals for bone setting to advertising and comic books of the Yellow Emperor. In putting images, their power and their travels at the centre of the analysis, this volume reveals many new and exciting dimensions to the history of medicine and embodiment and challenges eurocentric histories. At a broader philosophical level, it challenges historians of science to rethink the epistemologies and materialities of knowledge transmission. There are studies by senior scholars from Asia, Europe and the Americas as well as emerging scholars working at the cutting edge of their fields. Thanks to generous support of the Wellcome Trust, this volume is available in Open Access.

Archaeology of East Asia Gina L. Barnes, 2015-10-31 Archaeology of East Asia constitutes an introduction to social and political development from the Palaeolithic to 8th century early historic times. It takes a regional view across China, Korea, Japan and their peripheries that is unbounded by modern state lines. This viewpoint emphasizes how the region drew on indigenous developments and exterior stimuli to produce agricultural technologies, craft production, political systems, religious outlooks and philosophies that characterize the civilization of historic and even modern East Asia. This book is a complete rewrite and update of *The Rise of*

Civilization in East Asia first published in 1993 It incorporates the many theoretical technical and factual advances of the last two decades including DNA gender and isotope studies AMS radiocarbon dating and extensive excavation results Readers of that first edition will find the same structure and topic progression While many line drawings have been retained new color illustrations abound Boxes and Appendices clarify and add to the understanding of unfamiliar technologies For those seeking more detail the Appendices also provide case studies that take intimate looks at particular data and current research The book is suitable for general readers East Asian historians and students archaeology students and professionals Praise for The Rise of Civilization in East Asia the best English introduction to the archaeology of East Asia brilliantly integrates the three areas into a broad regional context Prof Mark Hudson

Metamorphic Imagery in Ancient Chinese Art and Religion Elizabeth Childs-Johnson, John S Major, 2023-05-30 *Metamorphic Imagery in Ancient Chinese Art and Religion* demonstrates that the concept of metamorphism was central to ancient Chinese religious belief and practices from at least the late Neolithic period through the Warring States Period of the Zhou dynasty Central to the authors argument is the ubiquitous motif in early Chinese figurative art the metamorphic power mask While the motif underwent stylistic variation over time its formal properties remained stable underscoring the image s ongoing religious centrality It symbolized the metamorphosis through the phenomenon of death of royal personages from living humans to deceased ancestors who required worship and sacrificial offerings Treated with deference and respect the royal ancestors lent support to their living descendants ratifying and upholding their rule neglected they became dangerous even malevolent Employing a multidisciplinary approach that integrates archaeologically recovered objects with literary evidence from oracle bone and bronze inscriptions to canonical texts all situated in the appropriate historical context the study presents detailed analyses of form and style and of change over time observing the importance of relationality and the dynamic between imagery materials and affects This book is a significant publication in the field of early China studies presenting an integrated conception of ancient art and religion that surpasses any other work now available

Sentient Archaeologies Courtney Nimura, Rebecca O'Sullivan, Richard Bradley, 2023-07-15 Archaeology in the past century has seen a major shift from theoretical frameworks that treat the remains of past societies as static snapshots of particular moments in time to interpretations that prioritize change and variability Though established analytical concepts such as typology remain key parts of the archaeologist s investigative toolkit data gathering strategies and interpretative frameworks have become infused progressively with the concept that archaeology is living in the sense of both the objects of study and the discipline as a whole The significance for the field is that researchers across the world are integrating ideas informed by relational epistemologies and mutually

constructive ontologies into their work from the initial stage of project design all the way down to post excavation interpretation This volume showcases examples of such work highlighting the utility of these ideas to exploring material both old and new The illuminating research and novel explanations presented contribute to resolving long standing problems in regional archaeologies across Africa Asia Australia Europe and Oceania In this way this volume reinvigorates approaches taken towards older material but also acts as a springboard for future innovative discussions of theory in archaeology and related disciplines
