**Reflexive Language** John A. Lucy, 1993-03-04 This volume examines the nature and significance of the reflexive capacity of natural language its ability to represent its own structure and use through reported speech and explicit statements about language use metapragmatics Included are theoretical overviews case studies of the forms and functioning of reflexive language and explorations of the broad importance of reflexive language for research in the humanities and social sciences These innovative essays many by internationally known researchers effectively critique research in the human disciplines that fails to take language seriously It should elicit widespread attention and debate

**Metapragmatics in Use** Wolfram Bublitz, Axel Hübler, 2007 This collection of papers fills a gap in current research on both metapragmatics and pragmatics in that it combines data based pragmatic analysis with metapragmatic theory and focuses on the ways in which metadiscourse is actually used The 12 contributions investigate speech acts and verbal as well as non verbal expressions which highlight meta linguistic aspects of ongoing discourse and thus provoke a deviation from the latter s original direction and purpose All case studies discuss ways and means which interactants employ to resolve diverging pragmatic expectations in communication The papers analyze authentic examples from English and other languages and cultures including Thai Chinese and Japanese and center around three principal domains of communication ordinary everyday interaction interaction in educational contexts and in specialized discourse The introductory chapter locates the various contributions within a systematically broader theoretical framework The wide scope of the collection its empirical orientation and the reader friendly form of presentation should appeal to anyone interested in pragmatics whether scholar or student

**The Reflexivity of Language and Linguistic Inquiry** Dorte Duncker, 2018-11-09 This book explores the reflexivity of language both from the perspective of the lay speaker and the linguistic analyst Linguistic inquiry is conditional upon linguistic reflexivity but so is language Without linguistic reflexivity we would not be able to make sense of everyday linguistic communication and the idea of a language would not be conceivable Not even fundamental notions such as words or meaning would exist Linguistic reflexivity is a feature of the communication process and it essentially depends on situated participants and time It is a defining characteristic of the human language but despite its obvious importance it is not very well understood theoretically and it is strangely under researched empirically Throughout history and in modern linguistics it has mostly either been taken for granted misconstrued or ignored Only integrational linguistics fully recognizes its specifically linguistic implications However integrational linguistics does not provide the necessary methodological basis for investigating linguistic phenomena empirically This catch 22 situation means that the goal of the book is twofold one part is to explore the reflexivity of language theoretically and the other part is to propose an applied integrational linguistics and to implement this proposal in practice

**The Cambridge Handbook of the Philosophy of Language** Piotr Stalmaszczyk, 2021-12-02 A comprehensive guide to contemporary investigations into the relationship between language philosophy and linguistics      Perspective and Perspectivation in Discourse Carl Friedrich Graumann, Werner Kallmeyer, 2002-01-01 Perspective and viewpoint are widely used in everyday talk as well as in the specialist languages of the social cognitive and literary sciences Taken from the field of visual perception and representation these concepts have acquired a general meaning and significance as characteristics of human cognitive processing Since however this field is shared by an increasing body of disciplines perspective terms have also acquired specific and technical meanings A striking example is the newly introduced use of perspectivation in discourse analysis This volume on perspective and perspectivation the first of its kind will help to fill the gap between the common understanding of perspective and the specifics of its structure and dynamics as they have been elaborated in the human sciences mainly in psychology and linguistics The focus is on the structure of perspectivity in cognition and language and the dynamics of setting and taking perspectives in social interaction and in the construction and understanding of texts Both topics are presented here in an interdisciplinary way by a group of linguists and psychologists      **New Frontiers in Pragmalinguistic Studies** Alessandro Capone, Roberto Graci, Pietro Perconti, 2025-01-29 This book contains a comprehensive view of pragmalinguistic studies and their recent ramifications boasting some of the most advanced recent research in pragmatics Organised into three sections pragmalinguistics social pragmatics and cognitive inferential pragmatics respectively the chapters enable an understanding of the possible applications of linguistic and philosophical theories in practical fields Covering topics such as polysemy across languages and lexical externalism the role of literal meaning in the construction of metaphorical meaning the pragmatics of truth the roles of reflexivity in meaning negotiation argumentation and discourse the pragmatics of taboo linguistic and cognitive aspects of formation of implicates and reflections on neuropragmatics and clinical pragmatics in Autism Spectrum Disorder and Schizophrenia to name but a few exciting areas of exploration this book is of interest to scholars and postgraduate students in the fields of semantics pragmatics and philosophy of language cognitive science and other areas of linguistics      **Dialogue Analysis IX: Dialogue in Literature and the Media, Part 1: Literature** Anne Betten, Monika Dannerer, 2011-12-22 These two volumes offer a selection of the papers held at the conference of the International Association for Dialogue Analysis IADA in 2003 Volume I contains 38 articles devoted to dialogue and the phenomenon of dialogicity in literature ranging from antiquity to a large number of modern languages and literatures The conversation analytic approaches drawn upon are notable for their methodological diversity This is also true of the 32 articles in Volume II The main focus here is on present day types of dialogue in the new electronic media and their traditional counterparts press radio television film The examples are taken from various countries and they are discussed in terms of the intercultural semiotic translatorial and general pragmatic issues they pose      **Powers of the Secular Modern** David Scott, Charles Hirschkind, 2006 This book presents a set of

Investigations into the Meta-Communicative Lexicon of English Ulrich Busse, Axel Hübler, 2012-05-15 The volume contributes to historical pragmatics an important chapter on what has so far not been paid adequate attention to i.e. historical metapragmatics More particularly the collected papers apply a meta communicative approach to historical texts by focusing on lexis that either directly or metaphorically identifies or characterizes entire forms of communication or single acts and act sequences or minor units Within the context of their use such lexical expressions in fact provide a key for disclosing historical forms of communication taken out of context they build the meta communicative lexicon The articles follow three principal distinctions in that they investigate the meta communicative profile of genres meta communicative lexical sets and meta communicative ethics and ideologies They cover a broad spectrum of text types that span the entire history of the English language from Anglo Saxon chronicles to computer mediated communication

Deuteronomy and the Material Transmission of Tradition Mark Lester, 2024-03-04 Winner of the 2025 Manfred Lautenschlaeger Award for Theological Promise Deuteronomy and the inscribed texts depicted within it are often called books Moreover its treatment of writing has earned it a prominent place in historical accounts of the religion of ancient Israel and Judah Neither Deuteronomy nor its text artifacts however are books in any conventional sense of the term This interdisciplinary study reorients the analysis of Deuteronomistic textuality around the materiality visibility and rhetoric of ancient rather than modern media It argues that the Deuteronomistic composition adapts the media aesthetics of

ancient treaty tablets and monumental inscriptions to a story that is itself transformed into an artifact of the past *More than (Just) Words* Magdalena Szczyrbak, 2025-06-02 This edited collection illuminates the mechanisms involved in courtroom reality construction and the ways in which trial narratives are created and legal facts established It covers a wide range of jurisdictions and legal procedures spanning five continents In addition to explaining how courtroom actors utilise words to craft their narratives within institutional constraints it draws attention to the effect the gestural visual and material resources have on the discursive shaping of the judicial process The book highlights the intersection of legal and non legal perspectives in judicial and related settings those of judges prosecutors attorneys complainants lay witnesses forensic experts witness intermediaries and jurors Going beyond just words the volume elucidates the processes of meaning making and the discourse practices which underlie asymmetrical interaction in judicial settings Informed by diverse theoretical frameworks the book will appeal to legal linguists and discourse analysts studying institutional communication as well as legal practitioners engaged in trial practice **The Pursuit of Style in Early Modern Drama** Matthew Hunter, 2022-08-25
