A Historian and His World Christina Scott, 2023-03-17 The English historian of culture Christopher Dawson 1889-1970 was an independent scholar and the author of more than twenty books He served as assistant lecturer in the History of Culture University College Exeter 1925 Forwood Lecturer in the Philosophy of Religion University of Liverpool 1934 Gifford Lecturer at the University of Edinburgh 1947-1949 and as Professor of Catholic Studies at Harvard University 1958-1962 He was elected Fellow of the British Academy in 1943 and edited the Dublin Review during the Second World War This biography by Christina Scott Dawson's daughter is a sensitive portrait of a complex and fascinating scholar Unlike other English Christian converts of the twentieth century who excelled in literature like G K Chesterton or C S Lewis Dawson turned to the social sciences He drew from the new idea of culture as a common way of life emerging from anthropology at the time of the Great War to shape a new approach to history His study of the intimate relationship between religion and culture throughout world history shaped his trenchant criticisms of his own times He wrote in 1955 that the first step in the transformation of culture is a change in the pattern of culture within the mind for this is the seed out of which there spring new forms of life which ultimately change the social way of life and thus create a new culture Dawson's engagement with anthropology and the idea of culture marked an important moment of development in the Catholic intellectual tradition Christina Scott shows that Dawson is best understood as he himself interpreted his historical subjects in the context of the spiritual world in which he lived the ideas that moved him and the faith that inspired his action Dawson was not a historian of ideas for their own sake he had a passionate belief in their liberating power A Historian and His World will be of interest to intellectual historians historians of religion and culture and

students of modern Catholic thought The Introduction is written by Dawson scholar Joseph T Stuart and the book is graced by a postscript by Christopher Dawson reflecting upon the meaning of his work **Thomas Berry** Mary Evelyn Tucker, John Grim, Andrew Angyal, 2019-06-04 Thomas Berry 1914 2009 was one of the twentieth century's most prescient and profound thinkers As a cultural historian he sought a broader perspective on humanity's relationship to the earth in order to respond to the ecological and social challenges of our times This first biography of Berry illuminates his remarkable vision and its continuing relevance for achieving transformative social change and environmental renewal Berry began his studies in Western history and religions and then expanded to include Asian and indigenous religions which he taught at Fordham University Barnard College and Columbia University Drawing on his explorations of history he came to see the evolutionary process as a story that could help restore the continuity of humans with the natural world Berry urged humans to recognize their place on a planet with complex ecosystems in a vast evolving universe He sought to replace the modern alienation from nature with a sense of intimacy and responsibility Berry called for new forms of ecological education law and spirituality as well as the creation of resilient agricultural systems bioregions and ecocities At a time of growing environmental crisis this biography shows the ongoing significance of Berry's conception of human interdependence with the earth as part of the unfolding journey of the universe **Understanding World Religions** Irving Hexham, 2011-03-22 Globalization and high speed communication put twenty first century people in contact with adherents to a wide variety of world religions but usually valuable knowledge of these other traditions is limited at best On the one hand religious stereotypes abound hampering a serious exploration of unfamiliar philosophies and practices On the other hand the popular idea that all religions lead to the same God or the same moral life fails to account for the distinctive origins and radically different teachings found across the world's many religions Understanding World Religions presents religion as a complex and intriguing matrix of history philosophy culture beliefs and practices Hexham believes that a certain degree of objectivity and critique is inherent in the study of religion and he guides readers in responsible ways of carrying this out Of particular importance is Hexham's decision to explore African religions which have frequently been absent from major religion texts He surveys these in addition to varieties of Hinduism Buddhism Judaism Christianity and Islam **The Third Spring** Adam Schwartz, 2005-02 This book is the first detailed examination of these four authors as part of a Roman Catholic counter modern community of discourse It is informed by extensive research in the writers works scholarship on them and their personal papers

