,1980 *The Collected Works of W.B. Yeats Volume IX: Early Art* William Butler Yeats,2010-06-15 The Collected Works of W
B Yeats Volume IX Early Articles and Reviews is part of a fourteen volume series under the general editorship of eminent
Yeats scholars Richard J Finneran and George Mills Harper This first complete edition includes virtually all of the Nobel
laureate s published work in authoritative texts with extensive explanatory notes Coedited by John P Frayne and Madeleine
Marchaterre Early Articles and Reviews assembles the earliest examples of Yeats s critical prose from 1886 to the end of the
century articles and reviews that were not collected into book form by the poet himself Gathered together now they show the
earliest development of Yeats s ideas on poetry the role of literature Irish literature the formation of an Irish national theater
and the occult as well as Yeats s interaction with his contemporary writers As seen here Yeats s vigorous activity as magazine
critic and propagandist for the Irish literary cause belies the popular picture created by his poetry of the Celtic Twilight
period that of an idealistic dreamer in flight from the harsh realities of the practical world This new volume adds four years
worth of Yeats s writings not included in a previous 1970 edition of his early articles and reviews It also greatly expands the
background notes and textual notes bringing this compilation up to date with the busy world of Yeats scholarship over the
last three decades Early Articles and Reviews is an essential sourcebook illuminating Yeat s reading his influences and his
literary opinions about other poets and writers Subject Catalog, 1980 Library of Congress,1980 **National Union**
