Mexico in that period This book also comments on some indicators of economic wellbeing as these reflect the results of the reforms Finally it makes a critical assessment of those changes before attempting to answer the research question *Food Fights over Free Trade* Christina L. Davis,2011-10-23 This detailed account of the politics of opening agricultural markets explains how the institutional context of international negotiations alters the balance of interests at the domestic level to favor trade liberalization despite opposition from powerful farm groups Historically agriculture stands out as a sector in which countries stubbornly defend domestic programs and agricultural issues have been the most frequent source of trade disputes in the postwar trading system While much protection remains agricultural trade negotiations have resulted in substantial concessions as well as negotiation collapses Food Fights over Free Trade shows that the liberalization that has occurred has been due to the role of international institutions Christina Davis examines the past thirty years of U S agricultural trade negotiations with Japan and Europe based on statistical analysis of an original dataset case studies and in depth interviews with over one hundred negotiators and politicians She shows how the use of issue linkage and international law in the negotiation structure transforms narrow interest group politics into a more broad based decision process that considers the larger stakes of the negotiation Even when U S threats and the spiraling budget costs of agricultural protection have failed to bring policy change the agenda rules and procedures of trade negotiations have often provided the necessary leverage to open Japanese and European markets This book represents a major contribution to understanding the negotiation process agricultural politics and the impact of international institutions on domestic politics *Institutions and public agricultural investments* Mogues, Tewodaj,Olofinbiyi, Tolulope,2016-12-02 This paper makes a contribution to this literature by drawing on the framework of actor centered institutionalism Scharpf 1997 to empirically examine how political and budget institutions affect the incentives of actors involved in the public agricultural finance process structures the interactions between them and ultimately shapes expenditure allocations **OECD Economic Surveys: Iceland 2021** OECD,2021-07-07 Iceland s economy is recovering from a deep COVID 19 recession Fisheries and intellectual services exports are on the rise and foreign tourists are starting to come back as travel restrictions are gradually eased The health crisis has been relatively mild so far thanks to a smart testing and tracking strategy and a well functioning health system
