Reflections On Sociology And Philippine Society:

Reflections on Sociology and Philippine Society Randolph David, 2001 This is a new collection of essays by a prize winning author scholar and TV talk show host According to David this book is addressed to the general reader but it is primarily intended for students of sociology and the other human sciences who demand of every branch of knowledge that it speak clearly of practical realities

The Poverty of Television Jonathan Corpus Ong, 2015-05-15 Based on a 20 month ethnographic study of television and audiences in class divided Philippines this is the first book to take a bottom up approach in considering how people respond to images and narratives of suffering and poverty on television The book aims to contribute to the broader project of de Westernizing media studies and explore the tension between ethical prescription and anthropological description in the social sciences and humanities Winner of the 2016 Philippine Social Science Council Excellence in Research Award

Networks of (Dis)Trust Vicente Chua Reyes Jr., 2019-09-17 *Networks of Distrust* The Impact of Automation Corruption and Media on Philippine Elections discusses how in a Philippine context the bureaucracy and the Commission on Elections is dysfunctional and that corruption has a ubiquitous impact on governance and administration that has defined how the state operates Scholars and commentators have described Philippine democracy as a paradox This book uses the unprecedented May 2010 synchronized automation of elections an attempt at electoral engineering to better understand the lingering paradox of Philippine politics and its public administration system

Asian Alterity: With Special Reference To Architecture And Urbanism Through The Lens Of Cultural Studies William Siew Wai Lim, 2007-12-04 *Asian Alterity* is an interdisciplinary theoretical analysis that vigorously contests the homogeneity of the mainstream Eurocentric values Part I argues for the need for an alternate perspective to be introduced so as to understand the diversity of Asia's cultural differences at their varied development stages and to meet the complex challenges of the explosive urban expansion and disruptive changes in traditional cultures and lifestyles Part II of the book consists of nine case studies of Asian major urban cities by well established academic writers and urban theorists Each author presents diverse aspects of urban dynamism The case studies will collectively demonstrate a broad framework to understand the essentiality of the interdisciplinary mode of Cultural Studies as an important lens towards meeting the challenges in Asian Architecture and Urbanism Highlights of the book

Migration and New Media Mirca Madianou, Daniel Miller, 2013-03-01 How do parents and children care for each other when they are separated because of migration The way in which transnational families maintain long distance relationships has been revolutionised by the emergence of new media such as email instant messaging social networking sites webcam and texting A migrant mother can now call and text her left behind children several times a day peruse social networking sites and leave the webcam for 12 hours achieving a sense of co presence Drawing on a long term ethnographic study of prolonged separation between migrant mothers and their children who remain in the Philippines this

book develops groundbreaking theory for understanding both new media and the nature of mediated relationships It brings together the perspectives of both the mothers and children and shows how the very nature of family relationships is changing New media understood as an emerging environment of polymedia have become integral to the way family relationships are enacted and experienced The theory of polymedia extends beyond the poignant case study and is developed as a major contribution for understanding the interconnections between digital media and interpersonal relationships

Populism in the Civil Sphere Jeffrey C. Alexander, Peter Kivisto, Giuseppe Sciortino, 2020-12-07 Even as the specter of populism haunts contemporary societies scholars have not been able to agree about what it is Except for one thing a deviation from democracy the source it seems of the precarious position in which so many societies find themselves today This volume aims to break the Gordian knot of populism by bringing a new social theory to bear and in so doing so suggesting that normative judgments about this misunderstood phenomenon need to be reconsidered as well Populism is not a democratic deviation but a naturally occurring dimension of civil sphere dynamics fatal to democracy only at the extremes Because populism is highly polarizing it has the effect of inducing anxiety that civil solidarity is breaking apart Left populists feel as if civil solidarity is an illusion that democratic discourse is a fig leaf for private interests and that the social and cultural differentiation that vouchsafes the independence of the civil sphere merely reflects the hegemony of narrow professional interests or those of a ruling class Right populists share the same distrust even repulsion for the civil sphere What seems civil to the center and left like affirmative action or open immigration they call out as particularistic honored civil icons such as Holocaust memorials they trash How can the sense of a vital civil center survive such censure from populism on the left and the right Populism in the Civil Sphere provides compelling answers to these fundamental questions Its contributions are both sophisticated theoretical interventions and deeply researched empirical studies and it will be of great interest to anyone concerned about the most important political developments of our time

