

THE REFORMATION
OF THE
TWELFTH CENTURY

GILES CONSTABLE

Reformation Of The Twelfth Century

Boyd Taylor Coolman

Reformation Of The Twelfth Century:

The Reformation of the Twelfth Century Giles Constable, 1996 A study of the changes in religious thought and institutions c 1180 c 1280 Reform and Renewal in the Middle Ages and the Renaissance, 2022-04-19 Reform is one of the most significant themes spiritual and intellectual of the Middle Ages and it has both institutional and individual dimensions The Reformation crisis led to further variations on this crucial theme This volume examines the theme of Reform from a variety of viewpoints while covering more than four centuries Some contributions look at Apocalyptic dimensions in writings on reform Another focuses on the influence of Gerhart Ladner on the study of reforming themes and reform movements These articles will be useful for the study of intellectual history ecclesiastical history the history of spirituality and the study of Apocalypticism Contributors include Gregory S Beirich Christopher M Bellitto Gerald Christianson Thomas C Giangreco William V Hudon Lawrence F Hundersmarck Thomas M Izbicki Daniel Marcel La Corte Thomas E Morrissey Francis Oakley Joseph F O Callaghan Gilbert Ouy Robert Somerville Phillip H Stump and Morimichi Watanabe Publications by Louis B Pascoe S J Jean Gerson Principles of Church Reform ISBN 978 90 04 03645 1 Out of print Church and Reform Bishops Theologians and Canon Lawyers in the Thought of Pierre d Ailly 1351 1420 ISBN 978 90 04 14062 2 *A Companion to the Great Western Schism (1378-1417)* Joëlle Rollo-Koster, Thomas M. Izbicki, 2009 The division of the Church or Schism that took place between 1378 and 1417 had no precedent in Christianity No conclave since the twelfth century had acted as had those in April and September 1378 electing two concurrent popes This crisis was neither an issue of the authority claimed by the pope and the Holy Roman Emperor nor an issue of authority and liturgy The Great Western Schism was unique because it forced upon Christianity a rethinking of the traditional medieval mental frame It raised question of personality authority human fallibility ecclesiastical jurisdiction and taxation and in the end responsibility in holding power and authority This collection presents the broadest range of experiences center and periphery clerical and lay male and female Christian and Muslim Theology including exegesis of Scripture diplomacy French literature reform art and finance all receive attention

Women and Monastic Reform in the Medieval West, C. 1000-1500 Julie Hotchin, Jirki Thibaut, 2023 New approaches to understanding religious women s involvement in monastic reform demonstrating how women s experiences were more ambiguous and multi layered than previously assumed Over the last two decades scholarship has presented a more nuanced view of women s attitude to and agency in medieval monastic reform challenging the idea that they were by and large unwilling to accept or were necessarily hostile towards reform initiatives Rather it has shown that they actively participated in debates about the ideas and structures that shaped their religious lives whether rejecting embracing or adapting to calls for reform contingent on their circumstances Nevertheless fundamental questions regarding the gendered nature of religious reform are ripe for further examination This book brings together innovative research from a range of disciplines to re evaluate and enlarge our knowledge of women s involvement in spiritual and institutional change in female

monastic communities over the period c 1000 c 1500 Contributors revise conventional narratives about women and monastic reform and earlier assumptions of reform as negative or irrelevant for women Drawing on a diverse array of visual material and textual sources it presents snapshots of reform from western Europe stretching from Ireland to Iberia Case studies focussing on a number of different topics from tenth century female saints lives to fifteenth century liturgical books from the tenth century Leominster prayerbook to archaeological remains in Ireland from embroideries and tapestries to the rebellious nuns of Sainte Croix in Poitiers offer a critical reappraisal of how monastic women and their male associates reflected individually and collectively on their spiritual ideals and institutional forms

