Religion Under Socialism In China:

Religion Under Socialism in China Zhufeng Luo, 1991 A study of religion in contemporary China based on field research by Chinese social scientists Written by a group of scholars at the Religion Research Institute of the Shanghai Academy of Social Sciences it responds to the designation of religion as one of the twelve key topics for special study by the Sixth Five Year Plan for Economic Development an astonishing reversal for the cultural revolution goal of the eradication of religion completely and forever

Religious Diversity and Public Religion in China Zhibin Xie, 2017-03-02 This book addresses the issue of public religion and its implications in Chinese society Zhibin Xie explores various normative considerations concerning the appropriate role of religion in public political life in a democratic culture Besides drawing on the theoretical discourse on religion in the public sphere from Western academics it holds that the issue of religion in Chinese politics should be addressed by paying attention to characteristics of religious diversity and its political context in China This leads to a position of liberal constrained public religion in China which encourages religious contribution to the public sphere as a substantial component of religious liberty in China on the one hand and proposes some constraints both upon government and religions for regulating religious political discourse on the other

Religion and the Individual Abby Day, 2016-04-08 What does religion mean to the individual How are people religious and what do their beliefs practices and identities mean to them The individual's place within studies of religion has tended to be overlooked recently in favour of macro analyses Religion and the Individual draws together authors from around the world to explore belief practice and identity Using original case studies and other work firmly placed in the empirical contributors discuss what religious belief means to the individual They examine how people embody what religion means to them through practice considering the different meanings that people attach to religion and the social expressions of their personal understandings and the ways in which religion shapes how people see themselves in relation to others This work is cross cultural with contributions from Asia Europe and North America

Remaking China's Public Philosophy for the Twenty-first Century Jinghao Zhou, 2003-08-30 In this book author Jinghao Zhou uses for the first time the prism of public philosophy to examine Chinese society modernization globalization and democratization as a whole Challenging conventional thinking in China studies he examines China systematically in seven aspects history ideology economy politics religion education and China's future and does so from both Eastern and Western perspectives The volume asserts that the remaking of China's public philosophy is the key for the nation to achieve both economic and political prosperity making the bold argument that this remaking can contribute profoundly not only to China's development but to international peace and development as well In *Remaking China's Public Philosophy for the Twenty First Century* author Jinghao Zhou uses for the first time the prism of public

philosophy to examine Chinese society modernization globalization and democratization as a whole Challenging conventional thinking in China studies he examines China systematically in seven aspects history ideology economy politics religion education and China's future and does so from both Eastern and Western perspectives The volume asserts that the remaking of China's public philosophy the very principles and precepts it now takes for granted is the key for the nation to achieve both economic and political prosperity Zhou aims for a peaceful revolution of China's democratization while he explores a new paradigm in China studies making the bold argument that this remaking can contribute profoundly not only to China's development but to international peace and development as well

Religion and the State in Russia and China Christopher Marsh, 2011-01-20

Religions of the World J. Gordon Melton, Martin Baumann, 2010-09-21 This masterful six volume encyclopedia provides comprehensive global coverage of religion emphasizing larger religious communities without neglecting the world's smaller religious outposts Religions of the World Second Edition A Comprehensive Encyclopedia of Beliefs and Practices is an extraordinary work bringing together the scholarship of some 225 experts from around the globe The encyclopedia's six volumes offer entries on every country of the world with particular emphasis on the larger nations as well as Indonesia and the Latin American countries that are traditionally given little attention in English language reference works Entries include profiles on religion in the world's smallest countries the Vatican and San Marino profiles on religion in recently established or disputed countries Kosovo and Nagorno Karabakh as well as profiles on religion in some of the world's most remote places Antarctica and Easter Island Religions of the World is unique in that it is based in religion on the ground tracing the development of each of the 16 major world religious traditions through its institutional expressions in the modern world its major geographical sites and its major celebrations Unlike other works the encyclopedia also covers the world of religious unbelief as expressed in atheism humanism and other traditions

China's National Minority Education Gerard A. Postiglione, 2013-10-15 This volume focuses on policies and practices in the education of China's national minorities with the purpose of assessing the goals and impact of state sponsored education for China's non Han people's The essays in the four sections of this book examine cultural challenges to state schooling the extent of educational provision in minority areas the perspectives of Tibetan and Uyghur minorities toward state education along with providing case studies of four national minorities The book makes the point that despite the authoritarian character of China's state schooling diversity reigns

God Is Love K. H. Ting, 2004 This collection of writings is a reflection of Bishop Ting's thoughts and opinions in a changing political and spiritual environment that have existed over the past 57 years

