Regarding Beauty:

A Broken Beauty Theodore L. Prescott, 2005 *A Broken Beauty* examines recent ideas about beauty and the human image in light of the Western Classical and Christian traditions of the human figure The book's five essays trace the historical fusion of Classical and Christian ideas about beauty as well as their rejection by much modern art provocatively suggesting that the difficulties encountered by the beautiful in modernity may be related to a loss of faith This volume culminates in a look at fifteen postmodern North American artists whose haunting pieces unite brokenness and beauty in a way that is uncommon within contemporary art These artists like the book's essayists find significance in beauty that is cultivated amidst the perennial human struggle for goodness meaning and dignity BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Hegel on Beauty Julia Peters, 2014-11-20 While the current philosophical debate surrounding Hegel's aesthetics focuses heavily on the philosopher's controversial end of art thesis its participants rarely give attention to Hegel's ideas on the nature of beauty and its relation to art This study seeks to remedy this oversight by placing Hegel's views on beauty front and center Peters asks us to rethink the common assumption that Hegelian beauty is exclusive to art and argues that for Hegel beauty like art is subject to historical development Her careful analysis of Hegel's notion of beauty not only has crucial implications for our understanding of the end of art and Hegel's aesthetics in general but also sheds light on other fields of Hegel's philosophy in particular his anthropology and aspects of his ethical thought Being

for Beauty Dominic McIver Lopes, 2018-09-13 No values figure as pervasively and intimately in our lives as beauty and other aesthetic values They animate the arts as well as design fashion food and entertainment They orient us upon the natural world And we even find them in the deepest insights of science and mathematics For centuries however philosophers and other thinkers have identified beauty with what brings pleasure Concerned that aesthetic hedonism has led us to question beauty's significance Dominic McIver Lopes offers an entirely new theory of beauty in this volume Beauty engages us in action in concert with others in the context of social networks Lopes's network theory explains the social dimension of aesthetic agency the tie between beauty and pleasure the importance of disagreement in matters of taste and the reality of aesthetic values as denizens of the natural world The two closing chapters shed light on why aesthetic engagement is so important to quality of life and why it deserves and gets lavish public support Being for Beauty offers a fresh contribution to aesthetics but also to thinking about metanormativity the metaphysics of value and virtue theory On Beauty Prathyush

In the past two decades various political arguments have been put forward against beauty that it distracts us from more important issues that it is the handmaiden of privilege and that it masks political interests In *On Beauty and Being Just* Elaine Scarry challenges such theories taking inspiration from writers painters and thinkers as diverse as Homer Plato Matisse Proust Simone Weil and Iris Murdoch She not only offers a passionate defence of beauty from the political arguments against it but also argues that beauty does indeed have a positive effect on life Rather than serving the privileged it presses all of us towards a greater concern for justice

Disinterested Pleasure and Beauty Larissa Berger,2023-07-24 The conception of disinterested pleasure is not only central to Kant's theory of beauty but also highly influential in contemporary philosophical discourse about beauty However it remains unclear what exactly disinterested pleasure is and what role it plays in experiences of beauty This volume sheds new

light on the conception of disinterested pleasure from the perspectives of both Kant scholarship and contemporary aesthetics In the first part the focus is on Kant s theory of beauty as grounded on the conception of disinterested pleasure In the second part disinterested pleasure is investigated in the light of contemporary debates on beauty The volume clarifies the meaning role and implications of one of the most influential conceptions in traditional as well as contemporary approaches to beauty

Aquinas on Beauty Christopher Scott Sevier,2015-02-12 Aquinas on Beauty explores the nature and role of beauty in the thought of Thomas Aquinas Beginning with a standard definition of beauty provided by Aquinas it explores each of the components of that definition The result is a comprehensive account of Aquinas s formal view on the subject supplemented by an exploration into Aquinas s commentary on Dionysius s Divine Names including a comparison of his views with those of both Dionysius and those of Aquinas s mentor Albert the Great The book also highlights the tight connection in Aquinas s thought between aesthetics and ethics and illustrates how Aquinas preserves what is best about aesthetic traditions preceding him and anticipates what is best about aesthetic traditions that would follow marrying objective and subjective aesthetic intuitions and charting a kind of via media between the common extremes Aesthetics and Material Beauty Jennifer A. McMahon,2013-01-11 In Aesthetics and Material Beauty Jennifer A McMahon develops a new aesthetic theory she terms Critical Aesthetic Realism taking Kantian aesthetics as a starting point and drawing upon contemporary theories of mind from philosophy psychology and cognitive science The creative process does not proceed by a set of rules Yet the fact that its objects can be understood or appreciated by others suggests that the creative process is constrained by principles to which others have access According to her update of Kantian aesthetics beauty is grounded in indeterminate yet systematic principles of perception and cognition However Kant s aesthetic theory rested on a notion of indeterminacy whose consequences for understanding the nature of art were implausible McMahon conceptualizes indeterminacy in terms of contemporary philosophical psychological and computational theories of mind In doing so she develops an aesthetic theory that reconciles the apparent dichotomies which stem from the tension between the determinacy of communication and the indeterminacy of creativity Dichotomies such as universality and subjectivity objectivity and autonomy cognitivism and non cognitivism and truth and beauty are revealed as complementary features of an aesthetic judgment **A Place for Beauty in the Therapeutic Encounter** Dorothy Hamilton,2021-01-31 A Place for Beauty in the Therapeutic Encounter is written for all psychotherapists counsellors and psychologists who practise under the broad banner of psychoanalytic thinking It is also for anyone who loves beauty and wants to think more about its place in the mind **On Beauty** rob mclennan,2024-08-15 On Beauty is a provocative collection of moments confessions overheard conversations and memories both fleeting and crystalized revolving around the small chasms and large craters of everyday life Situated at the crossroads of prose and poetry these 33 vignettes explore the rhythm textures and micro moments of lives in motion asking how decisions might connect and in turn affect the future rob mclennan s brief stories play with form and language capturing the act of record