[A Companion to Observant Reform in the Late Middle Ages and Beyond](#) James Mixson, Bert Roest, 2015-06-02 The Observant Movement was a widespread effort to reform religious life across Europe It took root around 1400 and for a century and more thereafter it inspired or shaped much that became central to European religion and culture The Observants produced many of the leading religious figures of the later Middle Ages Catherine of Siena Bernardino of Siena and Savonarola in Italy Francisco Jim nez de Cisneros in Spain and in Germany Martin Luther himself This volume provides scholars with a current synthetic introduction to the Observant Movement Its essays also seek collectively to expand the horizons of our study of Observant reform and to open new avenues for future scholarship Contributors are Michael D Bailey Pietro Delcorno Tamar Herzig Anne Huijbers James D Mixson Alison More Carolyn Muessig Maria Giuseppina Muzzarelli Bert Roest Timothy Schmitz and Gabriella Zarri

Luther and the Reformation of the Later Middle Ages Eric Leland Saak, 2017-04-19 Saak re interprets Martin Luther as an Augustinian Hermit whose 95 Theses came as the culmination of the late medieval Reformation

A Return to the Heart Frank L. Bartoe, 2023-07-21 When we approach such men as St Bernard of Clairvaux and John Calvin we are approaching two men who were not only significant figures of their time but figures standing on opposite shorelines of the influence and impact of Scholasticism as well as a tumultuous decline in orthodoxy Despite this reality what is most compelling about these two men is the continuity of their developed thought even though they were worlds apart separated by time This continuity is most assuredly grounded in their historical sources and more importantly their faithful handling of God s word That continuity although not point for point was rather for the significant part of the structure and content sum and substance of the twofold knowledge of God and self For both of these men this doctrine was fundamental permeating the whole of their world and life philosophy Bernard and Calvin clearly saw the implications of this twofold knowledge These implications manifest in the realm of various doctrines and the network of their system of thought This book seeks to explore those various components of their twofold knowledge of God and self as well as the implications in the realm of experiential Christianity

Reforming the Church before Modernity Christopher M. Bellitto, 2016-04-08 Reforming the Church before Modernity considers the question of ecclesial reform from late antiquity to the 17th century and tackles this complex question from primarily cultural perspectives rather than the more usual institutional approaches The common themes are social change centres and

peripheries of change monasticism and intellectuals and their relationship to reform This innovative approach opens up the question of how religious reform took place and challenges existing ecclesiological models that remains too focussed on structures in a manner artificial for pre modern Europe Several chapters specifically take issue with the problem of what constitutes reform reformations and historians notions of the periodization of reform while in others the relationship between personal transformation and its broader social political or ecclesial context emerges as a significant dynamic Presenting essays from a distinguished international cast of scholars the book makes an important contribution to the debates over ecclesiology and religious reform stimulated by the anniversary of Vatican II

Ordo et Sanctitas: The Franciscan Spiritual Journey in Theology and Hagiography, 2017-06-01 This volume Ordo et Sanctitas The Franciscan Spiritual Journey in Theology and Hagiography which celebrates the life and legacy of J A Wayne Hellmann is comprised of articles written by colleagues former students and associates The authors were invited to contribute their own articles within three broad categories corresponding with the areas in which Wayne has made a longstanding scholarly contribution Franciscan hagiographical texts especially Thomas of Celano medieval theology and the Bonaventurian theological tradition and the retrieval of the Franciscan tradition in a contemporary context All of the essays in the volume build upon and expand in new directions the contributions of our honoree in these areas Contributors are Regis J Armstrong Joshua C Benson Michael Blastic Joseph Chinnici Michael F Cusato Jacques Dalarun J Isaac Goff Jay M Hammond Timothy J Johnson John Kruse Steven J McMichael Juliet Mousseau William Short Laura Smit and Katherine Wrisley Shelby

The Letters of Peter of Celle Peter (of Celle, Bishop of Chartres), 2001 Peter of Celle was a figure of great authority and influence in twelfth century France His letters offer unique insight into the ideals and values of the monastic world at a critical turning point for western religion This is the first translation of his correspondence and the first complete modern edition