Incomplete Urbanism William Siew Wai Lim, 2012 Foreword by Leon van Schaik Incomplete Urbanism is a dynamic hybrid interactive concept which destabilizes the current architectural and urban theories and practices Its main characteristics are indeterminacy inconsistency and changeability which are particularly challenging in the context of the New World Order and the fast emerging global digital network It is a concept that can be effectively applied to any sizeable section of existing cities without the need for major readjustments and can be implemented at different rates in response to specific local conditions As for the word critical I use it deliberately in order to convey the essential need to think creatively and positively in a controversial contesting and social orientated manner about what we do as it will constructively influence the way we do things that impact our values and social environment

Being Catholic in the Contemporary Philippines Jayeel Serrano Cornelio, 2016-06-23 This book based on extensive original research examines the nature of Catholicism in the contemporary Philippines It shows how Catholicism is apparently flourishing with good attendance at Sunday Masses impressive religious processions and flourishing charismatic groups and with

interventions by the Catholic hierarchy in national and local politics However focusing in particular on the beliefs and practices of young people the book shows that young people are often adopting a different more individualised approach to Catholicism which is frequently out of step with the official position It considers the features of this a more personal and experiential relationship with God a new approach to morality in which right living is seen as more important than right believing and a critical view of what is seen as the Catholic hierarchy's misguidedness The book argues that this reinterpreting of religion by young people has the potential to alter fundamentally the nature of Catholicism in the Philippines but that nevertheless young people's new approach involves a solid enduring commitment and a strong view of their own Catholic religious identity

BOBoto Ba Ako? Rei Lemuel Crizaldo, 2015-09-15 Babaha na naman ang mga flyers ang mga pader matatakpan ng mga posters pero handa na ba ang mga voters Parang langis at tubig ba ang faith at politics Hindi pwedeng mag mix Kung gusto mong makakita ng seryosong pagbabago wag mong sayangin ang boto sa maling kandidato Para maparinig ang boses mo di kailangang maki rally sa EDSA at Mendiola Why Dahil pwede mong gawin yan sa pamamagitan ng iyong balota Akala ng iba na ang future ng Pilipinas ay nasa mga kamay ng mga kandidato Ang totoo niyan ito ay nasa kamay mo

Politicising Democracy J. Harriss, K. Stokke, Olle Törnquist, 2004-11-11 There is a major contradiction in contemporary politics there has been a wave of democratization that has swept across much of the world while at the same time globalization appears to have reduced the social forces that have built democracy historically This book by an international group of authors analyzes the ways in which local politics in developing countries often neglected in work on democratization render democratic experiments more or less successful in realizing substantial democracy

Routledge Handbook of Southeast Asian Politics Richard Robison, 2012-03-12 Now available in paperback this Handbook provides a comprehensive analysis of the major themes that have defined the politics of Southeast Asia It provides a comprehensive and cutting edge examination of this important subject The introductory chapter provides an overview of the theoretical and ideological themes that have dominated the study of the region's politics and presents the different ways the complex politics of the region have been understood The contributions by leading scholars in the field cover a range of broad questions about the dynamics of politics The Handbook analyses how the dominant political and social coalitions of the region were forged in the Cold War era and assesses the complex processes of transition towards various forms of democratic politics How institutions and systems of governance are being forged in an increasingly global environment is discussed and whether civil society in Southeast Asia has really evolved as an independent sphere of social and political activity The Handbook examines how national governments are dealing with growing tensions within the region as matters such as labour human rights and the environment spill beyond national boundaries and how they are establishing a place in the new global framework By engaging the Southeast Asian experience more firmly with larger debates about modern political systems the Handbook is an essential reference tool for students and scholars of Political Science and Southeast