Buddhism in World Cultures Stephen C. Berkwitz, 2006-04-06 A comprehensive overview of modern Buddhism across cultures showing how this ancient religion has adapted to recent social and political change Collecting the work of leading authorities on Buddhism in different societies around the world this book details the state of the religion in Asian countries where it is a major cultural influence and in North America The religion has changed to meet the challenges of modernity its

practitioners have incorporated those innovations and this work examines those changes in depth A comprehensive overview of historical Buddhist practice grounds the reader for the entire nine chapters each of which is organized by geographical area and follows the path Buddhism took as it spread across Asia and into North America Each chapter presents field research and critical reflection on what constitutes modern Buddhism in one of nine countries or regions Histories of Buddhism are common this is the only source for in depth information on modern Buddhism **We God's People** Jocelyne Cesari, 2021-12-16 Cesari argues that both religious and national communities are defined by the three Bs belief behaviour and belonging By focusing on the ways in which these three Bs intersect overlap or clash she identifies the patterns of the politicization of religion and vice versa in any given context Her approach has four advantages firstly it combines an exploration of institutional and ideational changes across time which are usually separated by disciplinary boundaries Secondly it illustrates the heuristic value of combining qualitative and quantitative methods by statistically testing the validity of the patterns identified in the qualitative historical phase of the research Thirdly it avoids reducing religion to beliefs by investigating the significance of the institution ideas connections and fourthly it broadens the political approach beyond state religion relations to take into account actions and ideas conveyed in other arenas such as education welfare and culture **Unstately Power** Lynn T. White, III, 2015-06-03 A critique of America's flawed Asia policy that centres on US Japan relations but harkens back to the same disastrous views that drew America into Vietnam The technique is a narrative flow of short vignettes woven into longer chapters the main strands are personal reflections and interviews Falun Gong and the Future of China David Ownby, 2008-04-16 On April 25 1999 ten thousand Falun Gong practitioners gathered outside Zhongnanhai the guarded compound where China's highest leaders live and work in a day long peaceful protest of police brutality against fellow practitioners in the neighboring city of Tianjin Stunned and surprised China's leaders launched a campaign of brutal suppression against the group which continues to this day This book written by a leading scholar of the history of this Chinese popular religion is the first to offer a full explanation of what Falun Gong is and where it came from placing the group in the broader context of the modern history of Chinese religion as well as the particular context of post Mao China Falun Gong began as a form of qigong a general name describing physical and mental disciplines based loosely on traditional Chinese medical and spiritual practices Qigong was invented in the 1950s by members of the Chinese medical establishment who were worried that China's traditional healing arts would be lost as China modeled its new socialist health care system on Western biomedicine In the late 1970s Chinese scientists discovered that qi possessed genuine scientific qualities which allowed qigong to become part of China's drive for modernization With the support of China's leadership qigong became hugely popular in the 1980s and 1990s as charismatic qigong qigong boom the first genuine mass movement in the history of the People's Republic Falun Gong founder Li Hongzhi started his own school of qigong in 1992 claiming that the larger movement had become corrupted by money and magic tricks Li was welcomed into the qigong world and quickly

built a nationwide following of several million practitioners but ran afoul of China's authorities and relocated to the United States in 1995. In his absence, followers in China began to organize peaceful protests of perceived media slights of Falun Gong, which increased from the mid 90s onward as China's leaders began to realize that they had created in the qigong boom a mass movement with religious and nationalistic undertones, a potential threat to their legitimacy and control. Based on fieldwork among Chinese Falun Gong practitioners in North America and on close examinations of Li Hongzhi's writings, this volume offers an inside look at the movement's history in Chinese popular religion.

Globalization and the Making of Religious Modernity in China Thomas Jansen, Thoralf Klein, Christian Meyer, 2014-03-20. Globalization and the Making of Religious Modernity in China, co-edited by Thomas Jansen, Thoralf Klein, and Christian Meyer, investigates the transformation of China's religious landscape under the impact of global influences since 1800. The interdisciplinary case studies analyze the ways in which processes of globalization are interlinked with localizing tendencies, thereby forging transnational relationships between individuals, the state, and religious as well as non-religious groups at the same time that the global concept of religion embeds itself in the emerging Chinese religious field and within the new academic disciplines of Religious Studies and Theology. The contributions unravel the intellectual, social, political, and economic forces that shaped and were themselves shaped by the emergence of what has remained a highly contested category. The contributors are Hildegard Diemberger, Vincent Goossaert, Esther Maria Guggenmos, Thomas Jansen, Thoralf Klein, Dirk Kuhlmann, Lai Pan-chiu, Joseph Tse-Hei Lee, Christian Meyer, Lauren Pfister, Chloë Starr, Xiaobing Wang, Riese, and Robert P. Weller.

