Reform Of Direct Taxation:

The Structure and Reform of Direct Taxation (Routledge Revivals) James Meade, 2013-09-05 First published in 1978 The Structure and Reform of Direct Taxation presents the full findings and recommendations of the Meade committee set up by The Institute for Fiscal Studies It represents the most important contemporary examination of the structure of UK taxation and direct taxation systems in general The results of two years intensive research and discussion by this independent committee are presented as a report under the joint authorship of an outstanding team of tax experts The committee brought together professional practitioners lawyers accountants and taxation administrators and academic specialists in fiscal studies and here provides a unique review of direct taxation which is comprehensive singularly original and full of good sense The book begins with a return to first principles restates the objectives of a good tax system and analyses existing structures It goes on to examine the feasibility of basic reforms which would allow the system to become more straightforward in operation and which would base taxation on what individuals take out of the economy rather than on what they put into it **The Structure and Reform of Direct Taxation**, 1978 *The Structure and Reform of Direct Taxation*, 1978 **Some Observations on Direct Taxation, in reference to commercial reform** John Coleman (of Dover.), 1853 **The Structure and Reform of Direct Taxation (Routledge Revivals)** James E. Commission on Tax Reform, 1976 Tax Reform in Developing Countries Wayne R. Thirsk, 1997 Tax Reform in Developing Countries carefully examines the experience of eight developing countries that have undergone and in some instances are still undergoing significant and comprehensive tax reform The countries are Bolivia Colombia Indonesia Jamaica Korea Mexico Morocco and Turkey It draws on their experiences to find lessons learned and to see how they may be applied to other countries on the road to tax reform Equal attention is given to the process of tax reform how it is implemented and the substance or results of reform efforts Throughout the focus is on the practical rather than the theoretical aspects of tax reform *Developmental Problems and Policies in India* B. Satyanarayan, 2000 European Union Direct Taxes Salvador Trinxet Llorca, 2010 *Tax Reforms and Fiscal Shock Smoothing* Mr. David Amaglobeli, Laura Jaramillo, Pooja Karnane, Ms. Aleksandra Zdzienicka, 2019-05-23 This paper examines the role of tax policy reforms in enhancing fiscal shock smoothing in a panel of 13 OECD economies during the period 1980 2017 The results suggest that tax reforms in particular those that broaden the tax base significantly enhance the ability of fiscal policy to mitigate the impact of growth shocks on disposable income We find that the magnitude of shock smoothing increases from an average of 2 percent to 3 31 2 percent following the reform The effects are considerably higher for tax base than tax rate changes and also higher for indirect tax than direct tax changes The effects are symmetric that is the increase in shock smoothing following a reform

expanding the tax base rate is similar to the decline in shock smoothing after a reform narrowing the tax base rate Tax elasticity collection efficiency and the progressivity of the tax system are important channels through which tax reforms affect fiscal stabilization **Tackling Difficulties in Tax Administration Reform** Jia Kang,Liang Ji,Cheng Yu,2024-11-26 This book explores China s tax system one of the largest in the world it operates on a quite different logic in taxing income property and capital gains compared with most other countries In an effort to reduce income inequality and continue to drive robust growth a lively debate about the reform of China s tax system is taking place In this book some of China s most prominent thinkers on the topic share their insights and proposals This book will interest scholars of the Chinese economy business analysts and scholars of taxation policy *Comprehensive Deepening of Reforms in China* Peilin Li,2020-04-22 This book covers key issues related to comprehensive reform in China in a broad range of areas such as the economy politics culture social management the environment and CPC Party building The insightful analyses will appeal to social science researchers interested in reform era contemporary China as well as both undergraduate and graduate students trying to understand this country better Lawmakers and policymakers at different levels of government will find in the well informed policy recommendations following the analyses a valuable source of reference and inspiration **40 Years of Reform and Opening-up** Chaoyang Wang,2022-12-15 This book consists of studies on China s economic development since China carried out the reform and opening up strategy including China s economic restructuring economic operational mechanism socialist market economy inflation the reform of the urban housing system the economic impact of WTO entry the future potential growth rate global economic governance structural fiscal and taxation reforms the rapid growth of China s financial industry and more These studies explores China s successful experience of economic growth in the past and will shed some light on China s economic development in the future providing value to economists and Chinese scholars The Indian Economy Since 1991: Economic Reforms and Performance, 2/e B. Tax Reform in Uganda Dorothy Kwagala-Igaga, 2016-12-14 In 1997 Uganda undertook extensive reforms in tax legislation This had been preceded by the structural reforms in tax administration that saw the creation of the Uganda Revenue Authority in 1991 The aim of the far reaching reforms was to improve the tax system and increase its revenue productivity This book demonstrates that the reforms were not as successful as anticipated and revenues have not improved in a sustained way The revenue from direct taxes only contributes about 20% to the total revenue well below the Sub Saharan average of 40% This has focused attention on the appropriateness of the reforms The focus of the reforms on achieving efficiency did not sufficiently take into account the fundamental importance of equity within the system As a result the Income Tax Act 1997 embodies distortions and inequalities in the treatment of taxable income and taxpayers that have led to inefficiency in the system as a whole The tax reforms also took a narrow technical view of the tax system The book employs political economy and optimal theory to explain the weaknesses in the tax system It is argued that the reforms although well designed were not likely to be successful given the timing and context of implementation The multidisciplinary and functionalist approach of the book is helpful in highlighting the constraints in which tax design and tax reform is undertaken in Uganda It is argued that the reforms were blunted by the manner of their formulation and context of implementation Taxation is a socio political issue and yet the IMF and World Bank which supported the reforms did not take into account the limited political will The lack of consensus in policy formulation has weakened the socio contract and allowed the government to blame external factors for the poor performance The weaknesses in governance and corruption have had an impact on the tax system by encouraging tax avoidance and evasion among political elites as well as on activities in the informal sector
