Histories and Philosophies of Carceral Education Marcus K Harnes, Barbara Harnes, Meredith A Harnes, 2022-09-27

This edited collection encourages philosophical exploration of the nature aims contradictions promises and problems of the practice of education within prisons around the world Such exploration is particularly necessary given the complex operational barriers to education and higher education in particular within prison based teaching and learning These operational barriers are matched by cultural and polemical barriers such as the criticism of diverting resources to and spending money on prisoner education when the cost of some education seems prohibitive for people outside prison More so than in other education contexts prison education may fall short of higher ideals because it is shot through with both practical and moral political problems and challenges especially in the age of global late capitalism high technology and mass incarceration or securitization This book includes insights and issues around a wide range of areas

including ethics religion sociology justice identity and political and moral philosophy *Religion and American Cultures* Gary Laderman, Luis León, 2014-12-17 This four volume work provides a detailed multicultural survey of established as well as new American religions and investigates the fascinating interactions between religion and ethnicity gender politics regionalism ethics and popular culture This revised and expanded edition of *Religion and American Cultures Tradition Diversity and Popular Expression* presents more than 140 essays that address contemporary spiritual practice and culture with a historical perspective The entries cover virtually every religion in modern day America as well as the role of religion in various aspects of U S culture Readers will discover that Americans aren't largely Protestant Catholic or Jewish anymore and that the number of popular religious identities is far greater than many would imagine And although most Americans believe in a higher power the fastest growing identity in the United States is the none those Americans who elect none when asked about their religious identity thereby demonstrating how many individuals see their spirituality as something not easily defined or categorized The first volume explores America's multicultural communities and their religious practices covering the range of different religions among Anglo Americans and Euro Americans as well as spirituality among Latino African American Native American and Asian American communities The second volume focuses on cultural aspects of religions addressing topics such as film Generation X public sacred spaces sexuality and new religious expressions The new third volume expands the range of topics covered with in depth essays on additional topics such as interfaith families religion in prisons belief in the paranormal and religion after September 11 2001 The fourth volume is devoted to complementary primary source documents *Ethical Dilemmas in Justice Studies* Julie Raines, 2024-02-09 The criminal justice system has morphed from a harshly punitive system to a distinctively more rehabilitative and restorative one focusing on supporting victims and changing offender behavior A variety of collaborative actors from police courts and corrections partner with social workers psychologists and community members who rely heavily on a civil law approach similar to alternative dispute resolution ADR While much of these innovations within criminal justice have been evolving over the last several decades students in criminal justice programs rarely hear much if anything about them This textbook seeks to address these gaps in the literature through the traditional Criminal Justice Ethics course with a case study approach It will explore the typical subjects taught in a Criminal Justice Ethics course including the concepts of virtues duties ethical dilemmas ethical systems moral reasoning police ethics ethical issues in the courts ethics within institutional and community corrections and the ethical treatment of juveniles In addition the book addresses the concepts of administrative ethics justice comparative and international justice humanitarian law and punishment and corporate misconduct Each chapter provides definitions for the terms that are being introduced along with examples and a variety of ethical dilemmas to work through as case studies