Proselytizing and the Limits of Religious Pluralism in Contemporary Asia Juliana Finucane, R. Michael Feener, 2013-10-21. This volume brings together a range of critical studies that explore diverse ways in which processes of globalization pose new challenges and offer new opportunities for religious groups to propagate their beliefs in contemporary Asian contexts. Proselytizing tests the limits of religious pluralism as it is a practice that exists on the border of tolerance and intolerance. The practice of proselytizing presupposes not only that people are freely choosing agents and that religion itself is an issue of individual preference. At the same time, however, it also raises fraught questions about belonging to particular communities and heightens the moral stakes involved in such choices. In many contemporary Asian societies, questions about the limits of acceptable proselytic behavior have taken on added urgency in the current era of globalization. Recognizing this, the studies brought together here serve to develop our understandings of current developments as it critically explores the complex ways in which contemporary contexts of religious pluralism in Asia both enable and are threatened by projects of proselytization.

China and Christianity Stephen Uhalley, Xiaoxin Wu, 2015-03-04. This collection offers fresh perspectives on Sino-Western cultural relations with particular regard to the experience of Christianity in China. The contributors include authorities from China including Hong Kong and Taiwan, Europe including Russia and Eastern Europe, and North America.

Christianity and Capitalism in China Ottavio Palombaro, 2024-06-26. This book links Calvinist belief in the Perpetual

Assurance of Salvation with self efficacy for economic success Certain values are at stake for the success of economic behavior Since the genesis of modern capitalism a set of beliefs proper of Calvinism mainly Predestination but also Beruf Inner worldly Asceticism role of Sects was said by Max Weber to cause an anxiety about salvation and generate a propensity to economic success as a sign of election In order to observe this in action today it is crucial to consider the evolution that the Protestant ethic went through migrating first in north America and lastly through the Protestant revival of China Wenzhou is called Jerusalem of China for its large Protestant community that is also strongly involved in business Some scholar already pointed out the presence among those entrepreneurs of this Protestant ethic Yi Xiang Boss Christian The data presented in this comparative qualitative study pertain to ethnographic observations job shadowing and interviews done among Chinese Christian and non Christian entrepreneurs from Wenzhou living in Milan Italy The results show with some adjustments the presence of a Chinese version of the Protestant ethic overlapping with several values proper to the Chinese context Confucianism lineage social network The extension of the study to other cases must be done with caution considering the non causal justificatory role of the belief Regardless successful entrepreneurship involves specific social cultural and even religious aspects that move beyond mere business strategies

Religion and China's Welfare Regimes André Laliberté, 2022-04-23 This book presents the welfare regime of China as a liminal space where religious and state authorities struggle for legitimacy as new social forces emerge It offers a unique analysis of relations between religion and state in the People's Republic of China by presenting how the Chinese Communist Party CCP tries to harness Buddhist resources to assist in the delivery of social services and sheds light on the intermingling of Buddhism and the state since 1949 This book will appeal to academics in social sciences and humanities and broader audiences interested in the social role of religions charity NGOs and in social policy implementation The author explores why the CCP turns to Buddhist followers and their leaders and presents a detailed view of Buddhist philanthropy contextualized with an historical overview a regional comparative perspective and a review of policy debates This book contributes to our understanding of secularity in a major non Western society influenced by religions other than Christianity

Bibliography on East Asian Religion and Philosophy, 2001 This comprehensive research bibliography compiles annotates indexes and cross references resources in the principal Western languages which focus on China Japan and Korea in the areas of philosophy and religious studies supporting resources in theology history culture and related social sciences A notable additional feature is the inclusion of extensive Internet based resources such as a wide variety of web sites discussion lists electronic texts virtual libraries online journals and related material

Exporting Progressivism to Communist China Christopher D. Sneller, 2023-06-23 Using new archival research this book shows how Union Theological Seminary exported progressive Christianity to Communist China Founded in 1836 the New York seminary disseminated its version of Christianity to China through its alumni From 1911 to 1949 196 Union alumni went to China Thirty nine of these former students were Chinese nationals Many of these Chinese

students such as Y T Wu Wu Yaozong K H Ting Ding Guangxun John Sung Song Shangjie and Timothy Tingfang Lew Liu Tingfang became key leaders in the Sino Foreign Protestant Establishment and the Three Self Patriotic Movement The school became a dense hub of influential Chinese and American Christians Union s role in liberalizing and indigenizing Christianity in twentieth century China has been largely unnoticed until now