The First Crusade Edward Peters, 2011-06-03 The First Crusade received its name and shape late To its contemporaries the event was a journey and the men who took part in it pilgrims Only later were those participants dubbed Crusaders those signed with the Cross In fact many developments with regard to the First Crusade like the bestowing of the cross and the elaboration of Crusaders privileges did not occur until the late twelfth century almost one hundred years after the event itself In a greatly expanded second edition Edward Peters brings together the primary texts that document eleventh century reform ecclesiology the appearance of new social groups and their attitudes the institutional and literary evidence dealing with Holy War and pilgrimage and most important the firsthand experiences by men who participated in the events of 1095 1099 Peters supplements his previous work by including a considerable number of texts not available at the time of the original publication The new material which constitutes nearly one third of the book consists chiefly of materials from non Christian sources especially translations of documents written in Hebrew and Arabic In addition Peters has extensively revised and expanded the Introduction to address the most important issues of recent scholarship

Martin Luther Alberto

Melloni,2017-12-20 The three volumes present the current state of international research on Martin Luther's life and work and the Reformation's manifold influences on history churches politics culture philosophy arts and society up to the 21st century The work is initiated by the Fondazione per le scienze religiose Giovanni XXIII Bologna in cooperation with the European network Refo500 This handbook is also available in German *Before the Gregorian Reform* John

Howe,2016-04-01 Historians typically single out the hundred year period from about 1050 to 1150 as the pivotal moment in the history of the Latin Church for it was then that the Gregorian Reform movement established the ecclesiastical structure that would ensure Rome's dominance throughout the Middle Ages and beyond In *Before the Gregorian Reform* John Howe challenges this familiar narrative by examining earlier pre Gregorian reform efforts within the Church He finds that they were more extensive and widespread than previously thought and that they actually established a foundation for the subsequent Gregorian Reform movement The low point in the history of Christendom came in the late ninth and early tenth centuries a period when much of Europe was overwhelmed by barbarian raids and widespread civil disorder which left the Church in a state of disarray As Howe shows however the destruction gave rise to creativity Aristocrats and churchmen rebuilt churches and constructed new ones competing against each other so that church building like castle building acquired its own momentum Patrons strove to improve ecclesiastical furnishings liturgy and spirituality Schools were constructed to staff the new churches Moreover Howe shows that these reform efforts paralleled broader economic social and cultural trends in Western Europe including the revival of long distance trade the rise of technology and the emergence of feudal lordship The result was that by the mid eleventh century a wealthy unified better organized better educated more spiritually sensitive Latin Church was assuming a leading place in the broader Christian world *Before the Gregorian Reform* challenges us to rethink the history of the Church and its place in the broader narrative of European history Compellingly written and generously illustrated it is a book for all medievalists as well as general readers interested in the Middle Ages and Church history **Church History, Volume One: From Christ to the Pre-Reformation** Everett

Ferguson,2013-11-26 Church History Volume One offers a unique contextual view of how the Christian church spread and grew from its development in the days of Jesus to the years leading up to the Reformation Looking closely at the integral link between the history of the world and that of the church Church History paints a portrait of God's people within its setting of times cultures and events that both influenced and were influenced by the church FEATURES Maps charts and illustrations spanning the time from the first through the thirteenth centuries Overviews of the Roman Greek and Jewish worlds and how they developed or declined Insights into the church's relationship to the Roman Empire with glimpses into pagan attitudes toward Christians Explanations of the role of art architecture literature and philosophy both sacred and secular in the Church Details on the major theological controversies of the periods Each chapter also contains callout passages from Scripture to assist in understanding the narrative of the Church even to the present day as part of the greater narrative of the Bible

