Reflections On Development In Southeast Asia:

Reflections on Development in Southeast Asia Teck Ghee Lim, 1988 The rapid pace of economic development in Southeast Asia has involved a changing and often volatile relationship between traditional structures and values and new structures associated with state and administrative power In this volume a variety of original perspectives is offered on crucial subjects including region the bureaucracy the state and non governmental organizations **Critical Reflections on Development**

D. Kingsbury, 2013-03-05 Designed as a critique of the key failures of international development this book brings together practitioners policy makers researchers activists and academics in an attempt to work toward a shared conceptualisation of development by outlining and critically reflecting on their own understanding of development **Reflections on Human Development** Mahbub ul Haq, 1995 Group of Seven Handbook of Comparative and Development Public Administration

Ali Farazmand, 2019-02-21 With contributions from nearly 80 international experts this comprehensive resource covers diverse issues aspects and features of public administration and policy around the world It focuses on bureaucracy and bureaucratic politics in developing and industrialized countries and emphasizing administrative performance and policy implementation as well as political system maintenance and regime enhancement The book covers the history of public administration and bureaucracy in Persia Greece Rome and Byzantium and among the Aztecs Incas and Mayas public administration in small island states Eastern Europe and ethics and other contemporary issues in public administration

An Analysis of Mahbub ul Haq's Reflections on Human Development Riley Quinn, 2017-07-05 What is the ultimate goal of any human society There have been many answers to this question But by producing a series of notably well structured arguments economist Mahbub ul Haq s *Reflections on Human Development* persuaded readers that the goal should be defined quite simply as the requirement that each society improve the lives of its citizens If this is the agreed aim Haq continues then economic development should be designed to support human development His well structured reasoning helped development economists recalibrate much of what had previously been regarded as self evident that economic productivity was the main barometer of social well being The work had a profound effect and Haq s thinking helped produce a new understanding of what development actually meant Haq conscientiously mapped out arguments and counter arguments to persuade readers that development did not simply mean an increase in productivity but rather an increase in human development the capability of people to live the lives they want to By bringing the abstract back to the concrete Haq reevaluated the neoliberal reasoning that suggested economic development necessarily benefitted everybody And by virtue of his strong command of reasoning Haq showed how economic development provided no guarantees that rich people would spend money on improving health education or other human development outcomes for the poor **Land Use: Reflection**

African Development Perspectives: A Holistic Reflection T A Ngwana, 2024-01-05 Africa remains a continent that is yet to achieve its full potentials despite an abundance of resources and a rich cultural pedigree There have been various attempts to dissect the impediments to the continent's progress in its march towards development and true independence Consequently this book moves away from mere identification of challenges to proffering solutions The ideas put forward about African development in this book draw from a multiplicity of backgrounds They are also offered through the prism of the lived experiences of contributors who are keen on engendering an African solution that weaves global dynamics into Africa's cultural context and did not shy away from identifying themselves as global citizens from Africa The compelling read is a critical appraisal of germane issues in Africa's quest for development which speaks truth to both the powerful and the powerless within and beyond Africa on why prioritising Africa's development is as pressing as the Global climate catastrophe