The Turn to Transcendence Glenn W. Olsen, 2012-07-30 Phenomenal A must read for us who desire to topple the dictatorship of relativism and culture of death and replace it with the only alternative The Imaginative Conservative Especially concerned with the public nature of religion historian Glenn W Olsen author of *Christian Marriage A Historical Study* and *On the Road to Emmaus* The Catholic Dialogue with American and Modernity sets forth an exhaustively researched and persuasive account of how religion has been reshaped in the modern period The Turn to Transcendence traces both the loss of transcendence and attempts to recover it while making its own proposals Neither reactionary nor modernist it questions how under conditions of modern life some form of the sacred and some form of the secular might both flourish at the same time But it also provides a warning that a religion unable to maintain itself with its own overt architecture language and calendars against an enveloping secular culture is destined for oblivion Glenn Olsen s book could hardly be more pivotal or insightful Confronting the growing amnesia regarding culture s religious origin and transcendent purpose Olsen proves both a masterful cartographer of modernity and a visionary of a culture that encourages and enables us to seek beyond ourselves Carl A Anderson Supreme Knight of the Knights of Columbus A brilliant book It rests on an amazing amount of scholarship that is wide ranging in history literature art science music theology and philosophy James Hitchcock professor of history St Louis University

Evolution and Victorian Musical Culture Bennett Zon, 2017-10-12 This engaging book explores the dynamic relationship between evolutionary science and musical culture in Victorian Britain drawing upon a wealth of popular scientific and musical literature to contextualize evolutionary theories of the Darwinian and non Darwinian revolutions Bennett Zon uses musical culture to question the hegemonic role ascribed to Darwin by later thinkers and interrogates the conceptual premise of modern debates in evolutionary musicology Structured around the Great Chain of Being chapters are organized by discipline in successively ascending order according to their object of study from zoology and the study of animal music to theology and the music of God *Evolution and Victorian Musical Culture* takes a non Darwinian approach to the interpretation of Victorian scientific and musical interrelationships debunking the idea that the arts had little influence on contemporary scientific ideas and by probing the origins of musical interdisciplinarity the volume shows how music helped ideas about evolution to evolve

Christianity and European Culture (Selections from the Work of Christopher Dawson) Christopher Dawson,1998-09 This book provides a comprehensive introduction to the development of Dawson's thinking on questions that remain of contemporary importance Dynamics of World History Christopher Dawson,2014-05-20 In scope and in vision Christopher Dawson's historiography ranks with the work of men like Spengler Northrop and Toynbee Several major themes run through Dawson's work but perhaps his most unique contribution was his insistence on the importance of religion in shaping and

sustaining civilizations Religion Dawson believed is the great creative force in any culture and the loss of a society's historic religion therefore portends a process of social dissolution For this reason Dawson concluded that Western society must find a way to revitalize its spiritual life if it is to avoid irreversible decay Progress the real religion of modernity is insufficient to sustain cultural health And an ahistorical secularized Christianity is an oxymoron a pseudo religion only nominally related to the historic religion of the West Dawson maintained that the hope of the present age lay in the reconciliation of the religious tradition of Christianity with the intellectual tradition of humanism and the new knowledge about man and nature provided by modern science Dynamics of World History shows that though such a task may be difficult it is not impossible

Christopher Dawson Joseph T. Stuart, 2022-01-14 The English historian Christopher Dawson 1889-1970 was the first Catholic Studies professor at Harvard University and has been described as one of the foremost Catholic thinkers of modern times Joseph T. Stuart argues that through Dawson's study of world cultures he acquired a cultural mind by which he attempted to integrate knowledge according to four implicit rules intellectual architecture boundary thinking intellectual asceticism and intellectual bridges Dawson responded to the cultural fragmentation after the Great War 1914-1918 through this multilayered approach to culture which was an instantiation of John Henry Newman's philosophical habit of mind Stuart demonstrates how Dawson formed his cultural mind practicing an interdisciplinary science of culture involving anthropology sociology history and comparative religion and applied his cultural thinking to problems in politics and education Catalog of Copyright Entries, Third Series Library of Congress.