AUTHOR S PERSPECTIVE Scholar and writer Everett Ferguson wrote this history of the church from the perspective that such a history is the story of the greatest movement and community the world has known It s a human story of a divinely called people who wanted to live by a divine revelation It s a story of how they succeeded and how they failed or fell short of their calling From the Apostle Paul to the apologists and martyrs of the second century to Martin Luther the historical figures detailed are people who have struggled with the meaning of the greatest event in history the coming of the Son of God and with their role in that event and in the lives of God s people Church and People in the Medieval West, 900-1200 Sarah Hamilton,2015-08-12 During the middle ages belief in God was the single more important principle for every person and the all powerful church was the most important institution It is impossible to understand the medieval world without understanding the religious vision of the time and this new textbook offers an approach which explores the meaning of this in day to day life as well as the theory behind it Church and People in the Medieval West gets to the root of belief in the Middle Ages covering topics including pastoral reform popular religion monasticism heresy and much more throughout the central middle ages from 900 1200 Suitable for undergraduate courses in medieval history and those returning to or approaching the subject for the first time **The Theology of Hugh of St. Victor** Boyd Taylor Coolman,2010-04-15 A comprehensive study which highlights the practical nature of Hugh of St Victor s pioneering program of spiritual reformation *The Oxford Handbook of Medieval Christianity* John Arnold,2014 The Oxford Handbook of Medieval Christianity takes as its subject the beliefs practices and institutions of the Christian Church between 400 and 1500AD It addresses topics ranging from early medieval monasticism to late medieval mysticism from the material wealth of the Church to the spiritual exercises through which certain believers might attempt to improve their souls Each chapter tells a story but seeks also to ask how and why Christianity took particular forms at particular moments in history paying attention to both the spiritual and otherworldly aspects of religion and the material and political contexts in which they were often embedded This Handbook is a landmark academic collection that presents cutting edge interpretive perspectives on medieval religion for a wide academic audience drawing together thirty key scholars in the field from the United States the UK and Europe Notably the Handbook is arranged thematically and focusses on an analytical rather than narrative approach seeking to demonstrate the variety change and complexity of religion throughout this long period and the numerous different ways in which modern scholarship can approach it While providing a very wide ranging view of the subject it also offers an important agenda for further study in the field Europe in the Central Middle Ages Christopher Brooke,2016-04-15 This wide ranging introduction to medieval Europe has been updated and revised In his popular survey Brooke explores the variety of human experience in the period He looks at society economy religious life and popular religion learning culture as well as political events the rise of the Normans and the heyday of the medieval Empire For the new edition there is increased coverage of the role of women and more attention to central Europe Bohemia Hungary and Poland The First French Reformation Tyler Lange,2014-04-14

This interpretation of the origins of French absolutism identifies Catholic Church reform as its foundation and failure of French Protestantism The Secular Clergy in England, 1066-1216 Hugh M. Thomas, 2014 The secular clergy priests and other clerics outside of monastic orders were among the most influential and powerful groups in European society during the central Middle Ages The secular clergy got their title from the Latin word for world saeculum and secular clerics kept the Church running in the world beyond the cloister wall with responsibility for the bulk of pastoral care and ecclesiastical administration This gave them enormous religious influence although they were considered too worldly by many contemporary moralists trying for instance to oppose the elimination of clerical marriage and concubinage Although their worldliness created many tensions it also gave the secular clergy much worldly influence Contemporaries treated elite secular clerics as equivalent to knights and some were as wealthy as minor barons Secular clerics had a huge role in the rise of royal bureaucracy one of the key historical developments of the period They were instrumental to the intellectual and cultural flowering of the twelfth century the rise of the schools the creation of the book trade and the invention of universities They performed music produced literature in a variety of genres and languages and patronized art and architecture Indeed this volume argues that they contributed more than any other group to the Twelfth Century Renaissance Yet the secular clergy as a group have received almost no attention from scholars unlike monks nuns or secular nobles In The Secular Clergy in England 1066 1216 Hugh Thomas aims to correct this deficiency through a major study of the secular clergy below the level of bishop in England from 1066 to 1216
