Refounding The World A Western Testament:

Re-Founding The World Jean-Claude Guillebaud, 2001 A leading French Christian writer Guillebaud leads the search for the Greek Jewish and Christian roots of our fundamental Western values an erudite and frank analysis of the perverse trends that undermine morality today and calls for a revolution Death and Life Paul Fairfield, 2001 Fairfield philosophy Queens U Canada summarizes major Western thought on life and death for the general reader He presents excerpts from the writings of authors such as Tolstoy Dostoyevsky Freud and Nietzsche which address the fear of death and the search for a meaningful life Coverage ext *The Publishers Weekly*, 2001 **The Mystery and the World** Maria Clara Bingemer, 2017-02-23 In *The Mystery and the World* Maria Clara Bingemer explores how the place of religion in society has dramatically shifted since the Enlightenment The modern era is characterised by a major change in humanity's fundamental desires that means that reason has taken the place of faith Human beings in their ongoing search for a scientific understanding of the world have drifted away from seeking any essence of transcendence in their lives Bingemer examines this transition and how especially in the postmodern era it has led to technology and superficial happiness becoming all important as opposed to the more sacred sense of contentment that governed us for centuries prior to the Enlightenment In her discussion however Bingemer demonstrates that we as humans have not lost our innate desire to believe in a higher power and that even in our world of instant satisfaction we still need to fill the void left by religion Through well researched analysis of the modern era and discussion of some of the mystics of more recent times she reveals to readers how our religious belief whilst changed is not dead and is still an important aspect of our existence Abdelkébir Khatibi Jane Hiddleston, Khalid Lyamlahy, 2020 Abdelk bir Khatibi is one of the most important voices to emerge from North Africa in postcolonial studies This book is the first to offer a thoroughgoing analysis in English of all aspects of his multifaceted thought as it ranges from Moroccan politics to Arabic calligraphy and from decolonisation to interculturality **The Impasse of Modernity** Christian Comeliau, 2002 Because of the deep unease over the direction modern society is following Christian Comeliau has written this critique of the global market economy The author explores its alienating effects and social consequences **Translation Review**, 2001 Mystic Chords Manish Soni, 2001 Citing baby boomer favorites including Bob Dylan Bob Marley the Beatles and other rock greats the author shows that they have drawn on the same primal source from which mythology dreams and poetic insight arise Music *An Introduction to the New Testament* M. Eugene Boring, 2012-10-13 This thoroughly researched textbook from well respected scholar M Eugene Boring presents a user friendly introduction to the New Testament books Boring approaches the New Testament as a historical document one that requires using a hands on critical method Moreover he asserts that the New Testament is the church's book in that it was written selected preserved and transmitted by the church Boring goes on to explore the historical foundation and formation of the New Testament within the context of pre Christian Judaism and the world of Jesus and the early church He then

examines the individual books of the New Testament providing helpful background information and methods for interpretation and revealing the narrative substructure found within each of the Gospels and Letters This volume includes helpful illustrations charts notes and suggestions for further reading Sections are laid out in a well organized manner to help students navigate the content more easily

Practices for the Refounding of God's People Alan J. Roxburgh, Martin Robinson, 2018-05-15 Speaks to the bewilderment and helplessness many churches feel in the face of current events Practical new interpretation of changes in the West Throughout its history the church has faced crises of meaning and identity in all kinds of changing contexts The crises facing the churches of the western hemisphere today are no different At their best churches have recognized that their challenge is not their own fixing or even reformation but a deep engagement with the ways the gospel transforms society This book explores how this can happen again in a radically changing western world

Economic Life Beyond Economists Abderrazak Belabes, 2024-08-12 Through an examination of the work of great scholars from fields including philosophy literature philology semiology quantum physics history and anthropology this book argues that building on the contribution of non economists can open new areas of reflection in economics beyond the usual schools of thought The purpose of the book is twofold First it offers a critique and discussion of the limits of contemporary economic discourse both mainstream and self styled alternative theories The central theme on which the book is built is that the discipline of economics fails to examine the nature of social reality in a systematic way This prompts the economists to become fully aware of the methodology on which they base their representation analysis and argumentation in a way that economists currently are not Second the book proposes alternative ways of thinking that can help readers of economics to overcome the current limitations of their discipline This means going beyond various dominant dualities orthodox heterodox micro macro epistemology ontology because it is not a question of doing the economy differently but of overcoming the economy as a representation of the world that strives to submit everything to its realm Thus the book does not simply propose a broader conceptual framework than that portrayed by mainstream economists or those who propose an alternative approach but raises questions that do not usually come from the minds of economists at all The book will be of particular interest to readers of economic methodology and pluralism philosophers of science and other social scientists interested in methodological issues