keeping while in the process of living those records offering a dappled polaroid like effect Parenting and the intimate everyday warmth of home life figure prominently as does the duplicity of memory and the immediacies of human grief pain and joy Throughout the collection the worlds of literature and art infuse into fragments of the everyday mclennan s prose is rich sensitive and vivid composed with a poet s eye for detail and ear for rhythm A welcome record of human connection and belonging On Beauty will leave readers grappling with metafictional questions of how stories are produced and passed through generations

Divine Beauty Revealed Youngrae Kim,2025-09-11 This book explores the theological aesthetics of Jonathan Edwards through the lens of his biblical interpretation presenting a fresh and much needed perspective on one of America s greatest religious thinkers While previous scholarship has focused heavily on Edwards s philosophical or systematic theology this study uniquely centers his aesthetic vision on Scripture It argues that Edwards s understanding of beauty rooted in the Triune God revealed through Christ and reflected in creation is fundamentally shaped by his exegetical writings and pastoral vocation Engaging key works such as his Sermons Miscellanies Religious Affections and The Blank Bible the book demonstrates that Edwards s theology of beauty permeates core doctrines including the Trinity salvation ecclesiology and eschatology In contrast to Enlightenment rationalism Edwards upheld the Bible as the supreme source of truth interpreted through the Spirit enabled new sense of the heart This study fills a critical gap in Edwards scholarship by integrating his aesthetic theology with his biblical hermeneutics offering new insights into his vision of divine beauty and its transformative impact on the believer and the church

Shaped for beauty Eleonor Bredlöv,2018-09-06 The aim of this thesis was to answer the question How are vocational gendered subjectivities produced in vocational education for the beauty industry Drawing on Foucault and poststructural feminist theory this question is answered in four papers in which the material consists of beauty school recruitment and marketing material interviews with skin and spa therapy students and observations of practical skin and spa therapy training These are educational arrangements that are closely bound to the economic sector of the beauty industry and they have remained remarkably unexplored Various aspects of subjectivity production are explored throughout these papers Paper I shows how the potential beauty student is shaped through processes of responsabilising and individualising in recruitment Paper II shows how a scientific and caring professional emerges Paper III shows how students learn to adopt a critical gaze towards bodies and Paper IV shows how students are produced as emotional workers and learners taking Hochschild s term emotional labour as a point of departure The results show how medical scientific knowledge becomes a resource in the production of the skin and spa therapy professional mobilising gender relations of power and neglecting other types of skills and knowledge However relational and caring aspects of work and learning emerge in the study through the way in which wider discourses of femininity inform the ways in which students are produced as professionals Syftet med avhandlingen var att svara p fr gan Hur produceras yrkesm

Plotinus on Beauty Ota Gál,2022-03-21 The open access publication of this book has been published with the support of the Swiss National Science Foundation In this book Ota G l presents a new analysis of Plotinus conception of beauty beginning from a close reading of treatises I 6 and V 8 which link beauty with the unified multiplicity of Intellect This account is subsequently placed in a hierarchical and structural context in VI 2 and VI 6 and connected to illumination in VI 7 enabling us to determine the meaning of the predicate beauty at different ontological levels For Plotinus beauty is ultimately the illuminated unity in multiplicity of Intellect which as the manifestation of the Good simultaneously enables the soul s ascent and threatens to bind the soul to itself

All for Beauty Adrienne L. McLean,2022-07-15 Ever wonder why so many stars and featured players male or female in movies of Hollywood s Golden Age look like they just stepped out of a beauty parlor even if the story places them in a jungle a hospital bed or the ancient past All for Beauty examines how and why makeup and hairdressing evolved as crafts designed partly to maintain the white flawlessness of men and women as a value in the studio era The book pays particular attention to the labor force exploring the power and influence of cosmetics inventor and manufacturer Max Factor and the Westmore dynasty of makeup artists but also the contributions of others many of them women whose names are far less known At the end of the complex exciting and at times dismaying chronicle it is likely that readers will never again watch Hollywood films without thinking about the roles of makeup and hairdressing in creating both fictional characters and stars as emblems of an idealized and undeniably mesmerizing visual perfection
